D. A. Patterson, the county recorder, visited the court house on Monday last. This is the second time he has been able to get to his office during the past 20 months. He managed to get down himself, with the aid of a pair of crutches. He is looking very well as regards complexion, and seems to be holding his own as regards flesh. He is still suffering from chronic rheumatism, but not so severely as some months ago, when he was unable to get around at all without assistance.

Last Saturday between 12:30 and 5:30 in the afternoon—the occupants were away from home—the residence of W. D. Dufrene was broken into and robbed of ten dollars in cash. The robbers took advantage of the absence of the family, and gained an entrance by cutting a hole in the screen door on the back porch, which enabled them to get at the kitchen door, in which they bored four holes, and then unlatched it. After gaining an entrance they got into a room which is occupied by Mr. Dufrene as an office. In this room they found a small box, in which is kept papers of value, such as notes which are left in Mr. Dufrene's hands for collection. There were a great many papers, but only ten dollars in cash in this box. They left the papers but took the cash. The box belonged to the Amador County Bank and was only taken to the house temporarily. There were three gold watches in the house and twenty-five dollars in money that the burglars overlooked. Mr. Dufrene does not suspect any one in particular, but thinks it must have been some one to whom he has paid money in the past, as the indications are that the thieves knew just where he kept his money.

Another Old Timer Departed.

Harrison U. Parberry, well-known in and around Volcano, died at Bear River camp on Saturday last. His end came suddenly. He had been ailing for some time, suffering from heart trouble, but he was able to keep at his post until within a short time of his death. He was employed by the Standard Electric Company to take charge of the force of men engaged in charcoal burning. The remains were brought down to Volcano by stage on Tuesday, and were interred in the cemetery of that town. Deceased was one of the pioneer settlers of Volcano. He arrived in that camp in 1849, so we are informed, and has lived in that section ever since, with the exception of brief periods of absence. He was a general whole-souled fellow, and his death will be deeply regretted by his large circle of friends.

A Heavy Special Tax.

In Enterprise school district there has been levied a special school tax of 70 cents on each one hundred dollars of assessable property. This is the maximum limit of special school tax, although it is not near enough to raise the amount of money that the trustees required. The trustees called a special election to vote on the proposition of raising \$200 for school improvement. The tax was voted without opposition.

The next thing was to ascertain how much of a tax would be needed to raise the required amount. And right here they ran against a snag. It was found that the assessment roll of that school district footed up between \$14,000 and \$15,000. Reckoning on 85 per cent of this amount, as the law requires, it was found that to raise \$200 a special tax of \$1.70 on the \$100 would be required. But the law wisely interposed its veto to the levy of such a burdensome tax in one year, by placing the limit at 70 cents. This certainly ought to be steep enough to meet the views of the most ardent school reformer; at any rate, we venture to say it is the utmost drain upon the pockets of the residents of Enterprise that the law allows. This levy will have to be repeated next year, and still leave a shortage that will require a tax rate of 30 cents for the following year to wipe out. Enterprise district has about 30 census children within its limits. The district enjoys the distinction of distancing all competitors in the matter of special taxes.

Health Officers' Reports.

Dr. A. L. Adams of Ione, reports that no cases of infectious or contagious diseases have come under his observation. He was called to investigate two cases of glanders—a horse and mule, and quarantined them to await developments. The animals were subsequently killed.

Dr. B. T. Freshman of Township 4, reports an epidemic of scarlet fever, eight cases having occurred at Amador City, also two cases of diphtheria and one case of smallpox. He attributes the outbreak of scarlet fever to failure in previous cases to enforce disinfection of premises and personal effects.

Dr. B. H. Schacht at Jackson, reports the quarantine lifted on the two cases of smallpox, and no case of the disease existing at present. Four cases of scarlet fever occurred, all recovered except one, at present under treatment and premises quarantined.

PINE GROVE, Oct. 10.—Since my last letter we have been blessed with several heavy rains. The dust is about settled, and the mud has taken its place. Teaming is about done for the season: the timbers and wood are about cleaned out.

I think it would be a good idea if our supervisor would look about the road a little here. The Aqueduct grade has
