THE EYES. Black or very dark eyes denote a capacity for extreme ardor in love. Greenish tints in blue or hazel eyes are the signs of wisdom and courage.

Our Animals. A dish of fresh water is a constant necessity where there is a dog or a cat, even though they never appear to touch it.

Read With Ease. A writer in Leslie's Monthly says: A schoolbook that is in my possession, dated 1832, has pencilled inside the front cover these lines:

His Altruistic Conscience. Fuddy—You say you have a very tender conscience. I notice it is wonderfully sensitive to the faults of others, but it never appears to be troubled by your own shortcomings.

A Dog's Fidelity. In the upper part of the famous Sequatchie valley, in east Tennessee, a man and his wife settled when the country was new and wild. One of the first crops that they raised was a considerable field of cotton.

Strictly Regular. The darkey's fondness for chicken is only equalled by his dexterity in getting possession of the birds. Weak considerations of mine and thine do not trouble him in the least.

WHALES AS THEY DIVE. Something About the Habits of the Ocean Monsters. Both whalers and naturalists have usually held that when whales "sound" they descend to great depths, says Knowledge. One writer on the subject estimates that the larger members of the group dive fully a thousand yards.

COLD WAVES. They Purify the Atmosphere and Benefit the Human System. The cold wave, so much dreaded by most people, is really a blessing in disguise. It charges the atmosphere with fresh oxygen and a surplus of free electricity, which produces a most exhilarating and beneficial effect upon mankind.
