

TO FLOOD EAST WITH POST CARDS

Every Californian Will Work For Panama-Pacific Exposition

Following the appointment of OCTOBER 10-17 as POST CARD WEEK, the Special Post Card Committee of the Panama-Pacific International Exposition announces the plan of campaign.

Letters have been dispatched to every commercial body in California asking that a central committee be appointed by each to take local charge of POST CARD WEEK; and tonight many representatives of the exposition company leave San Francisco to make a round of the State to assist in organizing such central committees and otherwise to stimulate interest. It has been suggested that the women's clubs, the schools, the Native Sons and other fraternal organizations work under the direction of and in conjunction with each local central committee.

An exceedingly artistic design has been accepted for the official post cards. They will bear the Panama-Pacific Exposition seal, and read

Get your Congressman To vote for the PANAMA-PACIFIC INTERNATIONAL EXPOSITION

at the EXPOSITION CITY, SAN FRANCISCO, 1915.

California will Give an Exposition That Will Be a Credit to the Nation.

In each city, town and hamlet of California, a supply of these cards, which will be printed by the million, will be on sale. They will be there several days before the beginning of POST CARD WEEK, the places of sale to be announced through each local central committee. Every Californian who can write is expected to dispatch out of the State at least five of these official cards. All business and social letters sent out during POST CARD WEEK should contain reference to San Francisco and the exposition.

The time for sending out these appeals has purposely been restricted within the confines of one week, in the expectation that such an overwhelming flood of cards will simultaneously descend upon the country that congressmen will be started into a realization that California has an immense organization of compelling power, the influence of which is not to be despised.

Beside the special cards issued by the Exposition, the post card companies are printing upon their own responsibility cards bearing California scenes and slogans. They intend flooding all their California agencies with these cards in ample time for sale during POST CARD WEEK.

BOOSTERS GET BUSY

Write to Congressional Friends to Work for San Francisco.

GET YOUR CONGRESSMAN TO VOTE FOR SAN FRANCISCO-1015

At the head of this editorial we run the trade mark of the Panama-Pacific Exposition Company, which is handling the arrangements to have San Francisco selected as the site for the proposed Panama-Pacific Exposition to be held in 1915 to commemorate the completion of the Panama canal in that year. Among other things the trade mark says: "Get your congressman to vote for San Francisco, 1915."

We have no reason for appealing to our congressmen, for William F. Enghright is one of the enthusiastic boosters for San Francisco. But it is probable that many of our readers who have come from the East, South and Middle West to settle have congressmen whom they know and to whom they could write with great effective ness. If there are any such it is their duty to obey the admonition contained in the trade mark of the exposition company of San Francisco.

It would make us ridiculous in the eyes of the world if we reject the proposition to bond the State for \$5,000,000. For years we have boasted being the most progressive commonwealth in the Union. We have advertised this fact, and now some of our narrow-sighted but well-meaning contemporaries would throw back the moving hands of progress and put us in the column of dead and forgotten States. It must not be. California must maintain her prestige and vote for bonds for the proposed exposition. — Nevada City Miner-Transcript.

Gloom in New Orleans.

It is said that New Orleans is gloomy over the census figures, as these may tend to injure her chances for the Panama exposition. She need not worry so much over the census returns as over San Francisco's post-card campaign, which is to be launched in a few days.—San Jose Times.

CLEANING CHINA AND GLASS.

How to Care For Fine Dishes and Delicate Glassware.

Ordinary everyday china may be washed first in hot soapsuds, then in a clear rinsing water, and dried with soft, clean dish towels. A housekeeper should watch her maid carefully to see if her methods of dishwashing are approved. She should provide her maid with a hand mop, a half dozen good dishcloths, a soap-suds maker—that is, a small receptacle to hold the suds and ends of soap, which, when shaken in the hot water, will create a whole pailful of suds—and two dish-pans, one for washing and one for rinsing. The maid must learn, and she usually does by bitter experience, that to put delicate glassware into scalding hot water means death and destruction to the glassware. The same thing will happen if hot tea is poured into a cold and brittle teacup. This causes sudden expansion, and the piece cracks either under the glaze or quite through it. It is a simple matter either to warm the cups by pouring in a little warm water or by putting them in a warm oven for a moment or, better still, by pouring the tea over a silver spoon resting on the cup.

The heaviest cut glass cracks under a change of temperature. An ice cream dish of this costly ware was once split in half while the mold of ice cream was being helped. Inquiry at the factory disclosed the fact that the sudden fall of temperature, combined with the pressure in cutting the ice cream, had caused the accident. Had the dish been set in the refrigerator a little while before the ice cream had been served it would never have split in half. In washing cut glass, therefore, place it in warm water first before putting it in the hot soapsuds.

When cleansing delicate and costly china strong soaps and soap powders should be avoided. They will surely eat into the glazing and decorations. Either ammonia or borax is safer. In arranging handsome china on the shelves soft mats should be placed between the plates to avoid scratches and nicks. The cups should be hung by their handles from books. This is much safer than piling them up on the shelves. Platters should rest lengthwise in a groove on the back of the shelf.

In washing handsome glass and china there should always be an exceedingly soft cloth to be used for a polisher after the piece has been dried with the usual dishcloth. In washing ordinary china it will be found that the better the water the easier the pieces are to dry and the shinier they will be.

SUMMER HEADACHE.

How to Relieve It by Use of Fresh Mint Leaves.

Though mint under certain jovial mixtures has been known to give many a summer headache, it is also a cure for it, according to one sufferer. A woman was much troubled with headache that came from heat. She tried many remedies unsuccessfully until an old colored woman told her of a cure much used among southern negroes.

Fresh mint leaves are gathered, crushed into a juicy mass and bound across the head with a handkerchief. Relief quickly follows. This is due, thinks the woman, to the soothing odor of the mint as much as to any healing qualities. Soon after the potion was applied she dropped into a refreshing sleep and usually awoke cured. In very severe cases the woman mixed a little witch hazel with the mint in crushing it.

How to Bake With a Gas Range.

The oven of a gas range is hotter than the old fashioned coal range, which accounts for the difficulty sometimes encountered by beginners in their use in successfully and evenly baking. To obtain the best results for baking loaf cakes, etc., the oven should not be heated more than five minutes before using, but it should be heated five minutes, and when the baking is begun a moderate heat should be maintained. A full realization that the heat in a gas range is direct and certain and easily controlled will bring success to the user. Once you know how long it takes and what degree of heat to cook an article you will never again make a failure if you are careful to watch the time.

How to Darn a Glove Finger.

If you want to mend a glove finger in a hurry and have no special darning hand, use a boy's marble to slip under the hole. These come in different sizes and make a small neat darn easy. Rips should be mended on the outside with a thread as much like that used in stitching as may be. Strive to imitate the seam sewing. Tears in the material may be overcast in tiny stitches on the wrong side, or if they are jagged the edge should be button-holed and the space filled with other rows of the buttonholing. Always use a fine needle in glove mending, as a heavy one weakens the kid.

How to Put Cotton in Quilts.

Time and patience may be saved when putting cotton in quilts if the cotton is first rolled about an ordinary yardstick. Spread the cotton out on a large table or on the floor, roll on the stick, then transfer to the quilt foundation and unroll.—Delineator.

How to Thaw Frozen Water Pipes.

When it is not convenient to apply heat to frozen pipes to thaw them, spread a cloth thickly with unslaked lime, fasten it around the frozen pipe and throw water on it. The heat produced as the lime slakes is great enough to thaw the ice.

MASS MEETING IN SUTTER CREEK

High School Discussed

A mass meeting was held in Levaggi hall, Sutter Creek, last evening, on the high school question. There was a large attendance, and all seemed enthusiastically in favor of the project.

W. H. Greenhalgh was made chairman, and made the opening address. The principal speaker was Prof. McClymonds, of the school department of Oakland. W. J. McGee, Rev. Easterbrook, W. L. Rose, C. P. Vicini, J. M. Benson, also addressed the meeting.

All the county candidates were made vice presidents.

The committee on organization, consisting of C. H. McKenney, Mrs. C. N. Johnson, Mrs. M. D. Nixon, Mrs. M. Marks, Mrs. W. E. Tucker, Mrs. W. J. McGee and C. N. Thoms, reported as follows:

Your committee, appointed to formulate a plan of campaign for the County High School election, to be held November 7th, do hereby report as follows:

1st. We recommend that the committee, whose names are appended to this report, be appointed to assist in carrying the High School election in their respective towns or precincts

2nd. That each committee have the entire management of the campaign in its precinct, or town, and conduct the same as in its judgment will best serve the public good and the success of the County High School.

3rd. That each committee be urgently requested to meet in its town, or precinct, at once to formulate its own plan, appoint such sub-committees as it deems advisable and provide for the attendance at the polls on election day, of one or more active workers in behalf of the county high school.

4th. That Mrs. Bayliss C. Clark be appointed chairman of all the committees, and a member of each committee and that she be authorized and requested to notify each committee of its appointment, advise with and extend to each committee all aid possible.

Order to Show Cause Why Order of Sale of Real Estate Should Not be Made.

In the superior court of the county of Amador, state of California.

In the matter of the persons and estates of Elvie H. Troyan, Hilda J. Troyan, and John G. H. Troyan, minors.

Appearing to this court from the petition this day presented and filed by Amanda Emma Troyan, the guardian of the persons and estates of Elvie H. Troyan, Hilda J. Troyan, and John G. H. Troyan, minors, praying for an order of sale of certain real estate belonging to said wards, and that it is for the best interests of said wards, and necessary that such real estate should be sold;

It is hereby ordered that the next of kin of said wards, and all persons interested in the said estate, appear before this court on Saturday, the 12th day of November, 1910, at 10 o'clock a. m., at the court room of this court, in the city of Jackson, county of Amador, state of California, then and there to show cause why an order should not be granted for the sale of such estate.

And it is further ordered that a copy of this order be published at least once a week for three successive weeks before the day of hearing, in the Amador Ledger, a newspaper printed and published in said county of Amador.

Dated October 11, 1910.

FRED V. WOOD, Judge.

Tickling in the Throat

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—a regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about this. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

Constipation positively prevents good health. Then why allow it to continue? An active liver is essential to the health of the body. What does your doctor say?
