**PICTORIAL UNDER WAY.**

The Special Edition of the Daytona Gazette-News for the Season of 1907-8 Soon to be Published.

The mammoth Pictorial Edition of the Gazette-News for the season of 1907-8 will be from the press in the course of a few weeks. Many improvements will be made over last year's edition, notably among them new title pages, beautiful illustrated headings and many new plates. The article on Daytona was written by L. C. Demaree, well known to many Daytonians, in his usual snappy style. The advertising rates will remain the same as last year and Gazette-News representatives are already passing among the business men. As a rule they appreciate the vast good this special edition will do for this section in the way of giving publicity to our manifold attractions and are doing their part to make the edition a success.

F. M. Rowe, of the well known jewelry firm of L. H. Rowe & Co., said to the Gazette-News the other day: "Of all the advertising ideas we have patronized none has given us better satisfaction than the Pictorial Edition of the Gazette-News. I know of 25 persons that last year's edition induced to come here from one county in Pennsylvania, and I know that our firm received over \$200 in sales from that party. No use talking, it's the best investment that anyone interested in the welfare of Daytona can ask for."

Pretty strong testimonial, isn't it? But others speak just as highly, and the better the business men patronize the advertising columns, the better will be this year's edition.

The publishers do not aim to make money out of the project, but desire to make the financial ends meet and at the same time issue an edition to be proud of. Salam.

The stork left a girl baby at the home of Mr. and Mrs. F. Brubacher on Second avenue, Friday, Sept. 20.

# America is a nation of dyspeptics

The use of lard in cooking is the main cause. For your own protection you should divorce yourself from all food cooked with lard. Instead, use *Cottolene*, the purest and most palatable shortening possible to produce.

*Cottolene* is made from refined vegetable oil and choice, beef suet, is full of richness, yet free from dyspepsia.

It will give you better food, and food which will agree with you.

*Cottolene* is never sold in bulk. It comes in sealed white pails, with red label and band. In the center of the label is our trade mark—

a steer's head in cotton plant wreath. *Cottolene* is not exposed to all the odors which surround it; lard is, because it usually comes in bulk.

The quality of *Cottolene* is guaranteed. We stand behind it. You take no chances in its use.

Forstall dyspepsia by the use of *Cottolene*. Any good grocer will supply you.

A thorough trial of *Cottolene* will make you wonder why you stuck to hog lard so long.

**COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.**

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

**A NEW FEATURE**—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.
