Kimmons Bros.

South of the Kimmons Lumber Yard.

KENNA POOL HALL.

STILL IN BUSINESS

But now

It's POOL BALLS

Instead of

"HIGH BALLS."

Crawford & Brogdon.

Same old "Heidrick," same old "Jim," but "tamed down."

The Stark Year Book for 1910

Is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a

catalogue of Stark Nursery products. Within its covers are 32 full-page illustrations of fruits and flowers, representing 175 varieties, done in four colors, and exactly reproducing nature. 84 pages are devoted to descriptions, prices, and records.

Stark Delicious, the apple that has revolutionized orchard planting and established a new standard of apple values (selling at \$10.00 per bushel box this year); Stark King David, another apple of wondrous quality and merit; Stark King Philip, a hardy black grape of California grape quality, and dozens of the very best things in the horticultural world are fully described, illustrated, and priced.

To any one planting one tree or many, of fruits or ornamental, this book is of inestimable value—a horticultural text-book—a guide to proper selection.

Stark trees have stood the supreme test of actual planting for 85 years—they are the yard-stick by which all other nursery products are measured—they are the first choice of this country's most successful orchardists. The success of the orchard is dependent on the kind and quality of tree planted. Stark varieties are the best of the best. Our record of 85 years of successful selling is a positive guarantee of tree quality.

Before you decide to buy, send 7 cents for the Stark Year Book—do it today before the edition is exhausted.

Dangers in Dancing.

Dancing has been extolled as a most healthful recreation; as a means of physical culture it favors the development of the muscular system and promotes health and cheerfulness. And dancing is carried on by women whose fashion of dress is of such a nature as to injuriously affect one or the other organ of the body.

Young girls appear to experience no fatigue after it. They will not miss a single waltz, polka or square dance, but if the pulse of one of these indefatigable devotees is felt after the dance is finished it will be found to be the majority of cases that the number of pulsations is far in excess of the normal, and from this it may be inferred that the condition of the heart must react prejudicially upon the entire organism, and it justifies an apprehension of danger where girls are delicate.

Lure of the Club.

It is not at all true, as some people aver, that the lure of the club is the spirituous refreshment to be found there or its aloofness from the restraining eye of critical womankind. But it is true that it represents the highest development along lines of physical comfort as this is known and sought for by the animal man, and if the ladies, on the few days of the year when they are admitted within the doors of these sanctuaries of masculine luxury, would study what they see there they would speedily be made aware, by the objects visible before them, of the sort of indoor environment that most appeals to the soul of the average man.—John Kendrick Bangs, in *Suburban Life*.

NOTICE TO COR-

RESPONDENTS.

County correspondence on matters of general interest is welcome and appreciated. Neighborhood news is especially desired. All matter intended for publication should reach us as early in the week as possible, not later than Wednesday at farthest, and if by southbound train should be mailed so as to reach us Tuesday evening. In writing names please use care to write them plainly—and do not say "Mr. Smith, Miss Jones or Mrs. Farris," but write it "J. C. Smith, Mrs. A. H. Farris or Miss Hattie Jones," as the case may be, so that the readers may know which Mr. Smith, Mrs. Jones or Miss Farris is the subject of the item, and thus avoid confusion of names and parties.

MRS. W. T. COWGILL,

Local Editor.

KENNA

is one of the best located towns in New Mexico. It lies in a little valley on the Eastern Railway of New Mexico, a branch of the Santa Fe running Southeast from Amarillo Tex., through the towns of Hereford, Texico, Clovis, Portales into the far-famed city of Roswell, N. M., thence through the fertile Pecos Vally to Carlsbad, and on again into Texas. But first, a few lines about the NEW STATE:

New Mexico.

122,000 Square Miles;

72,000,000 Acres of Land,

50,000,000 Yet Subject to Entry;

7,000,000 Sheep, Producing, annually,

20,000,000 Pounds of Fine Quality Wool.

1,500,000 Cattle, Shipping over 200,000 annually.

RICH IN MINES.

GOLD,

SILVER,

COPPER,

LEAD,

ZINC,

IRON ORE, and

Billions of Tons of Fine COAL.

A Population of 326,396

Must be a good country, where so many people prefer to live. Now a little more about New Mexico, and then we'll talk again of KENNA.

There are 3,500 miles of railroad crops a year. We have hay and 200 miles more under construction. There are all kinds large in size, best in quality, including figs but citrus, vegetables of all classes, celery shipped a thousand miles, asparagus, Mesilla valley onion (excellent tonic for matism or neuralgia,) and prize for weight and quality at the World's Fair at Chicago. Alfalfa yields from three to five and numerous monthly and quarterly periodicals. New Mexico has a good system of public schools as can be found anywhere. Towns have from one to eight school buildings, some costing \$50,000 or more. There are 1,300 teachers, male and females, about 100,000 pupils; many religious denominations have schools and colleges in many towns, cities, villages and even in Indian towns (pueblos) with thousands of pupils.

What we want to impress on your mind about KENNA is this—It is a little new town in a new country that you ought to live in. It is in CHAVES COUNTY, one of the best counties in the state. We have schools and churches, good water, healthful climate, and we are surrounded by good lands. It is a fine farming and stock country. You can get you a good home here. There is still good Government Land within 15 to 20 miles of Kenna, and you can get 320 acres free by residing upon and cultivating it. We have a United States Commissioner here, and he will help you to get land. We want you to come and build you up a home. If you want more information write this paper.

GET YOUR EYE ON

Kenna, N. M.
