Estancia Valley

As graph could well they want to know

Where is the most suitable place to go? The Estancia Valley is the best anywhere

It seems immigration has centered there. Some of our people came seeking health. Most of them came with but limited wealth.

All of them came with this object in view

To build up a home in a country quite new.

The question is, what is this country to be?

Compare it with other new countries and see.

Think of those places where fine homes are found

Does there was nothing there but the

bare ground.

What was there then offered to the men of toil?

Nothing at all but the free use of the soil.

Yes the use of the water and air were free

Just as it is here for you and for me.

First they built houses after necessities plans.

Then came convenience and comforts demands

But now homes of beauty and splendor are seen

Glistening in the sunlight, like a gold sheen.

What has brought all these changes around?

The man who kept trying—his effort were crowned.

Now history will repeat itself, that very clear.

And what they have got there, we too can have here

Then whose will they be, when the better days come?

Those who have patiently built up their homes.

And this is just right, as everyone knows.

For it is a matter of choice—who stays, or who goes.

—H. G. BEDFORD.

Always
In
Front

means the best quality all the time. Every piece of lumber in the Studebaker wagon is air-seasoned four to five years; then inspected rigidly before being used.

Selected New England black birch hubs; choice white oak spokes and felloes; the best butt cut, second growth life-size axles; spokes are slant shouldered and driven into the hubs under a hand-cut iron pressure; reinforced in every way that adds strength, with refined front paint in a thorough and durable manner. That's why the

Studebaker Wagon

has kept the lead from its team days down to the present day. Every Studebaker wagon is made on honor. You'll see the Studebaker Wagon because it is the kind that gives satisfaction and makes friends. Come in and look them over. They are in many styles, from the lightest farm wagon to the heaviest log wagon. Call and get a Studebaker booklet. We want everybody interested in vehicles to have one.
