NEWS BY TELEGRAPH

Sidney Dillon Elected President of the U. P. R. R.

The N. Y. Times Speaks Emphatically Concerning Star Service.

Designs Against Mexico—Presidential Nominations.

A Heavy Express Robbery at Louisville, Kentucky.

The New Secretary Conferring With the Ute Chiefs.

Washington News.

Chicago, Ill., March 9.—A *Tribune* Washington special says: The extra interest to be paid on account of the failure to pass a funding bill before next winter will be about \$10,000,000, on a 3 1-2 per cent basis, or \$13,000,000 on a 3 per cent basis of funding. There remains unsettled \$1,046,002.200 of 4 per cents which the Secretary of the Treasury may sell, and with the proceeds purchase redeemable 5 per cents or 6 per cents. Whether he will think it wise to do this may be regarded as very doubtful.

An *Inter Ocean* Washington special says: An intimate friend of the President said to-day, that he would probably tender Fred Douglass a mission in place of the Marshalship of the District of Columbia. The question has been a serious one during the administration of Hayes, and it is said, at times, to have made the situation unpleasant for all concerned. The Marshal, here, is in a measure a part of the executive household and in the capacity of an equal, met many who had been used to meet persons of Fred Douglass' race only in the capacity of servants, which has made it unpleasant. In Washington, more than almost any other place, prejudice of race lingers, and it is thought a more congenial place can be found for the present Marshal. The mission to Brazil, where numerous colored men hold high official positions, and one of the most desirable places in the gift of the Government, as far as the other places on this continent are concerned, it is thought would suit him.

Gen. A. S. Hurlbut, of Illinois, is said to be working for the Mexican mission.

Congressman Pacheco, of California, is strongly recommended for the Mexican mission. He is of Mexican extraction, while thoroughly American by birth and education and an orthodox Republican. The fact that he speaks the Spanish language as well as English, will be urged in his behalf as tending to give him a higher place in the confidence of the Mexicans than any other man who could be selected for the place. This, it is said, will have a peculiar weight at this time, when the attention of the business men of this country is being turned upon Mexico, and there is an inclination to atone for past infringements upon the international courtesy which is alleged to have been suffered by our sister Republic on our hands.

One of the first appointments to leading diplomatic places on this continent it is said, will be a successor to Minister Christiancy. It is rumored that Hurlbut will not be retained in the Chili mission.

E. R. Smalley is said to be anticipating a foreign mission, and Col. John Hay, it is said, will be tendered one.

No Decision.

Washington, March 9.—Up to the close of business at the Treasury Department to-day, Secretary Windom had not received the decision upon the pending request of the National Banks, that they be allowed to re-possess and use the bonds in the Treasury and withdraw the legal tenders recently deposited for the purpose of retiring their circulation. Secretary Windom in a conversation to-day, referred to the question as one of vital importance, and said that he was most desirous of having it determined at the earliest possible moment, but owing to the great pressure of business he had not been able to decide. Inquiries made of officers of the Treasury as to the authority upon which the present regulations of the department rest, elicited many varying opinions. The Comptroller of currency stated that the question had never been before the department for decision, and that in no case where bonds had been deposited to retire circulation, had legal tenders been surrendered. Other very prominent officers expressed the opinion that during ex-Secretary Bristow's administration the question was orally decided against permitting the surrender of lawful money deposited. The referred to maintain that there is nothing in the law which authorizes such surrender, and that the statutes expressly provide for a mode of procedure which has invariably been followed by the department, namely: That a deposit of lawful money once made to retire circulation cannot be surrendered but must be held until expended in the redemption of circulating notes of the bank making such deposit originally.

U. P. Directors.

Albany, March 9.—At the annual meeting of the stockholders of the U.

Star Service.

N. Y. March 9.—The *Times* prints statement under the head "Glaring Frauds Exposed," and says in comment editorially, that it is like the river and harbor jobs. The star route job has so many friends in congress that the flimsiest of excuses have been sufficient to cover up what is, to use the mildest term, gross extravagance in the postal service. These extravagances have caused a large deficiency in the appropriation for post offices and post roads, and have nevertheless been sanctioned by congress. Brady has been a persistent lobbyist whenever any attempt has been made to curtail the expenses of his business, and Congressmen have been found ready to believe that a mail service which was let at \$12,000 should be increased to \$136,000 a year for the good of the public. Now that a practical and active man is at the head of the post office department, we may be certain that the gross abuses which have flourished under Brady's management will cease to exist.

Our Neighbors.

City of Mexico, March 1.—The committee appointed to examine into the question of the national debt reports that the one hundred and forty-five millions of debt should be recognized. The committee recommends the consolidation of the debts and the issuing of bonds bearing three per cent interest to the holders, the present bonds to be received for subsidy lands.

It is reported that a great number of Germans from San Francisco will settle in the neighborhood of Acapulco where they are obtaining land at forty cents per acre, payable in ten years. The government has granted to Manuel Castro of California forty-two leagues of land between Yaqui and Mayo rivers. The police apprehended near Acapulco eight armed men distributing proclamations in favor of socialism and otherwise endeavoring to disturb the peace.

The Intended Seal.

New York, March 9.—The *Herald* in reviewing the Mexican affairs characteristically says that it is whispered that vast designs are on foot with reference to those regions whose mineral wealth will soon cause California and Nevada to cede acknowledgment that they are ahead. If any evidence can be given to several of our inspired contemporaries, the new plot against the independence of Mexico, far exceeds in magnitude the abortive design of Hayes in 77 which was so properly frowned down by our new premier. As however, Blaine must be supposed to have the courage of conviction, is soothing to reflect upon the disunity which his appointment as Secretary of State, has brought to the camp of the restless plotters against the peace of the two great American republics.

Conferring With the Utes.

Washington, March 9.—Acting Commissioner Indian Ag't Berry and three Uncomphagre Ute chiefs held a conference to-day with Secretary Kirkwood of the Interior Department in relation to selecting lands under the new treaty for the Uncomphagre Ute Indians. They expressed a desire to have lands apportioned to them a part of grazing and agricultural purposes and claimed that along the Rio Grande river, where under the Nebraska treaty they are to be located there is not sufficient land of this character. After the Indians had made known their wants the conference adjourned to meet tomorrow, when it is expected that the department will be prepared to offer them assurance that in the selection of lands their wants will be satisfied.

Caucusing.

Washington, March 9.—The Democratic caucus is hearing the report of the committee on the reorganization of the Senate committees. Davis of Illinois is given the chairmanship of the judicial committee and McPherson and Pendleton succeed Keenan and Wallace on the finance committee. The Republicans are also in caucus. The president, Blaine and Windom now favor the extra session and unless the present status changes the extra session will be called about the middle of May, when the Republicans can control the House and probably the Senate also.

Mahone again refused to enter either caucus to-day. His continuance of silence is not improbable.

Arrested for Larceny.

Pueblo, March 9.—A despatch was received here this morning from Capt. Schitdel, commander at Fort Garland, directed to Col. Rankin of this city, notifying him to arrest and hold one Neil Vincent for grand larceny, the fugitive having stolen a government horse, a fur cap, a pair of gloves and a gold watch from the cantonment on the Uncomphagre a few days ago. The despatch was handed to deputy U. S. Marshal Central, and Deputy Sheriff Sam Duke, and after a sharp search of about five hours they nabbed their man 12 miles southwest of the city who was working as a section hand on the railroad and had him safely lodged in the Pueblo county jail.

U. P. Directors.

Albany, March 9.—At the annual meeting of the stockholders of the U.

P. Railroad Company the following board of directors were elected: Sidney Dillon of New York; Elisha Atkins, Frederick Amos and Ezra H. Baker, of Boston; H. H. Clark, of Omaha; F. Gordon Dexter of Boston; Davis Dows of New York; G. W. Dodge of Council Bluffs; T. T. Reekert, Jay Gould, Selon Humphreys and Russell Sage of New York; W. M. Scott of Erie, Pa.; John Sharp of Salt Lake City and Augustus Schell of New York. The directors subsequently elected the following officers: President, Sidney Dillon; V. P. Elisha Atkins; Secretary, and Treasurer, Henry McFarland.

The Result of Negligence.

Washington, March 9.—An inquest was held yesterday over the body of Harry Friebrun, engineer on the Baltimore and Ohio railroad, who died of injuries received in the recent accident near Scrercon. Among the witnesses was John Roy, conductor of an extra train. During the examination he said "Friebrun and I had orders read over to us twice by the dispatcher in Baltimore, and the accident was due to our carelessness. Harry is dead now and I alone am responsible." The jury found that Friebrun came to his death by a collision which occurred through the negligence of himself and John Roy, conductor on the extra south bound train.

Nominations.

Washington, March 9.—The President to-day nominated Levi P. Morton U. S. Minister to France; Wm. M. Everts, Allen G. Thurman and Timothy O. Howe commissioners on the part of the United States to the International Monetary Conference at Paris; John W. Green, Collector of Internal Revenue, Second District of Iowa; Robert S. Taylor of Indiana member of the Mississippi River Improvement Commission. The Senate confirmed the nominations of Everts, Thurman and Howe as commissioners to the International Monetary Conference.

Losses By Floods.

Omaha, Neb., March 9.—It is estimated that the breaking up of the ice and flood in the Republican river has caused a loss of over one hundred thousand dollars in the Republican valley in Nebraska. The bridges at Bloomington, Orleans, Franklin, Red Cloud, Indianola, Hardy and Republican City went out with the flood causing a loss in bridges alone to the amount of \$50,000. The Franklin flour mill is a total loss of \$10,000 and the Orleans flour mill was damaged to the extent of \$5,000; the Franklin cheese factory was destroyed to the amount of \$1,000.

Electric Light.

Cleveland, March 9.—A remarkable electric light is manufactured to order here by Brush & Co. for use in the British navy and was successfully tested yesterday. It has a hundred thousand candle illuminating power, and is fifty times greater than the ordinary electric light for street lighting and is believed to be the largest and most powerful light ever made with human hands.

Additional Horrors.

New York, March 9.—Details of further horrors from Casamaillo have been received. Thirty mangled limbs and fragments of bodies were dug from the ruins. A sadly interesting incident was that of a kerchief fluttering from the top of a tottering gable. Colonel Barodie mounted a ladder and entering the window reappeared with a woman unhurt but insane.

Nevada's Lottery.

San Francisco, March 9.—A dispatch from Carson, Nevada, says Gov. Kinkade signed the lottery bill this afternoon. It is a scheme in which leading men of the State are interested. They give bonds to give the State a quarter of a million for the privilege of holding five gift concerts in Nevada.

High Rents.

Chicago, March 9.—The rapid appreciation in rents is getting to be a serious matter with tenants. They find themselves confronted with the double dilemma of very much higher prices for their present locations and the impossibility of doing better by moving. Many who have thrown up their leases because of the advance of the landlords find themselves unable to secure any.

Robbing an Express Office.

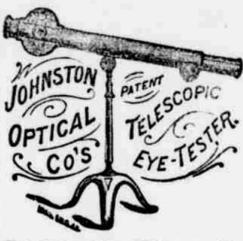

Louisville, March 9.—Four masked men last night entered the office of the Union Express Company, bound Frank Brewer, the night clerk and secured from three to four thousand dollars from the safe. Brewer is twenty-one years old, of good character and a nephew of Superintendent Rose.

Wife Beating.

Pueblo, March 9.—A man named G. O. Allen, charged with cruelly beating and maltreating his wife, had a hearing in Justice Suroch's court yesterday, and in default of \$1,000 bail he was sent to jail to await the setting of the District Court in April next.

Burying the Telegraph.

Albany, March 9.—A bill was reported favorably in the Assembly requiring the telegraph wires in New York city to be buried henceforth.
