LOTS FOR SALE AT THE HOT SPRINGS OF NEW MEXICO.

The completion of the Atchison Topeka & Santa Fe Railroad to Las Vegas and the Hot Springs and the fact that they, the greatest corporation of the age, have recently become the owners of these Springs, their policy being to appropriate money to make the ground attractive, and to furnish ample Hotel and Bath accommodations to meet the demands of their patrons. By their grand system of advertising, and the liberal spirit that they have always shown toward the traveling public, makes it an accomplished fact that the Hot Springs of New Mexico is destined to become the greatest Sanitarium and Tourist Resort in America.

Remarkable Springs

although until within a few years comparatively unknown to the outside world, have a local reputation which antedates the present century, and from time immemorial have been resorted to as the most remarkable of the Hot Springs of this Territory. The mineral constituents of these waters closely resemble those of the Hot Springs of Arkansas, and those famous Thermal Springs of Europe. The Prefers in the valley of the Rhine, and the Plombieres, the popular resort of France, situated in the valley of the Vosges Mountains, and the Leux in the picturesque valley at the foot of the pass over the Gemmi Mountains. At these springs thousands of invalids visit annually, and are

Cured of the Diseases of the Blood

Skin, stomach, paralysis, gout, rheumatism, gravel, Catarrh, and female complaints by bathing and drinking the water. People visiting the Hot Springs of New Mexico have been cured of all of the above diseases, and even more. It is the invalids' paradise. The great Sanitarium of the plains are scarcely known. The atmosphere is clear and dry, and pulmonary and miasmatic complaints are cured. The proportion of deaths from consumption here being smaller than in any state or territory in the Union. The mean annual temperature at these Hot Springs is 50 deg. Fahr., being at an elevation of nearly 6,400 feet. Summers are cool; nights from 55 to 60 deg., and the winters are remarkably mild and dry, the temperature seldom falling below the freezing point. The rainy season is in July and August. These Springs are located in about 35 degrees of north latitude, bracing air, its climate mild and temperature unmarked by extremes either of heat or cold. The one of the most pleasant resorts for tourists. Only 36 hours ride from St. Louis. After leaving mountain, valley, and rocky cañons, stretching hundreds of miles. No better place can be found for the stock-grower to live and raise his family than at the Springs. With all of the above advantages the dullest of comprehension cannot fail to see the advantage of an early investment in property in and about the Springs, as there are but a few hundred lots for sale, and they will soon largely enhance in value from the prices now asked.

A Word to the wise is Sufficient.

Write or call at our office in the Bacon building in Las Vegas, or at the Springs. WILLS BEECHER & CO.
