Berlin, May 8.—The official gazette publishes a dispatch from Bismarck to Prussian representatives and to the Federal States, dealing with the Altoona and St. Paul question. He states that the cause of the Bundsrath have unanimously resolved to report to the council only upon the technical side of the question and to keep altogether out of consideration the Constitutional aspect of the case. He lays stress on the necessity of avoiding as far as possible for the sake of concord any interpretation of the Constitutional rights involved. Bismarck points out the indisputable rights of Prussia to divide any portion of her own territory. It has not been urged in the interest of Prussia as it is an advantage to all that St. Paul should remain outside Zuluevia but that it was rather in the interest of Hamburg.

## THE INDIAN WAR.

### Victorio's Band are Attacked by the Troops in Which Several Soldiers Are Severely Wounded.

### Victorio Turns up in Arizona and Finds Out That He is Not Fooling With Uncle Sam's Troops.

### But With Grave and Determined Men Who Propose to Exterminating Him and His Whole Tribe.

San Francisco, May 8.—A Tucson dispatch says that Capt. Cramer with twenty-eight men of the Sixth Cavalry, attacked Victorio's band, ninety strong, near Rock Creek Cañon, yesterday. Blackmore's command of the Sixteenth Cavalry, men and twenty-eight Indian scouts are momentarily expected to reinforce Cramer. When the courier left, Cramer had several men wounded. Reinforcements are on the way from Camp Thomas and Camp Grant. A decisive engagement is expected to-morrow.

NEW YORK, May 8.—The Sun prints a letter from A. J. Fountain, who went from Sacramento to New Mexico, and has been living in Mesilla since 1872. Fountain is the chairman of the Republican executive committee of his county, and writes to his brother here under date of April 3rd: "I start to-night for the Mesquero Indian reservation. You will see by the papers I send you that they are having a terrible time over there. Gen. Hatch, after having been whipped all over the country by Victorio, has gone to the Mesquero Agency and driven away all the Indians who were behaving themselves. My old friends, Caballero Gonzales and San Juan, the principal chiefs of the Mesqueros, have fled from the reservation, and it is feared have taken the war path. I am sent for to go out and try to induce them to return. The whole country east of us is up and in arms. Victorio, with not less than two hundred warriors, has whipped over eight hundred troops. Don't believe a word you read in Eastern papers about the affairs here. A battle occurred a few days ago, in which there were four hundred troops and not over sixty Indians under Nana. The troops claimed a victory and pretended that they had killed Indians, when, in fact, they were badly defeated, and came near being annihilated. They lost one Captain and seven men, and killed one squaw, and Gen. Hatch makes a big blow about it in the papers, and claims a great victory. I predicted this thing months ago. Of all the wretched mismanagement that uniformly characterized the conduct of Indian affairs on this frontier, there has been none to equal this last, and I fear that hundreds of lives will be sacrificed by the imbecility and criminal stupidity of all our officials."

Constantinople, May 8.—The court martial in the case of the assassin of the Russia Col. Comeroff, sentenced him to death. The chief interpreter of the Russian Legation here wrote to the President of the court martial demanding the execution of the condemned within 24 hours. The President replied. All diplomatic communications are addressed to the minister of foreign affairs.

BOSTON CELEBRATES. Boston, May 8.—President Hayes and cabinet and the Governor General of Canada will be invited to the celebration of the hundred and eighth anniversary of the settlement of Boston September 17th. The city appropriates \$25,000 for the occasion.

Madrid, May 8.—In the chamber of deputies, to-day, senior Vivar called attention to the statement of the fact that an American steamer had been chartered for the purpose of conveying the minister of war to Cuba for the insurgents. The minister of Justice replied that the representative of Spain at Washington possessed the confidence of the Government and would do his duty to his country.

Puerto Rico, May 8.—The Budget proposes to abolish the six per cent bounty on goods imported direct from producing countries and to reduce the present import duty a certain per cent.

## ONLY FIVE YEARS.

Chicago, May 8.—The trial of Clarence Davis, the noted bigamist, after occupying three days ended this morning in a verdict of guilty and sentence of five years in penitentiary and five thousand dollars fine. Three wives were proved against Davis and no release from the bonds of matrimony in any instance before the succeeding ceremony.

Berlin, May 8.—The Reichstag to-day discussed the second reading of the Elbe Navigation act involving the severance of Altoona and St. Paul from the free port of the territory of Wurnburg. The committee moved the house to assent to the bill with the proviso that with the change of customs, the frontier stations on the Elbe shall only be enacted by special law. Bismarck said this proviso was an attempt at pressure, which the Government could not stand. The imperial constitution was on the side of the law which established the customs of the frontier on Elbe.

The free port rights of Hamburg should not be withdrawn without Hamburg's own consent but the federal council had the right to fix the boundary of the free port territory. Bismarck regretted to say, that the constitutional disputes had been kindled for the first time in the federal council he then referred to the opposition of the Catholic centre, from whom he had expected support, hence the concessions which were about to be submitted to Prussian Diet. The opposition parties should beware of the consequences of their conduct. It was dangerous to sow discord between the federal Governments. Only one thing remains in office, namely; the will of the emperor. When I see the obstacles I have to contend with I feel a strong desire to rest in retirement. If you consider the power of the centre unconquerable, I should advise you, on my retirement, to select a ministry representing both the centre and conservatives. I am tired to death when I see my efforts constantly thwarted by liberals, who resist me.
