President Roosevelt says Harri-man is a liar. It is not likely that the American people will take the President to task for telling a wholesome truth occasionally.

One of the very best measures passed by the late legislative assembly is the educational law which is going to greatly improve the situation of the public schools of the territory.

This paper called the attention of the people to the importance of an approaching city election in its last issue, but we have since learned that our city officers were elected for two years instead of to April of this year. We are very much pleased to learn this is a fact as our citizens are greatly pleased with the selections we made last summer. The interests of our growing town could not be in better hands.

Rain and snow was reported in many sections of the high altitudes of New Mexico last week. Quay county had a sprinkle Monday and a few minutes of a March sand storm. Our weather prophets are predicting rain in a few days. The April showers are beginning now in various sections of the territory.

Our neighbors up the line of the Rock Island, in our rich and newly acquired territory, are a prosperous and progressive set. The country around Nara Visa is getting a hegira of immigration, which is determined to build homes and help to improve the country. They are citizens of Quay county, and we are proud of them. They are pioneers, as it were, in action to turn cattle-land into a country of husbandry and husbandmen. They are helping to blaze the way for a civilization which promises to rival that of the prairie states back toward the center of our hundred millions of population. They are

in the van of the crusade—following those sturdy plainsmen, who disputed the authority of the American savages as the exclusive possessors of the great buffalo ranges of Northeast New Mexico. Instead of outfitting from rudely constructed forts to give chase to merauding Indians, you see an Iowa farmer harness his team and go out to turn the rich praries into cultivated farms. This is going to be a truly great country in a very short time.

DIED—Neva Dietz, aged nine years, at the family home, first door west of James Bell's residence, Monday evening, of measles. The funeral took place from the residence Tuesday afternoon and the remains were laid to rest in the Tucumcari cemetery. The bereaved family have the sincere sympathy of the community.

A. W. Wagner is painting the Masonic hall and the post office. He is doing very fine work.

Mrs. R. P. Donchoo will visit a few weeks among her relatives at Liberal, Kansas.

Attorney C. C. Davidson returned Tuesday from Santa Rosa, where he had been attending district court for the past two weeks. He informs us that it was a busy term and much business was disposed of. Mr. Davidson came home sick and is confined to the house.

A number of buildings are at a standstill here now because of a lack of material. The lumber yards simply can't supply the demand for building material. Mr. Lawson says his firm cannot ake any more contracts until they get what they have on hand out of the way.
