The rains this week extended over the whole northeastern part of New Mexico and the plains country was thoroughly soaked with a big slow precipitation which lasted two days. The farmers can see another big crop and prosperity ahead.

The new bridge across the Revuelto will have the approaches strengthened especially the one on the west side, where several loads of rock and cribbing will be properly placed to keep the bank from washing and loosening the west end of the big bridge.

Goldenbergs report a big sale of goods now being advertised in the News and have left the ad. in this week so that everybody will have a chance to take advantage of the bargain prices they are making. Look up the ad. and see what you need.

G. W. Bell returned from Oklahoma Tuesday after a stay of several days where he had been working in the harvest fields. He had to come home to prove up on his place. He reports the crops in fine shape in Oklahoma and also at Hudson where he lives.

The fine rain of Tuesday was one of those slow rains which sink deep into the ground and arrive at the place that will do the most good and vegetation has already responded to the moisture and is beginning to recover from the ill-effects of the recent dry weather.

The Holiness meetings which have been in progress in the tabernacle on the lots across from the postoffice, were brought to a close Sunday night and the building was torn down and returned to the lumber yard. We did not learn how successful this denomination was in this series of meetings.

Farr Herring, the Maxwell dealer, heard from the new 1916 Maxwell and is proud to relate that it is improved in many ways from the 1915 and is equipped with electric lights and many other modern conveniences and the best of it is that it will sell delivered in Tucumcari at \$725. He has already sold two to Messrs. Collins and Putman and intends to secure orders for a whole car load before the 1st of the week when he will turn in his order for immediate shipment.

For Hay Fever or Asthma
Many people dread July on account of the recurrence of hay fever. Foley's Honey and Tar Compound long has been recognized as the ideal remedy for hay fever and asthma, because it heals and soothes that raw, rasping feeling in the throat and eases the choking sensation. It allays inflammation and irritation and brings about easy and natural breathing. Contains no habit forming drugs.—Sands-Dorsey Drug Co.

Lloyd Griggs went to Santa Rosa Sunday to pitch for the Los Tanos base ball team. It is reported that Santa Rosa was winning by a goodly margin when the manager of the Los Tanos team objected to the decisions of the umpire and called his men from the field and the game ended in the sixth inning.

It is reported that F. W. Nations of Ima, the cattle king of the plains, has purchased 1,000 head of Angora goats. Our informant did not advise us what Mr. Nations intended doing with the goats, but we presume he has decided that a man can make more and better money out of goats than cattle, hence this diversion.—Montoya Republican.

Conductor Harry Butler was up for a few days' visit with friends. He is now running out of El Paso and he said it was so hot there recently that one of the large stores bought three tons of ice and placed big piles on the sidewalk in front of the store in order that customers could stay down town long enough to do their shopping. We also heard other parties say the same thing about the intense heat in El Paso.

The farm house belonging to Tom Jones, and located on his farm four and a half miles west of town, was mysteriously caught on fire and completely destroyed last Sunday. It is said that Mrs. Sam Brewer had intended to move to the place and part of the furniture was already in the house but no one was present when the fire occurred. It was a four-room frame house and worth several hundred dollars but there was no insurance in any of the local agencies that we have heard of.

The big scrap which occurred out south of town resulted in both parties being pretty badly bruised up. One was brought in for repairs but it is learned nothing serious resulted. The fighting business is not always a satisfactory way to settle little differences but it is the only way out of it sometimes and we hope these men will become friends as they are both well known cattlemen-farmers and should work out some means of adjusting their differences without too much blood-shed.

A. Paul Siegel, the Nara Visa base ball authority, was in the city this week on business and stated that the team there was too fast for anything in that part of the country any wanted to match a game with Tucumcari. The boys here are rearing to go with some good team as they have a fast aggregation of ball tossers and every day adds to the list of players. The latest addition to the team is Barkley of Phoenix, Ariz., who is a catcher or center fielder and until recently was a member of the Phoenix team in the Rio Grande league.

While Mr. and Mrs. H. M. Rogers were going to Robert Eatons after a barrel of water Thursday evening, they were overtaken by Sheriff Frank Ward in his automobile and in passing them their team became frightened but Mr. Rogers succeeded in controlling them. After Mr. Ward had passed on the team again started to run and in his efforts to keep the team under control one of the lines broke, and as the wagon passed over some rough ground Mrs. Rogers was thrown from the wagon, dislocating her left arm at the elbow.—San Jon Sentinel.

The case of State vs. Jim Boykin and Henry Ankle, who were charged with larceny of cattle, was heard before Judge McElroy and the case was dismissed because of insufficient evidence to hold them to the grand jury. The prosecuting witness was Jacob Brower, who owns a nice ranch south east of Nara Visa, from which place it was alleged three head of cattle were stolen and afterwards found in the possession of the defendants. The boys denied all knowledge as to how the cattle got into their pasture and were released because the Judge could see no guilt on their part whatever.

Charles Henson has made himself a miniature depot in the cellar at the rear of the Depot where his father presides. He has a "Block Signal" system, issues train orders and works his playmates to take the part of a train crew. In addition to close copy of his father's office he has a "Harvey House" in connection and it is interesting as well as amusing to see the youngsters conduct their miniature railroad system. A few years hence these boys and girls will be doing the world's work in advance of activities of their parents as theirs over the methods employed by their forebears.—Roy Spanish American.

Frank Bynum was taken to Tucumcari Monday night to see a physician. He returned Wednesday morning having stood the trip very well; he was accompanied by Mrs. Shore, Mrs. Woodman and Sill Moyers.
Alex Aston, his brother Charles, who is visiting him, and R. M. Wernet started Monday on a trip to Capitan, N. M., via Roswell, in Mr. Aston's auto. They expect to be accompanied by two other cars from Tucumcari.

MURDOCK NEWS

We are all very jubilant over the showers we are receiving of late. Most all the wheat around Murdock is cut. The yield is not so great as we had hoped for, although some farms are averaging ten bushels per acre. Curtis Bros. are cutting for W. M. Brittain at the present. Pierce Bros. are cutting on the Cornett farm.
S. Disney is drifting in this community with his new thresher. He runs on the independent plan at 8c a bushel, so the prospects are that Mr. Disney will be our leading and principal thresher man.

We are glad to say that Mrs. W. H. Curtis is almost well, after so long a siege of rheumatism. She visited her daughter, Mrs. W. M. Brittain, for several days this week.
Mrs. Stella Avant happened to quite a little accident last Tuesday afternoon. The pony she was riding became frightened, which resulted in a runaway. Mrs. Avant was thrown from the buggy and is yet unable to walk, as her foot was badly hurt.
The W. O. W. Lodge is still the liveliest thing in our midst. New members are being added to the list each meeting night.

H. F. Dennis lost a horse by lightning this week.

W. R. Bryant and D. W. Brady were transacting business in Melrose this week.

C. M. Terry has erected a new windmill on his farm west of his homestead.

Mule buyers were in our vicinity yesterday but seemed to find mules too high and scarce.

Mrs. Levi Henson leaves tomorrow

for Oklahoma to visit a sister whom she hasn't seen for several years. We wish her a joyous trip.
