Editor McCormick was here from Montoya to take in the roundup and cowboy doings by day and the side shows at night. He was always careful to ask what was on the inside before he ventured in. Something always tells an editor "he mustn't taste or he mustn't touch" unless he first knows what the critter is. Being very busy the News editor cannot give a full and detailed account of Mack's whereabouts. He boasted hard for the roundup and he had a right to see if everything was as advertised.

The M. B. Goldenberg display windows this week were simply beautiful. The linoleum display was educational as well as interesting. It showed the ingredients as well as the different processes necessary to produce the finished article. The saddlery window was complete with everything for the cowboy. The dry goods windows were also tastefully decorated for this big Round-up and many compliments were heard in regard to the effort made by the M. B. Goldenberg Co., to make this occasion one to be long remembered.

"Bill" Sale, photographer, who left here a few weeks ago for Montana, has returned to Tucumcari and expects to become a permanent fixture here. Mr. Sale returned via Illinois, where his father moved after leaving Tucumcari. Mrs. Sale died recently and the old gentleman will come back

to Tucumcari and reside with his son. Bill is a favorite here and we are glad to have him return.

Mrs. E. M. Higday and son, who have been visiting relatives in Liberal Kansas, returned home Tuesday night and will again become residents of Tucumcari. Mrs. Higday will take up the duties of book-keeper at the Light Grain Elevator office. Mr. Higday has charge of the Blake Oil Company's interests here and also is buyer for the new elevator. He will buy broom corn and grain of all kinds as soon as the elevator is completed.

Everybody and his brother and sister was here this week from all parts of the globe to attend the roundup and the management fell far short on its guess of the attendance. The roundup was well advertised in various ways but the most good was accomplished through the newspapers of this and adjoining counties that gave space liberally and assisted in boosting the big roundup. Many of the editors were here to witness the performances and were satisfied. Next year they will be paid for their services and the roundup will become an annual event.

The water wagon was kept busy at the fair grounds while the crowd was up town and it was busy up town while the crowd was at the grounds. A Cowboy Roundup requires a water-wagon. Didn't know that did you?
