G. M. Bryan, who has one of the best improved stock farms in Curry County, is reported to have sold one hundred head of extra high grade coming two year old heifers for \$75 per head to outside buyers. This sounds like a big price for yearlings past but the writer has had the pleasure of seeing Mr. Bryan's cattle and can testify that they are "top notchers". All of these heifers were clean white faced, white mane, straight backs, heavy bone and nearly all fat enough for beef. They looked like some northern registered herd. Mr. Bryan has barn room enough that during all the snow covered weather he had all his cattle bedded in his dry barn and fed heavy. This herd of cattle certainly shows that it pays well to have good bred stuff and to take good care of them.

**"THE WHIP"**

THE WORLD'S BIGGEST MOTION PICTURE

The picture par excellence, the supreme offering of filmdom, is "THE WHIP," the screen version of the famous play that ran for three years in London, two years in New York City, one year in Chicago; afterwards the play had a run of two years in Australia and a career without precedent in every part of the English-speaking world. It was translated into French, Russian, German, and other tongues, and always with enormous success.

It was so vast in its equipment of scenes and effects that it could be produced in only three theaters in all America--such as the Manhattan Opera House, New York City; the Auditorium, Chicago, etc. For this reason it has been seen by less than 10 per cent of the theatre patrons of the United States.
