Parkhurst & Co. have an attraction at Benedict & Bird, you will please settle within 30 days or pay for collection. R. S. BENEDICT. The dance which Russel post, G. A. R., had planned to give on the evening of April 9 has been postponed, as the Howard Opera House orchestra could not be had at that time. Nearly one hundred persons attended the sociable given by the ladies of the Congregational church last Friday evening at Mrs. Dagald Stewart's and had an enjoyable time. The Green Mountain Pulp Co. will have a tremendous lot of logs to send down the creek this spring. It is said they have over two million feet on the bank at Brandon. The local board of examining surgeons for pensions had but seven subjects before them on Wednesday. The previous week there were 18, including Mr. D. A. Roleau of New Haven. The maple-sugar makers have done quite a lively business this week. It is predicted that the season will be short, and if that proves the case, the price of sugar is likely to be high. A portion of the materials for the village water-works have been shipped here by Messrs. Lang & Goodhue of Burlington, the contractors. Work will begin as soon as the frost is out of the ground. The winter term of the college closed on Tuesday and the spring term will open April 9. The winter term of the Graded school ends today, and the spring term will begin on Monday, April 6. Mr. Oliver Severance will build a new residence this summer. It will stand on the brow of the hill south of his present home. He is the chief builder and the Messrs. Abbey are getting out the stone for the foundation. The Ladies' Library association received the sum of \$202 as the net proceeds of the "Deedrick Skule" last week. Mr. and Mrs. Wm. Jackson have been made honorary members of the association because of the large part he played in the show. The State board of health, the selectmen and Dr. Smith, who has been appointed health officer by the selectmen, have an extended joint and several disquisition in another column on nuisances, etc., that makes profitable if not agreeable reading. Letters addressed as follows have remained at the post-office one month unclaimed: Chas. Haywood, John Holliant, Philo Lawrence, E. C. Lawrence, J. H. Smith, J. A. Vanelet, Mrs. Beatrice Hyland; returned from dead letter office, E. C. Goodwin. The roads about the village are drying up under the influence of the bright sun, and, as the frost must be nearly all out, they are not likely to get into the usual miry spring condition. Out on the clay roads the going is still bad, except in Cornwall, where the stone road was made last year. There the wheeling is so excellent as fully to justify the expenditure. Butter brought 27 to 30 cents in the local market on Monday, and eggs for shipment 18 cents. Potatoes are in better demand and the price has advanced a little. Grain is still on the rise. Oats to feed are selling at 70 cents, and those for seed at 75 cents. Corn has retailed at 90 cents a bushel, but prices have advanced within a day or two, so that retailers will have to ask more than 90 cents. The 25th anniversary of the founding of the order of the Grand Army of the Republic will be celebrated by Russel post at their hall on the evening of April 6. The exercises will begin at 7 o'clock and will include addresses by several good speakers. The Sons of Veterans, members of the Ladies' Aid society and kindred organizations and the public generally are cordially invited to attend. The contract for building a graded-school building at Barre has been awarded to Mr. Clinton Smith. It is quite a job, the total cost of the structure coming up pretty close to \$10,000. Mr. Smith has the State insane asylum at Waterbury nearly ready for occupancy, though he has till June 1 to finish it. It is understood that the Giant Electric Motor Co. of Portland, Me., in which Mr. C. C. Peck of this town is interested, has the contract to furnish the electric-lighting apparatus for the asylum. The Vermont association of the D. K. E. society held its third annual reunion and banquet with the local chapter on Friday evening last. The banquet was at the Pierce House, where Landford Higgins had prepared an elaborate bill of fare. P. M. Meidon, Esq., of Rutland presided over the after-dinner exercises, at which numerous toasts were spoken to and letters read from prominent absent members of the association. The association chose these officers for the ensuing year: President, D. J. Foster, Burlington; vice-presidents, Dr. John A. Mead, Rutland, ex-Gov. S. E. Pingree, Hartford, Ira R. Allen, Fair Haven, and Dr. L. H. Hemenway, Manchester; secretary, Frank B. Wynne of the college; treasurer, M. A. Brooks, Middlebury; corresponding secretary, Louis Taylor of the college; executive committee, D. J. Foster, chairman, Dr. Fremont Hamilton, P. M. Meidon and E. C. Smith. —It is wonderful the large trade Beckwith & Co. are having in Brussels soap.
