Waiting doesn't pay. If you neglect kidney backache, urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills. Middlebury citizens endorse them. Mrs. H. A. Clark, R. F. D. No. 4, Middlebury, Vt., says: "I know Doan's Kidney Pills to be an excellent remedy as they did a member of my family a world of good. He suffered for some time from backache, dizzy spells and attacks of rheumatic pain. At night he would be unable to sleep and whenever he caught cold his suffering was sure to be worse. The rheumatic twinges affected his arm so badly at times that he would not raise it above his head. Finally he got a box of Doan's Kidney Pills at Sheldon's Drug store and began using them. The first few doses brought him great relief and after he had finished two boxes of the remedy, the pains in his back had disappeared and he was able to rest much better at night."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A Spade is a Spade.
There are two kinds of competition in our commercialism today—fair and unfair; the first is constructive and progressive, the last is destructive and an affront to the good judgment of a buyer. It often occurs that a physician's advice is thwarted and a patient's progress retarded by an unthinking drug clerk who succeeds in substituting a preparation of questionable potency or ingredients for one of recognized and known value. It is, indeed, a serious offence and one which should be promptly rebuked by every intelligent person. A conspicuous instance is the substitution of inferior emulsions of cod liver oil for the tried and proven medical worth of Scott's Emulsion, which physicians know contains a standard, superior grade of cod liver oil, and is not contaminated with alcohol or opiate of any sort. These substitutes are often compounded by unscientific process, in unsanitary places and exist only by the unfair brand of competition which trades on the popularity and proven value of a really meritorious article. It is high time for the intelligence of buyers to assert itself and know when a spade is a spade.
