Your Pocket-Knife, the Best Tobacco-Cutting Machine

Because it cuts the tobacco off the plug as you use it—insuring you fresh tobacco for every pipeful. Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated. Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form. Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

STATE NEWS.

Mrs. Margery Nutting has a Johnsonian lily in bloom at her home in New Haven, the bulb of which is 27 years old. The annual camp of the First Regiment, Vermont National Guard, will be held at the State Camp near Fort Ethan Allen August 2-11. Rev. B. J. H. Shaw left Lunenburg last week, where he has been pastor of the Congregational church, for Piermont, N. H., his new pastorate. The British steamer Strathgyle, the fourth Belgian relief ship to sail from Boston, carried on board, as part of its cargo of relief supplies, 56 cases of foodstuffs donated by the Vermont relief committees. State Superintendent Mason S. Stone has sent to the teachers of Vermont an attractively illustrated pamphlet, "May Days", containing program for Vermont Day, May 1, Arbor Day, May 7, Library Day, May 14, Peace Day, May 18, and Memorial Day, May 30. A. W. Woodworth, aged 94 years, was one of the most interested visitors at the automobile show in Burlington last week, and drove his own car from his home in Enosburg Falls to Burlington. He appears not over 80 years of age and steps off as lightly as most many years his junior. Ira Lincoln of Essex Junction received a bad cut on the head Sunday morning, necessitating seven stitches to close the wound. He had harnessed his horse in his barn, and seated himself in the wagon when the horse became frightened and threw him against a beam overhead. The fishing season at Caspian lake in Greenboro opened on Saturday with a large number of fishermen on hand. One young lad, found by the watchful wardens to be using small trout for bait, was brought before Justice J. D. Wilson and fined \$5 and costs. Rev. J. W. O'Sullivan of Montpelier, who has been at Heaton hospital for several weeks following a serious operation and who was recovering as well as could be expected, has suffered a relapse and his condition is serious. The seismograph in the weather bureau at Norwich University recorded severe earth tremors early Saturday morning. The first shock was recorded about 12:10 and the vibrations continued until 2:45. The disturbance was evidently at a great distance and was exceptionally severe. While excavating for the foundation of a new soldiers' monument in Barnet, workmen struck the ruins of a building of which the oldest residents have no recollection, and among the ruins was found a gold cuff button, which was in good condition. William Miller, of Montpelier, one of the best know hotel men in the State, became suddenly ill Saturday afternoon and his condition is serious. He is conscious only at intervals. Mr. Miller has been in ill health for some months. While painting a traveling crane at the Center Rutland plant of the Vermont Marble Co. Joseph Emery, of Rutland, was caught by the hand as a carrier passed him, and lost three fingers. This caused him to fall 20 feet to the ground, when one leg was fractured. President Joseph A. DeBoer of the National Life Insurance company and Mrs. DeBoer arrived in Montpelier Saturday evening from Boston where Mr. DeBoer submitted to two operations on his throat some weeks ago. He appears to be making a satisfactory recovery. Timothy E. Sullivan, 20 years old, of St. Albans, was fatally injured early Sunday morning while engaged in duties as car inspector for the Central Vermont railway, dying at the hospital.

three hours later. A train was being made up in the St. Albans yards when the yardmaster heard a call and going back found Sullivan pinned between two cars. Evidently he had attempted to go between cars to meet an incoming train but just how the accident happened is not known as he was alone. The man's right hip was crushed and he was otherwise injured. During the lightning storm in Woodbury Sunday night, April 25, lightning struck the farm buildings of Floyd Blake, causing considerable damage by shattering and splintering furniture and the interior of several rooms which it entered. In the parlor, fire was started, but fortunately Mr. and Mrs. Blake, although terribly dazed, succeeded in extinguishing the flames. Thomas Atkinson, 83 years of age, grandfather of Mrs. Blake was thrown from his bed and greatly shocked by the bolt, which entered his room. While P. C. Carty and family were moving from East Bethel to South Royalton, Mrs. Carty was with her little daughter and a small load of goods when they met an automobile at a narrow place near East Bethel village, and the horse, behaving badly, backed the wagon down a steep bank into the middle branch of the White river and completely inverted it. Two calves floated or swam across the stream, which is narrow at that point. No damage was done, except that Mr. Carty sustained slight bruises. The annual meeting of The Greater Vermont Association will be held at Brattleboro on Thursday and Friday, May 13th and 14th. There will be a business meeting with addresses in the afternoon and a dinner on the evening of the 13th, and a conference the next morning. At the dinner there will be present as guests Mr. J. A. McKibben, Secretary of the Boston Chamber of Commerce; Mr. J. H. Hustis, President of the Boston and Maine Railroad; Mr. F. J. Hillman, President of the Western New England Chamber of Commerce. Governor Gates hopes to be able to be present. Several months ago the Vergennes board of trade took steps to call the attention of the federal government to the navigable waters of Otter creek, which are government property. As a result of the board's representations Civil Engineer John E. Byron of the U. S. engineer field service of the war department at Albany, N. Y., went to Vergennes Friday and held an informal conference with the board of trade with a view to determining the necessity of dredging a deeper channel to the lake and the cost of such operation. Mr. Byron Saturday made a trip down the creek with Capt. M. H. Daniels and made a preliminary examination of the channel conditions between the head of navigation and Lake Champlain.

IN THE FIELD MAKING MONEY or in the Barn Wasting It. Kendall's Spavin Cure. Whether your horses work or not, their feed costs you big money. When a horse is laid up you not only lose the cost of feed, but also the profit that the horse would have paid if able to work in the field. Since there is no way to prevent spavin, curb, splint, ringbone, sprains and lameness, your thought should be given to the quickest, surest and most economical cure. And for over 35 years, thousands of horsemen have depended on Kendall's Spavin Cure. It's the old, reliable, safe remedy that has saved thousands of dollars' worth of horse flesh, to say nothing of the worry, time and trouble it has saved horse owners. You should get and keep a bottle of— Kendall's Spavin Cure for emergencies. You never can tell when you'll need it, and when the time does come, you'll be mighty glad you had the foresight to prepare. Here are samples of the thousands of letters we receive from grateful horse owners every year. Mr. J. J. Sandlin, New Hope, Ala., writes: "I am a great believer in Kendall's Spavin Cure. A few applications have just taken an unusual growth of my horse's back, thereby increasing his value \$25.00 at least." Mr. J. B. McAdams, Haleyville, Ala., writes: "Last July I bought a male for \$5.00. He had a bad spavin and was unable to work but after using three bottles of your Spavin Cure, I cured it, and he was sold in March for \$180.00. I advise all horse owners to use Kendall's Spavin Cure." And Mr. Wm. Booth, of Groveton, Ark., writes: "I have cured both blood and bone spavins, taking the bunch all off and leaving the horse as sound as he ever was. The horse does not need entire rest while using Kendall's Spavin Cure. Light work and careful handling are better than standing in the barn. If the horse was in the pasture not many people would take proper care of him. I use the Spavin Cure a week at least, sometimes three, according to the severity of the trouble. There is enough in one bottle to cure three large spavins if used according to directions. It is excellent for bruises, both for man and beast. Your Spavin Cure will cure Thompson in a hurry. With over twenty years' experience with this remedy I know what I say to be true. If one doubts my word he may bring me a horse with a blood spavin on one leg, bone spavin on the other and Thompson on both and I can make him a sound horse in six months. What I have done I can do again and what I have done others can do." Why experiment with other remedies—when you know what Kendall's has done and can do. You can get Kendall's Spavin Cure at any druggist's, \$1.00 per bottle, 6 for \$5.00. Ask for free book, "Treatise on the Horse," or write direct to Dr. B. J. Kendall Company, Enosburg Falls, Vt., U. S. A.

Plenty of Middlebury evidence of their worth. Mrs. H. A. Clark, R. F. D. No. 4, Middlebury, says: "One of my family suffered for some time from backache, dizzy spells and rheumatic twinges. At night he was unable to sleep and whenever he caught cold, his suffering was sure to be worse. The rheumatic twinges affected his arm so badly at times that he couldn't raise it above his head. Finally he got a box of Doan's Kidney Pills at Sheldon's Drug Store and began using them. The first few doses brought him great relief and after he had finished two boxes, the pains in his back had left and he was able to rest much better at night."
