APPLICATION HAS BEEN MADE FOR ENTRY BLANKS BY THIS FAMOUS BAND OF RACERS.

The famous National racing team may come here for the Daytona beach speed carnival March 22, 23 and 24. A letter was received this morning from Indianapolis, where the National factory is situated, asking for entry blanks for the meet and requesting full information regarding garage accommodations. The National combination proved one of the most successful teams travelling the racing circuit last season and President Newby, also one of the owners of the famous Indianapolis motor speedway, announced a month ago that he would go in for racing on a more extensive scope the coming season than ever before. Jack Aiken is the star driver of the National team and is considered one of the most fearless and capable drivers in the racing game. Kincaid, also of Indianapolis, is the other pilot and is in every way a worthy assistant to Aiken. The National cars are eligible in five different classes and if the team comes here it will mean that a National car will be in almost every race on the program.

NO MONEY APPROPRIATION TO PROVIDE FOR PUBLICITY FEATURE—CAUSING SERIOUS DIFFICULTY.

WASHINGTON, Feb. 17—The omission of a money appropriation to provide for the publicity feature of the corporation tax bill is causing serious difficulty, according to party leaders here. Mr. Burden, who was driving his own car was accompanied by his daughter, while the touring car contained only the driver.

Mr. Burden, who had just come from the South Bridge turned well to the right to put him on the right side of the road, going west on Orange Ave, but the driver of the touring car held his left and cut the corner short to turn north on Beach St., putting his car directly in front of Mr. Burden, who struck with his right front wheel, demolishing it.

The driver of the touring car was apparently in the wrong in turning the corner as he did instead of running to the middle of Beach street, as ordinance prescribes. He gave the number of the car to Mr. Burden.
