THAT a promissory note, while an evidence of debt, is not a debt itself unless delivered to the person to whose order it is drawn, is the substance of a decision handed down by a Pittsburgh, Pa., judge. A claim for \$19,500 was presented by a sister of the late James McKown, based on a note drawn in her favor, but not delivered to her in her brother's lifetime. It was found among his papers after his death and turned over to the sister. The judge ruled that the note was only an evidence of debt, in connection with other facts that might support the claim.

IMPORTANT EVENTS OF THE TERRITORY.

#<del>9999999666##\*\*\*\*</del> Purcell, I. T.: On December 2 the people of Indian Territory will hold a sonvention to memorialize Congress for free schools. The Register says the convention is a'ready attracting a great deal of attention throughout the territory, and adds: "We hope to see it so generally taken hold of that every locality in the territory will be represented on that occasion. No question of greater moment than that of free chools has ever fronted territory people. It has been charged on the of Congress that the people of Indian Territory are indifferent in this matter. We should make the coming meeting a telling protest against this statement by the large humber of nterested parties in attendance. From the convention should go to Congress a memorial as strong as the English language can make it, asking that Congress extend to the youth of Indian Territory the same educational advantages that are given children in the states. As previously stated, mass meetings should be held in every seighborhood and delegates selected to attend the convention at Purcell. A mail donation from each resident of the several neighborhoods selecting delegates would raise a sum sufficient to defray the expenses of the delegates in attending the convention, as it

Guthrie: Attorney General Harper S. Cunningham started the 11th for Washington to represent the territory's interests in several lawsuits pending on appeal in the supreme court of the United States. Chief in importance is the apoeal from the decision of the Oklahoma supreme court validating the action of the territorial board of equalization in raising tax values above the returns submitted by the county clerks. The disposition of this question will also decide the fate of Richard Caffrey, ex-county clerk of Oklahoma county, who refused to obey the mandate of the supreme court to extend on the tax rolls the increased valuation ordered by the board of equalization and was thereupon imprisoned in the county jail. When an appeal was taken to the supreme court of the United States, Caffrey was released on a superseadeas bond. The Greer county tax case will come up on motion of ohe attorney general to dismiss the appeal on the ground that the sum involved does not exceed \$5,000. This is the suit in which a number of taxpayers in Greer county refused to pay the tax levied for 1896, the decision of the United States Supreme court attaching that county to Oklahoma was not rendered until March 16, of that year and the law requires the annual tax levy to be made on March 1 of each year.
