KITCHEN HELPS.

Dear Editor-I send an article fo ubileation in the Household departnent. Cover your kitchen shelves with Mean papers and change them frequently. The kitchen table should be overed with zinc or tin. It is easy to lean, wears for years and is not inured by setting hot kettles or cutting tread on it. It costs more than oilloth but is so much better in every vay that it is more economical.

USE FOR LARD CANS. The empty lard cans that sell at th tore from 15 to 20 cents may be used or meal and graham or buckwheat lour. They are nice for keeping bread nd cake in and as they have closely itting lids their contents are kept lean. An earthen far with a cover b ood to keep salt in. Tin canisters pould be used for tea and coffee.

WASHING MILK VESSELS. If you have a number of tin cans o ther milk vessels to wash, rinse then vith cold water first to remove the particles of milk that adhere to them. hen wash them in hot water containng enough pearline to make a good uds. It thoroughly cleanses and weetens them without injuring the in as lye or salsoda are sure to do Vipe them dry and keep them on a helf where there is no dampness to ause them to rust.

PLAN TO SAVE STEPS. When you have kettles in which out neal or other cereals have been cooked. t is not necessary to fill them full of vater to soak. Wet the inside of the poisons. I tried this method last seaettle with water and turn it upside lows on the table until you are ready o wash it. This plan saves carrying he water to fill it and having to throw out again. Have a place for everyhing and have everything in its place n old rule, but a good and a strict dherance to it will save a great mau; teps.-E. J. C.

TO SEASON SAUSAGE. The farmer's wife is always pur led in butchering time to know just ow much seasoning to put in sausage Vhen one guesses the amount the reounding tablespoonful of each sale nd pepper and one teaspoonful of age to each gallon of meat makes it ust right for us. If the weather is varm after butchering, the sausage nay be kept fresh longer if pressed own tightly in crocks and jars and he top covered with fresh lard. This xcludes the air and prevents the sauage getting strong for several weeks

TO CAN SAUSAGE. After the meat is ground and seamed fry the cakes and pack in tin ans and run over lard. Some scal the an afterward, but I never have any rouble in keeping it, as above, hink the trouble was they did not cook thoroughly. We have sliced fresh ame way, when too late in the spring o cure. This is the real love that subdues the earth; the love that has wrought all miracles of art; that giver us music all the way from the cradle song to the grand closing symphony that bears the soul away on wings of fire. A love that is greater than power, sweeter than life, and stronger than SHOWN SECTION OF

First Year-The biggest trout I ever caught was a foot and a half long and he had a big fish-hoo's in his stomach. Tenth Year-Did I ever tell you about the trout I once caught? It was over a yard long and had an anchor in his stomach.-New York Weekly.

Trial by Tolophone. Probably the first instance of the trial of a case over the telephone is reported from Mount Vernon, Ky.

While Judge Durham, who is magistrate in the Wildle district, was in town on some business he was called up over the telephone by Constable Harry Jones, who said he had in charge Dan Dickerson, charged with breach of the peace. Dickerson saked an immediate trial and it was agreed to conduct it by wire.

Half an hour's use of the
