We understand that all that is needed in order that we may have sidewalks in Beaver is for an ordinance to be written up and published, as the same has been acted upon by the city officials. We certainly need the walks and why not have them before winter. Let's have the ordinance and then the property owners will do the rest.

ially Main street, ate a disgrace to the place and the people in it. Talk about the "tucky road to Dublin" why that is not in it with the streets in Beaver. If anyone has the authority to order the streets worked let them use it. If not let the business people take the matter in hand. Now all together He-O-He.

If those who expect to burn coal this winter do not put in a supply before cold weather sets in and the roads get bad they had better just blame themselves if they're sold" and not try the borrowing act. The experience we had last winter should teach all to prepare for emergencies. We have heard it intimated by the more thoughtful, who have their coal bins full, that they expect to play the Good Samaritan this winter (Natl.)
