The Beaver Quorum Lodge will give a musical entertainment at the Hall Saturday night, November 28th. Admission 15 and 25 cents. The program may be seen in another column. This entertainment is for the purpose of raising funds to pay for regalia, and it is hoped that all will not only assist the lodge in this way by their attendance, but that they will avail themselves of an evening's pleasant entertainment at the same time.

Beaver boasts of a new business enterprise this week and one which has long been needed in our city. I. W. Oklahoma was always in for something new and now the plan is to establish a city called the New Jerusalem and make it the capital instead of Guthrie. News.

New Jerusalem Only Initiative Measure Passed.

In publishing the election returns the HERALD stated that three out of five initiative measures had received a sufficient majority and had carried. However, later returns show that such is not the case, and that only the "New Jerusalem" measure received the required number of votes.

This is a question submitted under the republican powers given in the state constitution. It is neither an act of the legislature nor an amendment to the constitution, and adoption by the people is merely a test of public sentiment on this subject.

The joint resolution providing for the submission of this question simply provided that the question submitted should be, not the approval of any particular act of the legislature, but the following proposition:

"Do you favor the state of Oklahoma selecting and securing a site for the location of a capital city, said site to be owned and controlled by, and the lots therein sold for the benefit of, the state?"

"Nellie" Bly, Arkansas City traveling salesman, was in Beaver the past week taking orders for his house.

President Roosevelt's Tribute to Mr. Taft.

I feel that the country is indeed to be congratulated upon the election of Mr. Taft. I have known him intimately for many years and I have a peculiar feeling for him, because throughout that time he worked for the same object, with the same purposes and ideals.

I do not believe there could be found in all the country a man so well fitted to be President.

He is not only absolutely fearless, absolutely disinterested and upright, but he has the widest acquaintance with all our citizens.

He would be as emphatically a President of the plain people as Lincoln, yet not Lincoln himself would be freer from the least taint of demagoguery, the least tendency to arouse or appeal to class hatred of any kind.

He has a peculiar and intimate knowledge of and sympathy with the needs of all our people—of the farmer, of the wage earner, of the business man, of the property owner.

No matter what a man's occupation or social position, no matter what his creed, his color or the section of the country from which he comes, if he is an honest, hard working man who tries to do his duty toward his neighbor and toward the country, he can rest assured that he will have in Mr. Taft the most upright of representatives and the most fearless of champions.

Mr. Taft stands against privileges and he stands pre-eminently for the broad principles of American citizenship which lie at the foundation of our national well being.

RAILROAD CHARTER.

Ochiltree, Enid and Southwestern to the Front.

Last week R. E. Aylor, of Canadian filed with the Attorney General for his consideration and approval, the charter of the Ochiltree, Enid and Southwestern Railroad Company, an enterprise that they are promoting through a stock company. The capital stock of the organization is \$500,000. It is proposed to construct and maintain the line from Dalhart, Texas, to Ochiltree, Texas, a distance of 101 miles. This will be the first link in the line, and when it has been completed, the road will be continued to Enid, Oklahoma. The road will run through Dallam, Moore, Hutchinson, Hansford and Ochiltree counties.

The charter was granted and the new road will be pushed along.

It will take time and patience—for railroads are not built in a day—and it may take longer than the people in those counties realize and they may get discouraged ere the smoke of the train is seen in the distance. The best way will be to work, talk and boost, instead of croaking. The united efforts of the people will do wonders and will even build railroads.

A road is needed, and a road will come—Higgins (Tex.) News.

The above railroad is the one which is chartered to pass through the south side of Beaver county on the South Flats and the people in that vicinity are quite hopeful over the prospects of a road at an early date. We trust that their fondest hopes may be realized but if they are it will take a whole lot of hard work from the people in that respective locality. Such projects are only pushed to completion with lots of hard work and persistence. However, the people in that country are all right when it comes to stick-to-itiveness and all they need is to get together and stay together and work, push and boost.

Miss Bessie Sims, clerk of the county court, who has been absent from Beaver the past few weeks visiting relatives and friends in Missouri, returned to Beaver Tuesday. Her many friends were glad to welcome her return.

Governor Haskell Proclaims Thanksgiving Day.

The custom established by the Pilgrim fathers has been universally adopted throughout this grand and glorious nation where God reigns and the people rule. This custom is an expression of the fact that among a free people the blessings and joys of life outnumber its sorrow and griefs. "To God we owe all; every good and perfect gift cometh from Him."

His blessings to us this year have been manifold and abundant and the earth has been a generous mother and has yielded a bounteous and a fruitful harvest so that during the winter none of our people will feel the pangs of hunger or want.

Therefore, in accordance with the established custom and with the laws of the state, I hereby declare and proclaim Thursday, the 26th day of November, A. D. 1908, a public holiday, to be observed as a day of thanksgiving, praise and prayer.

I recommend that our citizens assembled in their places of worship and around their hearthstones and return thanks to an all-wise Creator for His goodness and blessings unto us as a people.

In witness whereof, I have hereunto set my hand and caused the great seal of the state of Oklahoma to be hereunto affixed, this 9th day of November, in the year of our Lord, Nineteen Hundred and Eight, of the Independence of the United States of America, the One Hundred and Thirty-third.

Attest: C. N. HASKELL, Governor.
BILL CROSS, Secretary of State.

Your Greeting.

Have you ever stopped to think how many say "good morning" or "how do you do?" There are as many different ways of saying these simple words as there are foreign salutations, or ways of shaking hands—and we all know our friends and enemies and judge people by their handshake, says the Ladies' World.

Your greeting may be gracious or repellent, heartfelt or surly, according to inflection or intonation, though you have no intention of making it otherwise than courteous. It is all habit, and a habit that ought to be watched. It is very easy to accent the morning instead of the good, and a bad habit sticketh to one like a brother. We say "How do you do?" but the French say "How do you carry yourself?" the German "How goes it?" or "How do you find yourself?" the Italians "How do you stand?" In Russia the salutation is "Be well!" or "How do you live on?"

The Arabians and Turks are more religious in their greetings, saying "God grant thee His favors" and "Be under the care of God." The Chinese and Persians are more practical in their expressions of "Have you eaten your rice?" and "May thy shadow never grow less." But all these salutations can fall like benedictions or they can have the depressing effect of smileless recognition—Ex.

Jack London's New Book.

Jack London has just written a book of 142,000 words entitled "Martin Eden." THE PACIFIC MONTHLY has purchased for \$7,000 the serial rights for this vivid story. It began in the September number of THE PACIFIC MONTHLY and will run for twelve months.

"Martin Eden" is a character study—the story of a fighter—a fighter as a newsboy in the alleys of San Francisco; a fighter as a rowdy in slums; and finally, a fighter for education and culture, struggling against the odds of common birth and vulgar environment, with a desperation of courage that presents a powerful blending of brutality of strength with sublimity of purpose. His inspiration is a woman of the higher sphere of life, but his motive is the mighty impulse that animates a soul and brain born to expand until fettering ignorance is sundered and ignoble influence trampled under foot.

It is not too much to say of "Martin Eden" that it possesses more of fascination and virility, grips the imagination and the sympathies more keenly, and imparts more of courage, than any book produced in years.

Send 50 cents in stamps to THE PACIFIC MONTHLY and they will mail you the PACIFIC MONTHLY for six months beginning with the September number, in which the first installment of London's story appears.
