## Twin Mounds.

(Crowded out last week.)

The excessive heat of the past few days was relieved today by a fine rain. Mr. Dodson is in the neighborhood with his threshing machine.

Roy Hopper and family and J. S. Johnson and wife attended quarterly meeting at Ivanhoe on Thursday, the 21st. The Rev. McCormick, of Ashland had charge of the services in the absence of Dr. Burns, district superintendent. A bountiful basket dinner was enjoyed at the noon hour.

Everybody in the country went to the Kiowa and got plums and then began a sugar and can rubber crusade such as has not been known before.

A good deal of broom corn was planted on stubble after the wheat was cut. Crops of all kinds are looking good just now.

Don't forget the Sunday School picnic next Friday, the 29th.

James W. Smith is taking some fine pictures with his new camera.

Messrs Hoffmann and Gamm and their wives were invited guests at the Baumgartner home last Sunday after church.

Mrs. Debbie Young and sons Irvin and Justin, of Denver, expect to return to their Beaver county farm near Como this fall.

Mr. and Mrs. H. H. Martin, their son Russell and brother-in-law, H. E. Booth visited at the Chas. Baggerly home near here last Sunday.

The baby daughter of Mr. and Mrs. M. T. Smith took first prize for girls and the Ed Howard baby first for boys in the Baby show at Hastings' grove. This locality has some fine babies.

Mr. and Mrs. Tom Harford visited Mr. and Mrs. Herbert Lee last Sunday. Brother McRight preached at Golden last Sunday. His wife and daughter accompanied him.

Mr. and Mrs. Baumgartner attended church at Ivanhoe on Thursday. Brother Coppedge will preach at the school house next Sunday at 11 a. m.

OSCEOLA-WEED.

## From the Crossroads.

Farmers are smiling this morning. Good rain last night and weather cool.

Our long felt need has been supplied with one inch of rain in this part of the country and is still raining. This looks fine to a fellow in Beaver county.

Johnnie Bowers is enlarging his granary this week.

Jesse Hall is building a new barn and granary and is painting them red. A good wheat crop makes a show in this country. Several new granaries and barns are being erected.

Old Timer went to Tyrone Tuesday. Everything was lively. Elevators were doing rushing business with 88 cent wheat.

James Taylor and family have returned home from Beckham county where they have been since last January. We were glad to welcome them back to the land of plenty. Jim said the crops looked short in Beckham. He is going to plant his farm in wheat and return, where he raised a small cotton crop.

Mr. and Mrs. Stockwell is in our vicinity from Kempton, Beckham county. They are talking of locating among us. Mr. Stockwell is a progressive Missouri farmer and we are glad to have such men with us.

Bro. Atherton, Baptist, filled his regular appointment at Appleton last Sunday and Sunday night and preached a good sermon. Bro. Atherton is a young man and we pray God to bless him in his efforts to do good.

There will be a protracted meeting held with the Appleton church beginning Saturday before the second Sunday in August to be conducted by the pastor, E. A. Atherton with Bro. Agee assisting. May God bless their efforts. While the meeting will be conducted by the Baptists, everybody is invited to attend and take part and assist in the good work for it is needed in these parts.

OLD TIMER.

(Crowded out last week.)

Everybody is busy planting maize and broomcorn.

Mrs. Newell was on the sick list the first of the week.

Walter Stout is right sick at present.

Dr. Anderson was down in this neighborhood trying to get wheat haulers today but farmers are too busy with their crops to haul wheat.

E. M. Miller, who has been in Buffalo, Kansas, has returned home. His family will follow soon. He is preparing to sow wheat this fall.

George Whitmer and wife went to Liberal, Kansas, today on business.

John Bowers has rented the Stiles place for wheat and started in to listing today but he said it was too dry to list.

Teams and wagons are in demand in the Nabisco neighborhood this week to haul wheat.

Wheat is making 10 and 15 bushels to the acre, fair quality.

Mr. and Mrs. Newell were called away to the east end of the county where one of their grandchildren was not expected to live but it is hoped that it is not so bad as reported.

Mrs. Elsie Wadell, formerly of this vicinity but now of Liberal, Kansas, was visiting with her uncle G. A. Whitmer today and will return to Liberal tomorrow.

OLD TIMER.

## Public Sale

I will sell to the highest bidder at my farm 16 miles northwest of Beaver City and 1 1/2 miles east of Floris, Oklahoma, on

Monday, August 15th at 10 o'clock a. m. the following described property to-wit:

Free lunch at noon. J. W. Ray, Owner. Woolery & Jones, Auctioneers. A. D. Green, Clerk.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment, Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & Co., Toledo, Ohio.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

### All Keystones.

Every stone in an arch is a keystone, though the name is usually applied to the center one.

## Beaver Hardware and Furniture Store

Is the only place in the county where you can buy the

### "INSURANCE SAFETY"

gasoline stoves. Why, for the sake of a dollar or so, should one buy a cheap, poorly constructed gasoline stove? Why, when an "INSURANCE" is a guarantee against accidents?

Let us tell you about it. It's all in the mechanism. The "INSURANCE" is safe because it has a patented automatic "cut-off" to close the valves in case they are accidentally opened or the burner flame is blown out. When cold—that is, stove is not in use—the stand pipe is full of liquid gasoline. The float is at the top and holds the cut-off tight in seat. Gasoline cannot escape.

To put stove in operation, burner is generated by an asbestos torch—stand pipe is heated, gasoline expands, float drops, cut-off opens, gasoline can now flow to burner. When flame is turned or blown out, stand pipe quickly cools, gasoline condenses, rises in tube, carries up float and closes cut-off. Valve is now absolutely locked. Isn't that simple and safe?
