M. L. Malone bid us farewell Wednesday morning as he intends to visit with his two brothers at Amarillo, Texas, for a couple of months, after which time he will go to Colorado where he has a good claim. We regret very much, brother, to see you go but may good luck always be yours.

The Death Angel hovered over the Adams home several days last week, at last, on Wednesday at 12:30, it took its flight and bore the soul of Mrs. Adams away home where there is no pain, sickness or sorrow. Mrs. Krouse conducted the funeral services which were held at the house on Thursday afternoon. Mrs. Adams was 59 years old. She was a dear, kind and loving wife and mother. That may seem so unlikely to you that you do not even hope for an ending of your trouble, but permit us to assure you that it is not altogether impossible. If others can be cured permanently, and thousands have been, why not you? John R. Barker, of Battle Creek, Mich., is one of them. Approves New Policy.

Among the resolutions which the Beaver Herald expects to put into effect this year are those of charging \$1.50 for the paper and making that payable in advance. If the Herald does that it will find it one of the best moves it has ever made.—Guymon Herald.

We certainly intend to do that very thing, Brother Zimmerman, and we trust we will find your prediction of success true.

We have paid the bills long enough, like hundreds of other foolish publishers who are afraid to put their business on a business basis for fear of not being able to go against the old precedent of "\$1.00 per year and pay or not pay as you please." We now propose to run the thing according to our own idea and if there are those who feel the Herald is not worth the pitiful sum of \$1.50 per year, they have the privilege of renewing for as many years in advance as they choose at the old rate of \$1.00 cash, per year until April 1st, 1914. After that time it will take exactly \$1.50, no more and no less, to keep this "great moral and religious weekly" coming to their address. We have thought this thing over a long time and now that the new system is inaugurated we expect to make it stick. Every iota of material used about getting out a newspaper and the cost of labor has advanced, to say nothing of taxes, railroad and public benefit bonuses, etc., which are nothing less than Sherman says war is, so why not the publisher make a fair advance in the subscription price of his paper and expect and require that it be paid? Anyone who don't want to pay 3 cents per week for it don't want it very bad and the sooner we stop sending it to him the better for all concerned. It really isn't the price after all, it is the custom. People have so long been in the habit of taking a paper and never considering that the publisher needed the subscription price, that they have almost come to consider it a great favor for them really to accept the paper at the Post Office. We do consider it a courtesy if our readers take the Herald and pay for it, otherwise we call it poor business on our part to send it out longer except on cash-in-advance terms and stop the paper at the expiration of the time paid for. When the system is once put into practice we believe it will prove more satisfactory all the way around and at least, we are hoping for it to bring in a little of the real coin of the realm without which no business can long exist and be a factor for good.

Best Cough Medicine for Children.

"I am very glad to say a few words in praise of Chamberlain's Cough Remedy," writes Mrs. Lida Dewey, Milwaukee, Wis. "I have used it for years both for my children and myself and it never fails to relieve and cure a cough or cold. No family with children should be without it as it gives almost immediate relief in cases of croup." Chamberlain's Cough Remedy is pleasant and safe to take, which is of great importance when a medicine must be given to young children. For sale by all dealers.

"Adventism Exposed to the Light, Both to the Scripture and History."

My lectures on the above subject will begin at Mountain View Baptist church near Surprise, on Sunday evening, February 8th, 1914. Any gentleman wishing to champion the other side is cordially invited to occupy one half of each evening.

The above proposition is occasioned on behalf of a certain preacher who, for years, has been insinuating and even affirming that the ministers of the county can not answer his arguments.
