We are Americans!

Villa, we note, is dead again.

If you can't be patriotic, at least be silent.

Bean soup is healthy and very appetizing, provided you can afford a whole bean.

Wise men never waste time extolling their wisdom to others. Only fools do that.

The Lord loves a cheerful giver and we love a prompt payer. Step up and pay up!

Everybody knows "the man about town," and to everybody he is "just a man about town."

We might discuss the high cost of living, were it not for the fact that it is too high for comment.

Many a fellow sits at the head of a table and fondly imagines that he is the head of the family, but—

Ask any well read man to define the term "international joke" and he will unhesitatingly say "Carranzas."

Yes, Austria is willing to keep peace with the United States, provided we are willing to back up and be kicked.

The world do move. First we had a Judas, then a Benedict Arnold and now the German-Mexico-Japan stunt.

When you want to know what kind of a man a fellow is, just get his wife's estimate of men in general and you will call his number.

This paper stands for loyalty and the protection of every citizen of this country who conducts himself as a citizen of the country. Others should take the hint and move on.

No man is too old or too young to fight for his home and his rights in this country, and if the worst comes we can put twenty million men under arms—provided we can get the arms.

EDUCATE MORE FARMERS.

It is coming to be recognized as a most obvious fact that if we as a people are to again put our country on an equitable living basis we must educate more farmers. Not educate more farmer boys for professions, but educate more BOYS FOR FARMERS.

From the incipency of the public school up to within the last decade the entire trend of education has been away from the farms and toward the professions. Even the manual training schools have tended to swell the ranks of the mechanical trades at the expense of the farms.

No nation can achieve permanent prosperity without a great and prosperous farming class. When the farm decays the nation deteriorates. Our farms are the very heart and life of our country.

Some, though, may ask how we are to educate more farmers.

Very simple. Make every free school in the land primarily an agricultural school, and a literary school as a secondary matter. Belles letters is not the crowning necessity of existence. Bread and meat are. Educate the youth of the land first toward that which is most vitally necessary to our national life, and when this is accomplished, if there be leisure and means for adding the frills, let them be added. Nine out of every ten high school pupils on emerging from that school enter the ranks of the toilers, in some department or other. If in their education the farm has not only been made attractive to them, but they have been given a thorough and practical knowledge of its workings, then a large per cent of them will as a matter of course choose that as their occupation in life.

When war broke out between the allies and the central powers the world stood amazed at the wonderful perfection of the German military machine. But the cause behind it was as simple as A. B. C. Every German youth had been educated and trained as a soldier FIRST OF ALL—after that for a vocation.

But in time war will cease. The arts of peace will again demand the attention and energies of the world, and among them there is none to compare with the great art of coaxing from Mother Earth her golden harvests.

But you may ask, if all of the boys are educated to a farmer's life, what of the professions? There will always be some who, by natural fitness, will gravitate to the professions, enough to keep their ranks recruited. As a matter of fact, these same professions

My Country! 'Tis of Thee, Sweet Land of Liberty!

"I pledge allegiance to my Flag and to the Republic for which it stands, one Nation indivisible with Liberty and Justice for All."

The Herald believes that the time has arrived when every true American citizen should show his loyalty and patriotism and that the American Flag and American Eagle, emblems of our freedom, liberty and independence, should mean all in all to us and be given a prominent place in our homes and places of business. The time has arrived when we must declare ourselves and show our colors. Are we American citizens and are we proud of that birth-right? Do we honor the Flag that proclaims to the world that we are free-born American citizens? If so, if we have an American Flag, let us display it. If we do not have one, let us lose no time in buying. We may feel that we are only a little town and that it makes no difference as to the spirit of loyalty we display but it does make a vast difference. Some of the greatest men and women of history have been reared in the smallest villages. Who knows but that some of the great men and women of future history may come from our own little town or country. Let us not forget our patriotism. Down with the traitor! Up with the Flag!

One thing we have noticed with a degree of pride in our own country. "Big Business" has come right to the front in the crises. Heads of great manufacturing concerns, railroad corporations, engineering firms, all have assured the government that their corporations and their individual services are at the disposal of the government if war comes. There is little noise or loud talk, but everywhere a calm and inflexible purpose is evident. And this spirit is not confined to Big Business alone. Little Business marches right up at the front, labor leaders are pledging the loyalty and assistance of their organizations, farmers are offering both men and foodstuffs, and women are banding together by the hundreds of thousands in the common cause. Political considerations are kicked aside, religious zeal even urges the people on to great fervor and patriotism. American people are being solidified as they have never been before since the days of Washington. And they are ready to meet whatever is before them.

Again we want to remind our farmer friends of the imperative necessity of cultivating every available foot of ground this season. One of the first resources to be husbanded in time of war is food for the army and for the civilian population. Without it any nation would be brought to its knees, and that is a condition which is unthinkable for the American people. And not only back yards in every town should yield their quota for the common good. Every citizen should do it. When this spirit animates a nation of a hundred million patriotic people it will require something more than words and plots to conquer it.

Do you own an American flag? Up with it! Let the people see it. Let them see what YOU stand for. Flags are floating in every city and hamlet in the country today. It is time to let yours feel the breeze, too. Every business house in Beaver should display the stars and stripes. Surely the emblem of liberty should be seen floating from our school houses, court house, post office and other public buildings. Let us not forget our patriotism. The sight of Old Glory makes better boys and girls; better men and women. Up with the Flag!

could spare half of their present members and not suffer in the least.

Educate farmers! The farms are suffering for them, and the professions and trades are overburdened with them.

DON'T LET YOUR COUGH HANG ON.

A Cough that racks and weakens is dangerous, it undermines your health and thrives on neglect. Relieve it at once with Dr. King's New Discovery, this soothing balsam remedy heals the throat, loosens the phlegm, its antiseptic properties kill the germ and the cold is quickly broken up. Children and grown-ups alike find Dr. King's New Discovery pleasant to take as well as effective. Have a bottle handy in your medicine chest for grippe, croup, and all bronchial affections. At druggists, 50c.

TRY THIS ON YOUR PLANO.

In promulgating your esoteric cogitations or articulating your superficial sentimentalities and amicable or philosophic observations, beware of platitudinous ponderosity.

Let your conversational communications possess a clarified consciousness and a compacted comprehensiveness and cogency. Eachew all conglomerations of flatulent garrulity and affectations. Let your extemporaneous descantings and unpremeditated expatiations have intelligibility and veracious vivacity without bombast; sedulously avoid polycollobic profundity, pompous prolixity, verbosity, and vapidty.

In other words, talk plainly, briefly, naturally. Say what you mean, mean what you say, and don't use big words.

Spring Farm Work

Have you been studying about it, Brother Farmer? It will soon be on hand. What about your farm tools?

NEED A NEW PLOW? We sell the best made. If you use one you will have no other.

NEED A DISC HARROW? In this implement, too, we head off competition. Our disc harrow is king where ever sold.

NEED A LISTER? We have the best. Thousands of satisfied users say so.

NEED ANY OTHER FARM TOOLS? We have it--or if not, we will get it for you on short notice.

WE WANT YOUR TRADE this spring, and are prepared to offer you great inducements.

Your Druggist

has sold Dr. King's New Discovery for coughs and colds since the day he opened his own store, and before that, when he was clerking for his "old boss" he made satisfied customers when he sold Dr. King's New Discovery.

It has been the standard preparation for bronchial affections for nearly 50 years.

Those who have used it longest are its best friends. It gives grateful relief in stubborn coughs and colds. Try it.
