BEAVER, MEADE & ENGLEWOOD RAILROAD TO EXTEND WEST

Mr. Adams, locating engineer for the Beaver, Meade & Englewood railway started preliminary survey out of Forgan Monday morning with a gang of seven men. The company expects to run about three survey lines from Forgan and Beaver to Hooker, with intentions of building to Boise City. Jacob Achenbach, president of the company, is in Forgan this week in connection with the extension of the road.

It looks as if they surely mean business judging from appearances and we certainly hope it will be a "sure go" as it would mean a great deal to this section of the country to have railroad connections with the western part of the Panhandle.

H. N. Crossley and wife returned Tuesday night from Oklahoma City where they had been called by the death of Mr. Crossley's brother, who was killed while discharging his duties as sheriff. We extend sympathy to the family.

Rube and James Parker went to Liberal, Kansas, Tuesday to drive home a truck purchased through D. M. Kile, local agent. They expect to put in over a thousand acres of wheat next fall.

A number of farmers have recently expressed a desire to purchase a few purebred dairy heifers or cows for a foundation upon which to build a herd of profitable milk cows, and have asked me to assist them in securing them.

I have, up to date, requests for 19 and if one or two cars could be purchased at once it would be a great saving to the purchasers, as well as a great benefit to Beaver county in general.

There are a great many farmers that would not be here were it not for the cream check and at the same time if we keep careful records on each cow, from which cream was sold, we would find that they would not pay for the feed they eat, much less for the work of milking and caring for the milk. If one or two loads of purebred heifers were placed in our county in a few years it would be easy to buy good pure bred or high grade heifers at home.

I would be glad to hear from any one that may be interested that we may unite our efforts in securing the best for the least money.

W. B. HANLY,
County Agent.

Dayton Munsell, auditor of the First National Bank of Wichita, Kansas, left the middle of this week after a pleasant visit with Dr. and Mrs. S. S. Munsell.

COUNTY COMMENCEMENT HELD

The County Commencement of the Eighth Grade Graduating Class was held at the Air Dome in Beaver last Saturday evening and a large crowd was in attendance to hear the program. About one hundred boys and girls were in the class, but not all were able to be present on account of the conditions of the roads, caused by the recent rains.

The following program was given:

Processionals—Mrs. Stranathan. Invocation—Dr. Nicholson. Instrumental Duet—Mrs. Loofbourrow, Mrs. Stranathan. Reading—Doris Mendenhall. Address—Hon. Judge Minton. Song—Male Quartette. Valedictory—Gladys Kent. Presentation of Diplomas—Supt. W. L. Henson.

Song—"Star Spangled Banner." Benediction—Rev. H. G. Butler. The valedictorian of the class, Miss Gladys Kent from District 164, made an average of 96.3-14 per cent and deserves credit because of the fact that this average was made in one examination.

Miss Mildred Bowers of Gate ranked second in the county, her average being 94.7-12. Her name was on the program for the salutatory but she was unable to be present on account of the bad roads.

Miss Emily Cruseberry of Knowles ranked third, having an average of 94.4-13 per cent.

The entire class to graduate this year from the eighth grade was two hundred fifty-seven, the largest number of eighth grade students to ever graduate in one year in this county. The number of graduates since 1919 has increased 160 per cent.

We were unable to get the names of all the graduates who were present Saturday evening as all did not register. Those who did register were:

LETTERS OF A MISSIONARY

Stella Tremaine Language School, Nanking, China.

I am spending my Christmas vacation in Wu Hu. I want to tell you about the trip from Nanking. I came to visit Miss Walker of the M. E. Mission with whom I taught one year in Turon, Kansas. I also wanted to visit Miss Commie Gray and the Blach Haskell families of our mission. I found another girl in the language school who wanted to spend the vacation in Wu Hu so we came together. Her name is Miss Schroeder. She is German, but speaks some English. She talks to me about half the time in German. I answer in English, so we have a very nice time.

The port on the river is eight miles from our house so I spent the night with Mr. and Mrs. Marx who I eat my dinner with every day. We arose at 5 o'clock. I ate a good breakfast, got all my things ready, suit case, guitar, two big bundles that my friends in Nanking were sending to their friends in Wu Ku, a box of lunch, my steamer rug and all my wraps to go in the carriage when Mrs. Schroeder came by. I had on warm woolen clothing, wool leggings, big overshoes, mother had sent me a wool sweater, plush coat, cap and scarf.

When we came in sight of the river we could see the boat coming. An old vessel called a hulk is anchored near the shore, when the river rises it rises if the river falls, it falls, if the channel changes, it can be easily moved. This is the wharf. The steamer is reached by a ladder from this hulk.

We went Chinese passage, which cost \$2.50. If we had gone first class it would have cost \$9.00.

This was very good as we did not have to stay on the boat over night. There are bare little cabins furnished but one has to have his own bedding, wash pan and everything and there is no fire. The first class cabins are steam heated. They have foreign meals and everything like a nice hotel. In the Chinese passage we could eat the Chinese food if we wanted to, but I am afraid to eat it unless cooked under careful supervision. They have so many terrible diseases of the digestive tract. I think a good way to keep well is to avoid the things that make one sick. Miss Schroeder folks must have thought we were going first class for she ate no breakfast nor brought any lunch and was hungry so I had her eat my lunch for the trip was only six hours and I had had a good breakfast.

We did not go into one of the little cabins as we could have done but stayed out in the big general room and watched the people. The Chinese people on the boat were all clean and well dressed, not the kind that smell and have a crust over the outside, for we were traveling first class Chinese.

(More about the trip next week).

CAT HAS DAY, TOO, AT THE STATE FAIR

Oklahoma City, June.—(Special.)—The old saying will have to be changed now to, "Every cat has her day." Heretofore Fido and Towser have held the center of the limelight. United States senators have praised him under the dome of the national capitol. Books have been written and motion pictures produced with Bruno as hero. And although puss for centuries has been doing a lot of useful work, Fido got most of the publicity.

Now Tabby is to come into her own, aided and abetted by no less an institution than the Oklahoma State Fair and Exposition. In its 1922 premium list, just issued, the State Fair announces a division in poultry and pet department devoted entirely to pure bred cats. No entry fees will be charged exhibitors of felines, and the State Fair even furnishes coop for puss while she is a guest at the big annual exposition. Ribbons will be given the winning cats in each breed. Entries will close Wednesday, September 20.

John Wallace left Wednesday for Wichita, Kansas, on a business trip.

GLOBE THURSDAY NIGHT, JUNE 29

"The Stream of Life," one of the most wonderful pictures of the age will be shown at the Globe on Thursday night, June 29th, for the benefit of the Mothers' Club. This film is highly recommended by clergy, laymen, trade and press. It is a picture of real life with the pathos and humor mingled, as we find it along the way.

James L. Hoff, Moving Picture World says, "I believe The Stream of Life to be a new note in pictures equally as Griffiths, 'Birth of a Nation'."

Rev. E. S. Jackson M. E. Church, Floral Park N. Y. says, "To my mind the lingering effect far surpasses 'Way Down East'."

This is your opportunity to see a good picture and help the club some. Admission 50 and 40 cts.

Mr. McLeod, better known as Harvey, is a young farmer residing near Knowles. He is also a successful teacher, having taught several terms of school in this county. He is a graduate of the Chillicothe Business College and has other qualifications which make him fully competent to fill the office of county assessor with credit.
