Teacher's Column.

W. W. F. BRIGHT, Editor.

At the great International and
Cotton State's Exposition, which
is to be held at Atlanta next year,
there is likely to be an education-
al exhibit. Why not the teachers
of this county try to win a prize?
Why not exhibit your school? Do
you not believe that you have the
brightest and best children, and
that you are doing your whole duty
to them; if not, have you not
missed your calling? How many
model schools will get ready for
the educational exhibit at the
Great Cotton State's Exposition

Carpenter's Creek, No. 34, will
have a new school house ready for
business by the first of August.

**"AS THE TEACHER, SO IS
THE SCHOOL."**
The Journal of Education truth-
fully says:

"With all the element of prog-
ress the fact remains that the
school is and must ever be, as it
has always been, what the teacher
is. With all the improvement in
text-books, advance in methods,
multiplication of devices, the
school can not be better than the
teacher. There are many condi-
tions and circumstances, relations
and forces that may make or mar
the teacher's work, but there is
nothing that can make the school
a success without a successful
teacher. It is clear, then, that the
mission of all educational forces
is to secure good teachers in the
place of the poor, and make all
conditions such as to make all
teachers and all teaching better."

What have you done, and what
are you doing, to reach the head of
your profession? Complaint is
frequently made that "I have thirty
or forty pupils, and that is more
than I can attend to," and it is
frequently too true for the good of
the pupils. Have you studied the
science and arts of education?
Theory and Practice? School man-
agement and appliances? If not, it
is time for you to begin and not
give it up until you quit the pro-
fession? Does the lawyer quit the
study of law when he is admitted
to the bar? Does the physician
quit the study of medicine when
admitted to practice? By no
means, if they expect to succeed
or gain eminence in their profes-
sions. Then why should the teach-
er stop because he answered 80 of
the questions submitted to him
by the State Board. Are we per-
fectionists—do we know it all—if so,
there is no remedy for us but to
be turned off as having served our
time as an apprentice, unworthy
to the noble calling, teacher.

IT WILL INSURE PROMOTION.
A GOOD PLAN BY SUPERINTENDENT
OF EDUCATION MAYFIELD.
Superintendent of Education
Mayfield has long been anxious to
adopt some plan to insure the prop-
er promotion of children in the
public schools of the State. The
frequent changing of teachers in
country schools often keeps a child
in the same book for years, when
it should go higher.

The Superintendent has adopted
a plan which he hopes will alter
this, and which will result in the
children progressing as they de-
serve. The plan is to supply every
school teacher with a blank certi-
ficate of proficiency. This certifi-
cate will contain a long list of stud-
ies. At the end of a school term
the teacher will fill in for each
scholar the number of lessons pro-
moted on of the certificate. In
the certificate the teacher will state
to what point the scholar has ad-
vanced in each of the studies, nam-
ing the page of the book, so that
there can not be any trouble.
When the next term opens the
scholar will take this blank cer-
tificate with him or her. If there
has been a change of teachers the
new teacher will have trouble in
knowing at exactly what part of a
book the scholar is entitled to com-
mence and the grade in which to
put him or her.

The following is a porportion of
the blank certificate:
