

Cole Planters Give Universal Satisfaction

Over 200,000 Farmers use Cole Planters in preference to all others. They save 50 per cent. of labor and do better work. At one trip the Cole smoothes the bed, opens the furrow, mixes guano with the soil, covers it, opens it up again, plants and covers, in the most accurate and scientific manner, either Cotton, Corn, Peas, Beans, Peanuts, or other seeds.

Grand Total . . . 54,670

The above includes sales of 1914 only up to March 23rd.

The first eight planters bought by us during 1903 were put in the hands of good farmers, with request to give these machines a thorough trial, and if they were pleased with them, settlement could then be made with us. These eight well pleased customers were the most enthusiastic advertisers we ever had.

Of the more than 54,000 of these machines sold by us, we can say that we have never received a complaint from a customer. No implement ever put on the market bears such a wonderful record. Intelligent farmers who have used, and are using Cole Planters frankly state that it would be impossible in any way to improve an implement so perfect in design, completeness, simplicity, workmanship and great practical usefulness. Act quickly, it means bigger crops, and labor and money saved to you.

A WORD TO TEACHERS

The long talk of Field Day or County School Fair will be held Friday, March 27th. This is to be the largest educational rally that Anderson county has ever had, and it is urged that every teacher will arouse more enthusiasm than he has in the past few weeks. From reports from all parts of the county, great preparations have been made by teachers. Promptly at ten o'clock the arithmetic contest will be held at the Kennedy street school. Any of the Anderson people will be glad to escort out this building to the contestants. Teachers, please impress upon the children and patrons that the morning constant will be strictly private. Only the judges and contestants are to be present. The children are asked to bring pencils, the paper will be furnished by the county.
 At 10:30 o'clock the map drawing contest will be held at Kennedy street school. The judges will select one of the three maps to be drawn. The children will draw the required map (from memory) and the one drawing the best map shall receive the prize.
 At 11 o'clock (approximately) the three great spelling matches (oral and fashioned) will be held at Kennedy street school.
 At 12 o'clock the Grand Parade will march around the court house. The children of the county will not march in the parade, as this was thought to be too much for them. The parade will be held at 1:30 o'clock on West Market street, near the West Market street school. After the parade the large picnic dinner will be held at Buena Vista park. Teachers, please remind your pupils and patrons to bring well filled baskets, and each school is asked to select its own place in the park for picnic.
 At 5 o'clock the county athletic meet will be at Buena Vista park. All

schools entering this contest are urged to watch the papers and read Prof. Chapman's article. At the close of all the contests, Prof. W. K. Tate will present the prizes at the park.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Grandma's Recipe of Sage Tea and Sulphur Barks So Naturally That Nobody Can Tell.
 Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray, also cures dandruff, itching scalp and keeps falling hair. Years ago the only way to get this mixture was to make it at home, which is tedious and troublesome. Nowadays by asking at any drug store for "Wash's Sage and Sulphur Hair Restorer," you will get a large bottle of this famous old recipe for about 25 cents!
 Don't say "grah!" Try it! No one can possibly tell that you darkened your hair, if it does it so naturally, and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time, by moving the gray hair, however, whether another application or not, your hair becomes beautifully dark, thick and glossy. MONEY FOR SCHOOL WORK FOR THE YEAR

LIBERAL APPROPRIATIONS BY LEGISLATURE

WEAK SCHOOL AID

All Money is to Be Paid To The Rural Graded Schools Without Fail

That the school of Anderson county and every other county in the state will fare well this year is now assured, according to a letter just received in Anderson by J. B. Felton, superintendent of education. Mr. Felton says that he is much pleased with the appropriations and that he believes the school will be able to do much effective work as the result of the appropriations from the general assembly.
 "The general assembly made liberal provision for the free public schools. The six appropriations include: High schools, \$60,000; rural graded schools, \$45,000; week schools, for term extension, \$60,000; libraries, \$5,000; public school buildings under the act of 1912, to be disbursed in order of applications filed, \$20,000; contingent fund to be expended by the county boards of education under the regulations provided by the state superintendent of education for especially needy rural school districts, \$45,000.
 "These funds guarantee the continuance and extension of education activities that have brought more efficient schools to scores of communities during recent years. State aid based on the local taxation should provide in every district a school term of at least seven months, an up-to-date building and a body of competent teachers. If the people of any community will co-operate with public school authorities they may easily secure state aid for a better building, a longer term and the establishment of a rural graded school.
 "All applications for high school aid will be considered by the state board of education at its next meeting. The money will be forwarded in four county treasurers about May 15th. The usual November installment of high school aid for the scholastic year 1913-14 could not be paid last fall pending the collection of the one-half state school tax, from which the 1913 school appropriation for 1913 was derived. High school trustees and principals may rely up

on their usual appropriation as heretofore.

"Rural graded school applications shall be paid without fail. Under no condition would any district maintaining a two- or three-teacher school and asking for school aid be permitted to close for lack of funds. The increase from \$20,000 to \$60,000 for these schools furnishes the purpose of the lawmakers to maintain the policy in every district, meeting the requirements of the rural graded school act. No rural community enrolling fifty children can now afford to do without a two-teacher school and no such community enrolling 75 children should be content with less than a three-teacher school. Under this constructive and stimulating policy upwards of two hundred communities have voted the required four mill tax, and have secured recognition as state-aided schools. Your cooperation in extending this policy throughout your county is thoroughly appreciated, for without your cordial assistance nothing could be accomplished by state aid to these schools.
 "Nearly 600 term extension applications have already been paid. But if any weak district levying a two-mill tax desires to participate in this appropriation its application should be forwarded without delay. The term extension act applies to even the smallest school. In this most sparsely settled section. This measure has already brought about a marked increase in the school term of half of the counties in the state. By utilizing its benefits the trustees and patrons of any district should be able to lengthen their school term. Where a sufficient local tax is voted to secure the maximum of \$100 state aid every public school may now run at least 140 days.
 "The library appropriation has never been fully used. Schools without a library should purchase one immediately; school having libraries may enlarge them each year.
 "The removal of the state building fund means at least four score new buildings during 1914. The one-room school house is, and must always remain, a necessity. It would mark a great step forward, however, if the number of one-room school houses erected this year could be reduced to the minimum, and if the construction of two-room, three-room or four-room buildings could become the rule."

A Card of Thanks.

Mr. and Mrs. H. G. Howell of Greenville thank their friends of Anderson for the many words of sympathy and loving kindness that were shown them in their affliction.
 May God's richest blessings reward each and every one.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Eat Less Meat If You Feel Backache or Have Bladder Trouble Take Glass of Salts

No man or woman who gets meat regularly can make a mistake by flushing the kidneys occasionally with a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.
 The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular passage, or attended by a sensation of scalding stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and sodium, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.
 Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which every one should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. Evans' Pharmacy Agents.

CROSS ROAD

Well, Mr. editor the health of this community is very poor at present. The farmers are getting ahead very slowly with their work on account of this bad weather. Some folks have planted some corn.
 The school is in a four-room building and is being taught by Miss Annie Tucker.
 T. H. Birtch has a daughter, Mrs. E. F. McDaniels.
 Mrs. Eugene Weira had the misfortune of getting her leg sprained by falling from a high piazza, but she is now getting along alright.
 Wonder if W. L. Casey has got any frost proof watermelon seed. If so, would like to get some from him.
 J. B. Tucker has been back with a severe cold but is improving.
 Can anybody tell me what became of the roadrunner that used to work our roads. The last time I heard of it was some years ago.
 One of our boys went to Anderson the other day thinking he was all alone, but when arriving he raised the lid on the back of the bus, and he found a lot of boys sitting there.
 Around about the week ended that city was not the life for us, we were called back into the city, and went under the shed, as good as to say, the country is the place for me.
