

PIEDMONT PRESBYTERY MEETS AT MOUNT ZION CHURCH NEXT

Presbytery resumed its session at 3:30. The reports of the various committees were taken up. The Committee on Local Home Missions made a very interesting and encouraging report.

It showed that practically all of the churches had been supplied with preaching during the year, and that about \$1,500 had been raised for this cause. The committee recommended that the sum of \$1,700 be asked for this work this year.

Election of Commissioners. The Presbytery elected the following Commissioners to represent this Presbytery in the General Assembly, which is to meet in Kansas City, Mo., in May.

Rev. G. M. Wilcox, of Walhalla, minister, and Hon. J. L. Sherard, of Central Church, Anderson, Elder; and Rev. D. P. Junkin, of Piedmont, alternate to Rev. Mr. Wilcox, and Prof. John B. Palmer, of Pelzer, alternate to Mr. Sherard.

Place of Next Meeting. The Presbytery accepted the invitation of the Mt. Zion church, of Sandy Springs, to hold its next meeting with this church. And after much discussion the time was fixed as Thursday night, September 3.

It was the desire of this church to have the Presbytery meet on Friday night and remain over for the Sabbath, in the good old time way. The invitation and request were presented by the venerable Dr. Law, who was for a long time pastor of this church, and it looked as if the matter was going to be granted, but the compromise was accepted, to meet on Thursday night, complete the work of the Presbytery in time for the pastors to get back to their respective churches and appoint some of the ministers to remain over and hold services for the church on Sunday. It is understood that Dr. Robert Adams, now a Bethel in York county, has accepted the call to Pendleton and Zion. Dr. Adams was pastor at Laurens for a number of years.

It was made a special order to hear the report of the Permanent Committee on Sunday Schools and a conference on this work at the first hour of the morning session.

Evening Session. The evening session was given over to a popular meeting on the Cause of Foreign Missions.

The meeting was presided over by Dr. Frazer, the pastor of the church. The report on the Foreign Mission of the Southern Presbyterian Church was made by the Rev. D. P. Junkin, the

Chairman of the Presbytery's permanent committee on this cause.

The report called attention to the fact that "while in one or another of the various fields in which the church has missionaries and mission property, there had been wars, revolutions, famines, pestilences, earthquakes, floods, and volcanic eruptions, yet there had been a loss of life among the missionaries or to mission property reported to the Executive Committee."

There were 3,517 conversions made by the missionaries of this church last year in foreign fields. Eleven new missionaries were sent out, but seven were lost by death or retirement.

The contributions to the regular features of this work for the past year were \$514,184; and \$46,995 were contributed to special objects outside the regular budget; but this left a deficit of \$36,731.

The Presbyterians of Piedmont Presbytery contributed \$2,993, to this cause during this year. This shows a falling off from the gifts for last year, which were \$3,322.

The subject for consideration was, "The Success and Failures of Foreign Missions."

Rev. J. E. Wallace, of Westminster, spoke of the Success of Missions in Latin America, Mexico, Cuba, and Brazil; Rev. W. D. Dodge of the Central Church, spoke of the Success of Missions in Africa; Rev. C. D. Waller, of Easley, spoke of the Success of Missions in the Orient, China, Japan and Korea. The Rev. D. P. Junkin of Piedmont, spoke of the Failure of Missions. He traced the failure of Missions, if there be any, to the failure of the Christian people to support this cause as they should.

Dr. Davidson Douglas. At the close of this meeting, the Rev. Davidson Douglas, D. D., the President of the Presbyterian College, was heard in the interest of this institution.

Dr. Douglas gave a very interesting and encouraging report of this College, showing that it is making marked and material progress along all lines. Dr. Douglas is a strong man and no institution could fail to grow and prosper with such an able leader and head.

The Presbyterians of South Carolina have something to be proud of in the president of their college, and if they will but back him up in his plans and efforts he will soon have them a college that they can point to with a worthy feeling of pride.

The sessions will be resumed at nine o'clock this morning, and the Presbytery will likely adjourn sometime this afternoon.

MORNING WORK OF PRESBYTERY

Committees Appointed, Reports Read and Other Important Matter Given Attention

The Tuesday morning session of the Piedmont Presbytery was opened with devotional exercises conducted by Rev. W. H. Mills of Clemson College. The meeting was called to order by Rev. D. Witherspoon Dodge, the newly elected moderator, and the minutes of the preceding session were read by the secretary and the morning's business was taken up.

Chicora College. The first business was the reading of reports from schools and colleges supported by the Presbyterian church. The report from Chicora College, Greenville, was satisfactory, but regret was expressed because of the fact that only about \$21,500 had been received as an endowment by the college so far when the amount should really be \$25,000 by this time. The amount of endowment was placed at \$50,000, and half of the time allotted for securing it has elapsed. The report stated that a suitable building site had not yet been procured. Two sites were under consideration, but no satisfactory terms could be made.

Thornwell Orphanage. The second report was from the stated that no deaths had occurred Thornwell orphanage. This report during the year and that the orphanage was in excellent shape. A new building has recently been opened in connection with the orphanage and is now occupied by twenty boys and their matron.

The report from Davidson was also satisfactory in a financial way, but like Chicora, Davidson has not yet received all of the endowment fund.

From the Presbyterian College at Clinton came an appeal for cash. This report stated that Clinton was behind and that there would be a deficit of some \$2,000 at the end of this term. They asked aid from the Presbytery. This caused a long discussion and was finally decided on a vote as to whether or not to raise the necessary money by taking the collection for the purpose.

After the reports were read Mr. A. R. Craig, who lives at Sandy Springs, and who is now at Davidson College, was received as a candidate for the Presbyterian ministry.

The following committees were appointed: Bills and overtures—W. H. Frazer and S. D. Stuart. Judicial business—J. G. Law and T. C. Bozge. Gifts and installation—C. E. Harbin and J. E. Wallace. Printed minutes—C. D. Waller. Leave of absence—I. E. Wallace and J. F. Bailey. Session records—D. P. Junkin. Ruling elders—R. W. Hammond, J. W. Shelor, John Meyers, T. W. Bannister. Narrative to general assembly—W. H. Frazer and G. M. Grier. Finance—C. D. Nesbit and J. M. Burtenshaw.

At 11 o'clock the regular sermon was preached by Rev. J. E. Wallace of Westminster. Mr. Wallace took for his text the immutability of Jesus Christ, and preached a very forcible sermon. The fitting school boys were allowed to hear this sermon, and there were a large number of others present.

After the sermon the members of the Presbytery reviewed the students of the fitting school. The drill, which was given, was very good. The company was in command of Prof. Parks and Capt. Sloan, and the drill was enjoyed heartily by all.

Enough Said. Juarez, Mex., April 14.—A telegram from General Villa, O. asked for two million cartridges. O. There were no other details.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts before breakfast. Your back hurts or bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out. They weaken from overwork, become sluggish; the eliminative issues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps or lead, your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy nervous spells, neck stiffness, or you have rheumatism, when the weather is bad, get from your pharmacist about four ounces of Jad salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it is no longer a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Evans' Pharmacy.

NATION WIDE PROHIBITION

IS THE FIGHT BEING MADE IN CONGRESS NOW

HOBSON IS LEADING

Important Hearings Before the Committees With Strong Speeches Made

(By Associated Press)

Washington, April 15.—Prohibition advocates today presented to the house judiciary committee arguments in support of a constitutional amendment to enforce prohibition throughout the United States. They urged the committee to report to the house the resolution of Representative Hobson, of Alabama, providing for the submission of the states for ratification of a constitutional amendment directed against the sale, or manufacture for sale, of all alcoholic liquors for beverage purposes.

For three hours men and women representing states all over the East presented the arguments and told of the progress of the prohibition fight. Tomorrow they will appear before the sub committee of the senate judiciary committee in charge of the prohibition resolutions.

Led by Representative Hobson, the prohibitionists argued that they simply were appealing for an opportunity to present to the people of the country, through the State legislators, a definite referendum on the liquor question. They declared that, without reference to the merits of the question, the problem had grown to such proportions that it justified such action. With fifty five per cent. of the people of the country living in prohibition territory, they asserted, the time had come for the submission of the question in a broad national basis.

Representative Hobson opened the argument for his resolution, urging a favorable report that would place the measure before the house. "We do not propose," he said, "to argue the merits of this question. Our position is that the question before this country is simply whether the committee and congress will give the people of the states the right to pass upon the matter. It matters not what the individual members of this committee may think of the merits of the case, we think they should be willing to give the people an opportunity to decide the question."

Representative Hobson contended his resolution would not interfere with states rights. He said that under the proposed amendment it would be possible to manufacture liquor "for use" but not for "sale." The amendment, he said, would not interfere with the "old drinker drinking," but would prevent the "debauching of youth."

"This proposal will simply kill the organized liquor business," he said, "and our boys will have an opportunity to grow up sober."

Representative Hobson said about 55 per cent. of the people of the United States now are living in prohibition territory.

MR. SULLIVAN IS INVITED TO SPEAK

Assigned to Topic For State Meeting of S. C. Building and Loan Workers

G. Cullen Sullivan, one of Anderson's best known attorneys, has received an invitation to deliver an address in Rock Hill on June 24 when the Building and Loan Association of South Carolina will be gathered in its annual session. Mr. Sullivan is a splendid speaker and there is no doubt but that he would make a fine impression upon the association should he see fit to accept the invitation tendered him. The subject assigned to Mr. Sullivan is "Sentiment—Not To Be Overlooked in the Conduct of Institutions."

M. W. Goldsmith of Greenville is president of this association while J. S. Morse of Abbeville is the first vice-president.

MORE SPINDLES; MORE CONSUMED

Cotton Statistics For the Present Season As Compared With Last Year

Washington, April 14.—Cotton consumption and distribution statistics for March was announced today by the census bureau as follows: Foreign cotton equivalent 290 pound sales consumed 490,770, compared with 458,350 last year. This year 18,420 foreign bales included.

Cotton on hand March 31st in manufacturing establishments 1,704,344, compared with \$28,468. In independent ware houses 183,977 compared with 1,770,562 last year.

Imports 20,822 compared with 27,329 last year. Exports 625,305, compared with 372,075.

Linters consumed 24,778 compared with 21,180. Linters on hand March 31st in manufacturing establishments 193,471 compared with 33,083. In independent warehouses 57,328 compared with 40,730.

Active cotton spindles 21,127,404 compared with 20,515,922.

DEMONSTRATOR'S MANY DUTIES

J. W. Rothrock, Anderson County's Agent Has Many Things To Do and Does Them Well

Anderson people may not understand clearly just what the duties of a county agricultural agent are and many of them may not know the numerous things demanding the attention of J. W. Rothrock, Anderson county's splendid agent who works with the chamber of commerce and Clemson college.

County agricultural agents are some times referred to as "county advisers." This implies a misunderstanding of the real work of the agent. Advisory work is a part of the agent's duties, but a minor part. The county agricultural agent has about half a dozen principle functions:

(1) He studies the agriculture of the county to learn what is being done and what is worth while agriculturally in each part of it. This study includes farm, financial and organization surveys.

(2) He gives the results of studies to the farmers, not in the way of advice, but as facts observed and conclusions drawn. This is done through the local press, lectures, institutes, circulars, short courses and personal interviews.

(3) Based on these local studies and the ascertained needs of the county, clubs, associations, and the like are organized and the individuals solicited to undertake definite lines of agricultural improvement on their own farms. Organizations are also formed for cooperative buying and marketing and the standardization of farm products.

(4) He endeavors to coordinate all existing agricultural agencies within the county, so that all may work unitedly and efficiently.

(5) He develops local leadership. The task of improving the agriculture of an entire county is so stupendous that the agent must be primarily an administrator. He must inspire and accept the help of voluntary assistants in work.

(6) He acts as the connecting link between the scientists of the research institutions of the State and Nation and the farmer, presenting the results of investigations in such a way that the farmer can use them, and calling attention of the scientists to the local agricultural problems of the county and soliciting their assistance.

(7) He gives advice. This may relate to spraying, seed treatment, raising fertilizers, combating insect pests, cultural practices or other miscellaneous matters which are the stock in trade of every well informed agent.

The giving of advice is seventh on the list because in actually improving the agriculture of the county it is probably of least importance though in point of time it may be the first work undertaken.

ORDERS MILITIA STOP GAMBLING

Governor Cruce of Oklahoma Will Not Stand For Turf Scandals

(By Associated Press)

Oklahoma City, Okla., April 14.—In orders declaring that "gamblers and law violators shall not longer flaunt their vice in the face of the decent citizenship of Oklahoma," Governor Lee Cruce tonight declared the fair grounds at Tulsa under martial law and directed Frank M. Canton, Adjutant General, to order out a sufficient force of state troops to enforce the laws against gambling laws.

This action was taken when the adjutant general, who is in Tulsa, reported to the governor that notwithstanding orders issued last night by District Judge L. M. Poe, bookmakers were operating at the fair grounds track where the Spring race meeting of the Tulsa Jockey Club opened yesterday.

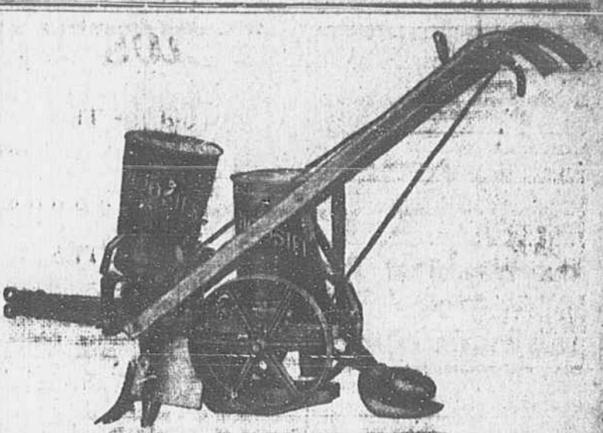

GRANDMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked, faded hair beautifully dark and lustrous.

Remove every bit of dandruff, stop all scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home though it is troublesome. An easier way is to get the ready-to-use tonic, costing only 50 cents a large bottle at drug stores, known as "Nycol's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wavy, faded, gray hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Nycol's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair; taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Evans' Pharmacy Agents.

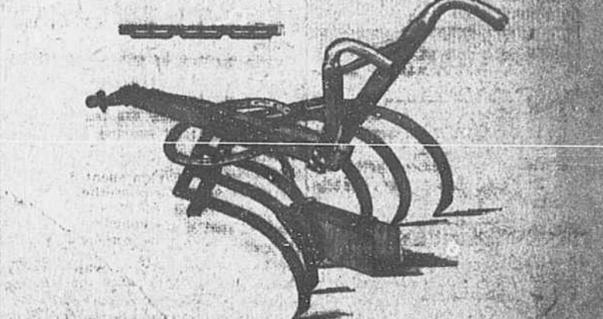

Hoosier Planter and Fertilizer

... Best In The World ... Use it to Plant your Crop and a

Circle Brace Cultivator

To cultivate your crop. By doing so you will Get Better Results than could possibly be obtained by the use of any other makes of farm implements.

ANDERSON HARDWARE COMPANY

E. Whitner St. Anderson, S. C.

KRESS BUILDING STARTS BY MAY 10

Representative of the Company In Anderson Yesterday, Made This Statement

A. I. Wilson of New York city representing the Kress Company, spent yesterday in Anderson looking over the site on which will be erected the splendid Kress building, to go up in this city, and making a few arrangements in regard to the beginning of the work.

When seen by a reporter for The Intelligencer last night, Mr. Wilson said that he did not know of anything he could say in regard to the matter now, except that the building operations would most certainly be under way within the next 30 days, work beginning somewhere around May 10. Mr. Wilson said that any statement in regard to the company's plans at this time would be a little premature. The first plans drawn for the building did not meet with the entire approval of Mr. Kress and so many

BILLY BURKE MARRIED

New York, April 14.—An announcement was made here today of the marriage on Saturday at Hoboken, N. J., of Miss Billie Burke, actress, to Clarence Ziegfeld, Jr., theatrical manager.

The couple plan to sail for a honeymoon in Europe at the close of this spring of Miss Burke's present New York engagement.

Mr. Ziegfeld married Anna Held in Paris in 1907. They separated two years ago and in January, 1913, Miss Held was granted a divorce here.

NOTICE VETERANS

All Confederate Veterans are invited to meet with Camp Tolly at the Farmers' Hall, Pendleton at 8 o'clock next Saturday evening, April 18th for the purpose of electing delegates to the Jacksonville and Anderson sessions.

J. C. STEWART, Com. Camp 1024, U. C. V.

J. S. Fowler Being Urged To Make Race for Mayor

A number of friends of J. S. Fowler called at The Intelligencer office Wednesday night to state that strong pressure had been brought to bear upon Mr. Fowler to permit his name to be used in connection with the office of mayor in the coming city election. It was not stated definitely that Mr. Fowler would permit his name to be used, although it was reported that he has the matter under serious advisement.

The friends who made this statement declared that as the next two or three years will make the critical period in the development of Anderson, the transition from a city of 15,000 to a larger city perhaps double the population, they are interested to see a progressive man in the office of mayor. Mr. Fowler had been asked

to offer for the State senate and the assurances received indicated that he could get the place, but his business affairs would not let him leave home. It is stated, however, by those who proposed his name last night, that this consideration should not keep him from announcing his candidacy for mayor.

In the local afternoon paper yesterday it was stated that Alderman E. E. Elmore of the present city council will offer for mayor. Mr. Elmore has been regarded as a very careful public official and has a strong following. C. E. Tolly has also intimated that under certain conditions he would enter the race. The name of W. L. Brissay has been prominently mentioned, and while his hat is not in the ring, it is said by his friends that they are trying to put it there.

BELOVED WOMAN PASSES AWAY

Mrs. Anna B. Miles Was Buried At Old Stone Church Yesterday Afternoon

The body of Mrs. Anna B. Miles arrived in Anderson Tuesday afternoon from Elberton, Ga., and the funeral took place yesterday afternoon at 2 o'clock at the Old Stone church. The services were conducted by the Rev. Mr. Mills, assisted by the Rev. A. Peller.

Mrs. Miles was on a visit to her son, J. A. Miles, in Elberton, Ga., at the time of her death. She was calling at the home of a friend when she was seized with an attack of heart trouble and expired within less than 20 minutes.

Mrs. Miles was known in all parts of the county by reason of her educational work. Just after the war she started the school now known as the Bishop's Branch school and here she taught for a number of years. Later she taught other schools in various parts of the county until her marriage to J. A. Miles in 1871.

Before her marriage Mrs. Miles was Miss Annie B. Pickens, coming from a well known Anderson county family. She is survived by three brothers, Dr. T. J. Pickens of Columbia, Capt. J. M. Pickens of Pendleton, William P. Pickens of Easley and one sister, Miss Eliza Pickens of Pickens. She is also survived by three sons, J. A., J. J. and S. P. Miles.

For several years Mrs. Miles made her home in Anderson with relatives and the news of her death will bring sorrow to many Anderson people.

There are nearly forty thousand electric vehicles in this country.

BASEBALL GAME IS CALLED OFF

Instead of Playing Frazer This Afternoon, High School Goes To Greenwood

Instead of playing the Frazer Academy baseball team in this city this afternoon, the manager of the Anderson High School team said last night that this game had been cancelled and that the Highs would go to Greenwood tomorrow afternoon where they will play the Bailey Military Institute. Bailey comes to Anderson Monday for a game at Bennu Vista park.

The game arranged for this afternoon had been anticipated with some interest on the part of fans because the A. H. S. selected the Academy in the first game of the season by a very decisive score and it is said that the fitting school boys had planned to get revenge in the encounter today. However, the manager of the high school team did not think his team could stand up under two games in succession and therefore cancelled this afternoon's event.

The A. H. S. boys will make quite a brave showing when they appear on the Bailey grounds tomorrow afternoon. The new uniforms were received yesterday and the boys looked like real "big leaguers" when they made their first appearance for practice. The uniforms are made up in the school colors and add much to the general appearance of the team. The suits were bought through the generosity of Anderson business men and the team appreciates the assistance.

The meeting of the New Haven stockholders' meeting today now threatens to be a lively one.
