### COTTON MARKET PRICES STIFFEN

Broadening Demand for Near Months Causes Brisk Trading and Good Prices Generally

(By Associated Press.) New York, May 20.—The cotton market was generally firm today with prices making a new high record for the movement on a broadening demand, which appeared to be inspired by expectations of a bullish crop condition report from the government at the beginning of next month and the reports of a continued steady old crop situation.  
Closing prices were firm and from 9 to 18 points net higher. New crop from 9 to 18 points net higher. New crop positions led the advance during the afternoon and at the close tonight December contracts were selling within 34 points of July, comparing with a difference of some 89 points less than a month ago.

The opening was steady at a decline of 1 point to an advance of 2 points, which was just about as due on the showing of Liverpool, but prices quickly worked higher on covering by recent sellers and commission house buying. The western belt forecast for more settled weather with probable showers was evidently a disappointment to some of yesterday's sellers for a turn, while the eastern belt forecast for continued fair or partly cloudy conditions probably emphasized complaints of insufficient rainfall and low night temperatures in that section.  
Cotton Futures closed firm.

### New Orleans Cotton

New Orleans, May 20.—Heavy buying was the feature of the cotton market today, much of it coming after the noon hour. It was based on belief in crop damage due to the heavy rains overnight in Texas, coming as they did on top of many days of rain. In the early trading there was a small net decline, but this did not last long. In the afternoon the market went 11 to 12 points over yesterday's last figures on the most active months and closed at a net advance of 9 to 11 points.  
Cotton futures closed steady; closing: May 13.41; July 13.15; August 12.96; October 12.87; December 12.84; January 13.25.  
Spot cotton steady 1-8 up. Middling 13 1-2. Sales on the spot 1,307; to arrive 485.

### Cotton Seed Oil

New York, May 20.—Cottonseed oil was easy early today under scattered liquidation, but later rallied on covering of shorts and buying for a reaction. Final prices were 1 to 2 higher for leading positions.

### NEGRO FORGER WAS ARRESTED

George Gordon Caught in Atlanta Yesterday by Clever Work of Belton Policeman

(From Thursday's AdDly.) George Gordon, wanted in Belton on a charge of forgery, was arrested yesterday morning in Atlanta and brought back to Belton yesterday afternoon, according to messages received in Anderson last night. Some weeks ago the negro forged checks in Belton, signing the names of several of Belton's well known business men and before the forgery was discovered he made good his escape.  
Since that time Belton police have been working diligently on the case and yesterday morning policeman W. S. Acker requested that the chief allow him to go to Atlanta in search of the negro. A short time after he reached Atlanta he was on the trail of his man and in less than an hour he had him in custody.  
Belton people are pleased over the able work done by the police force in that town in this case and they claim that Belton's police force will compare with any in the state.

### MONEY EASIER FOR TIME LOANS

Trading in the General Stocks Dull and Professional On New York Exchange

(By Associated Press.) New York, May 20.—The session on the stock exchange today was devoid of interesting developments. Trading was dull and professional throughout and the monotony of the movement was relieved only by the heaviness of such issues as Missouri Pacific and Western Maryland, whose affairs admittedly are unsatisfactory.  
In its broader aspects the real feature of the day was the further rise in foreign exchange. Demand sterling advanced to 4.855 and increased scale of recent gold exports. Brokers reported a more persistent demand for our metal from Paris and Berlin, and the inquiry from the latter center is popularly believed to be for Russian account.  
Foreign stock markets were not unlike our own, London manifesting a sluggish and drooping tendency, with some weakness at Paris and Berlin.  
Local monetary conditions were unchanged, save for some easier tendencies in time loans. Total interest and dividend disbursements in the coming month are somewhat in excess of the corresponding period last year and a better inquiry for bonds may precede the release of these funds.  
Weakness in the issues mentioned affected the general bond list, prices falling on reduced dealings. Total sales (par value) amounted to \$1,400,000.  
Government bonds were unchanged on call.

### Liverpool Cotton

Liverpool, May 20.—Cotton spot steady; good middling 8.16, sales 3,000; 7.54; low middling 7.68. Sales 3,000. Speculation and export 1,000. Receipts 3,000.  
Futures very steady. May 7.18; May-June 7.17 1-2; July-Aug 7.00; Aug-Sept 6.85; Oct-Nov 6.54 1-2; Dec-Jan 6.46; Jan-Feb 6.46.

### CHICAGO GRAIN

Chicago, May 20.—Despite heavy selling to realize profits, the wheat market today advanced to the highest point thus far recorded on the crop. Alarming reports of damage from insects kept speculators in a turbulent mood and made the close strong at a rise of 1-8 to 1-8-3/4 net. Corn gained 1-4 to 3-8 and oats 5-8 to 1-3-5-8 1-4. Provisions finished a shade off to an advance of 1-8.  
Cotton Goods  
New York, May 20.—Cotton goods markets were stronger and more active today for printing, bleaching and converting. Wash goods were active and the demand for white goods has shown a steady increase. Worsted yarns were quiet. Shadow laces were in demand.

The establishment of the system of "grading" the prisoners, according to their good behavior and industry has worked splendid results. The convicts are now in their spring uniforms. According to the observation of the state board, they are comfortably clothed, humanely treated and well fed.

"But they are being made to work" one of the commissioners added. "The law contemplates that they shall work and the law is being enforced. We are proving it we can get the best work from the convicts under humane and sensible treatment."
