G. H. BAILES, Prop.

Money cheerfully refunded for any unsatisfactory purchase when returned to us in a good condition as when they left the store, but we POSITIVELY cannot send out goods on approval. Do not ask for it.

FITTINGLY OBSERVED INDEPENDENCE DAY

CROWDS THROGGED INTO ANDERSON YESTERDAY

FAST AUTO RACES

Patriotic Addresses and Display of Fireworks Made July 4th Celebration a Success

(From Sunday's Daily) Anderson people have long thought that July Fourth is one of the principal days of all the year and now Anderson county farmers are convinced that this is a fact. Independence Day was gloriously celebrated in Anderson but with the farmers the celebration consisted in rejoicing over the fact that the best rain Anderson has enjoyed in many weeks fell yesterday.

The day began with a rain early yesterday morning but this soon passed away and the sun came out bright and clear, as though the day had been made to order for the celebration. By 10 o'clock the crowds were thronging beautiful North Anderson, although the program proper was not scheduled to begin until 11 o'clock. At 10:30 the military band gave a very interesting musical on the public square and then the line of march was taken up for the prettiest suburb ever seen in South Carolina. There people from all parts of Anderson county and from adjoining counties and from Georgia had assembled to hear the addresses and to witness the motor car races. The principal address of the day was delivered by G. Cullen Sullivan and Mr. Sullivan acquitted himself in a splendid manner. Then came the automobile races.

The course was rough in some places and for this reason the time made by the cars was not quite as good as might be expected, yet the race was one of the best ever seen here. The first event was for the heat time made over the three-quarter mile course and this event was won by Sullivan driving a Royal car. His time was 48 seconds and he won the first prize of \$40. The Grimes boys, driving a Ford, a striped and a black and white car, were next, with times of 50 and 51 seconds, respectively. These were the only entries in the speed races. Next came the slow races, an innovation in automobile contests in this part of the state. In the class for machines of 24 horsepower and less, Mrs. Raymond Smith came off an easy winner with a record of 1:17 minutes. Sullivan driving a Chalmers was the winner in the class for cars of 30 horse power. And

Anderson since the last reading of the meter, June 23d, and is now nearly two weeks old although no announcement was made pending a visit from Pres. Z. V. Taylor, which had been expected for some time. Pressure of business detained him until yesterday. The rate in this city one year ago under the old contract was 12 and 1-2 cents. Under the new contract it was reduced to 11 cents per hour and now the company voluntarily cuts the rate to 10 cents. This it promised to do from the outset if the city council would grant the franchise asked for, because the company wished to get a concession for a long term of years in order to float its bonds. The company, after the way it has been maltreated, felt under no obligations to reduce the rate, but did so anyway. Mr. Taylor stated yesterday that the company is just seven months ahead of time in being able to offer this rate to the people of Anderson. Following is the scale of prices on electricity announced yesterday, but really in effect since June 23rd: First 50 K. W. 10c. Next 50 to 100, 9c. Next 100 to 150, 8c. Next 150 to 600, 7c. Next 600 to 1000, 5c. Less 5 per cent discount if bill is paid on or before 10th of month succeeding period for which bill is rendered, minimum bill \$1.00. Mr. Taylor, while here yesterday, inspected the numerous improvement being made by his company and stated that 15 cars of pipe are now en route to Anderson, with which the company will put in six inches mains in many streets in which there are now four inch mains. "This one thing alone will cost us between \$20,000 and \$25,000," said Mr. Taylor. In speaking of the numerous criticisms concerning the work of the Southern Public Utilities company, Mr. Taylor said: "We have spent \$2 for every \$1 we have realized out of Anderson ever since we took charge of the local plant and we will have to continue that policy for some time. "It does seem to me that some of your citizens, continually carping and criticizing us about either what we do or find out what they are talking about. They are hurting nobody but themselves. We are trying to give the best service possible and we believe that the public should at least be a little appreciative."

MAN JUMPED THIRTY FEET TO THE GROUND LAWRENCE TREWOLA HAD A NARROW ESCAPE GAVE FIRE ALARM Neighbors Saw Man Falling From Window and Concluded It Was on Fire (From Sunday's Daily) Crazed by the effects of some whiskey he had obtained in town and probably suffering also from the effects of drugs, Lawrence Trewolla yesterday afternoon about 1 o'clock jumped from the second story window of C. A. McFain's boarding house to the ground beneath. The fall was a distance of between 20 and 30 feet and that the man did not break his neck is hardly less than miraculous, yet last night he was almost himself again and except for being badly bruised he is as sound as ever. Trewolla is a carpenter by trade and has been at work for the last few weeks on the Vandiver building which is being erected on Main street. Yesterday was a holiday and all the employees were given a day off. Trewolla came to town and had a few drinks and he says that the last thing he remembers is taking a drink of whiskey. Shortly after he drank it he started for his home at 221 East Orr street and when he arrived there he found the boarders assembled at dinner. Several of them asked if he did not care for some dinner and he replied that a cup of coffee would be sufficient. He drank this and then calling for his wife they went to their room on the second floor. There, without mentioning his idea to his wife, he started to jump from the window. Mrs. Trewolla tore some of the clothing from his body in an endeavor to prevent the rash act but he threw her aside and jumped. It so happened that Dr. J. C. Harris was passing the house at the time and he gave the man such medical assistance as he could and shortly afterwards Dr. H. H. Harris arrived. They both thought for a time that the man's spine was broken at the base of the brain but they finally got him revived with ice water and it was then discovered that he had not even suffered one broken bone. Had he been in possession of his faculties he might have been killed. One of the remarkable things in connection with the happening was that a neighbor saw the man falling and she concluded that the house must be on fire to cause him to jump, and she accordingly turned in the fire alarm. The fire department made a quick run to the scene and it was followed by the enormous crowd in the city. The visitors thronged the place and strangers thought that half the town must be in traps. Trewolla is a man of middle age, is married, and said last night that he had no idea why he should try to take his own life.

UNITED STATES DENIES ONUS OF STATEMENT Bryan Repudiates the Alleged Report of Grecian Minister Williams

Washington, July 3.—Responsibility for published statements criticizing conditions in Albania credited to George Fred Williams, minister of the United States to Greece, was disclaimed by the State department tonight in a formal statement issued by Secretary Bryan. The minister's report his activities in Balkans has not reached Washington and officials of the government have been silent concerning press dispatches quoting him. Secretary Bryan's statement was: "In reply to inquiries addressed to the department of State as to what authority the American minister at Athens had to make remarks attributed to him relative to the condition of affairs in Albania, the secretary of state has replied that Mr. Williams was only authorized by the State department to visit Epirus, observe conditions and report the result of his observations to the department and that the published remarks he is alleged to have made were given solely on his own responsibility, and with no authority whatsoever from the department. Mr. Williams' report of his visit has not yet been received." In official circles the action of the government in issuing this statement without awaiting the arrival of Mr. Williams' report was regarded as significant. It was said President Wilson himself had called the department's attention to the gravity of the situation, suggesting that no time should be lost in letting it be known that in attacking the Prince of Weld and his government in Albania, Minister Williams was not acting on instructions from Washington. Press dispatches have reported the minister, as resigning, but Secretary Bryan said no resignation had reached the department.

TOLL REDUCED FOR CURRENT IN ANDERSON Z. V. TAYLOR ANNOUNCES CUT OF LIGHT AND POWER PRICES WILL SAVE \$5,000

Reduction of Current to 10 Cents Per Kilowatt is in Keeping With Promise The Southern Public Utilities company has announced a reduction of 10 per cent in its rate for electricity for the consumers of Anderson. This means a saving of \$5,000 a year. This is making good the promise made by the company more than a year ago, when it stated its intention to make a 10 cent rate here as soon as possible. The rate as promulgated yesterday was agreed upon some time ago, as quite a number of Anderson people knew, but for obvious reasons it was decided not to announce the rate just then. It will be recalled that the company recently offered Winston-Salem a like rate which was accepted in that city in lieu of municipal ownership. The rate has practically been in effect in

CUP COMES OVER American Crews Tied for Rowing Trophy in England

Honley on Thames, July 3.—The coveted grand challenge cup comes to the United States. Two American eight-oared crews—the Union Boat Club of Boston, and the Harvard University second crew—were left to fight tomorrow for its possession by victories today in the semi-final heat over Maymeace, Wimping, respectively. Both were most exciting races rowed in almost record time and won only after a hard struggle near the finishing line in each instance. The race between Harvard and Wimping was rowed in the best time recorded at this year's regatta—seven minutes flat.

Democrats Visit Roosevelt Oyster Bay, N. Y., July 3.—It was learned tonight that following the visit to Colonel Roosevelt of Mayor Mitchell, of New York, other democratic leaders probably will come to Oyster Bay. Their identities were not disclosed, but it is said that they are democrats of prominence. Few developments since the colonial assumption of political activities have given rise to so much conjecture as his conferences, past and intended.

MAN JUMPED THIRTY FEET TO THE GROUND LAWRENCE TREWOLA HAD A NARROW ESCAPE GAVE FIRE ALARM

Neighbors Saw Man Falling From Window and Concluded It Was on Fire (From Sunday's Daily) Crazed by the effects of some whiskey he had obtained in town and probably suffering also from the effects of drugs, Lawrence Trewolla yesterday afternoon about 1 o'clock jumped from the second story window of C. TRAIL OF BLOOD CAUSES OFFICERS TO HOLD WOMAN Mrs. Helen Angle Not Allowed Bail After She Refuses Statement

Stamford, Conn., July 3.—Because experts testimony showed that a trail of human blood ran from the lower hall of the building up two flights of stairs and into her apartments and because she would make no statement, Mrs. Helen M. Angle was held without bail late today by order of Coroner John J. Phelan, who is investigating the death of Waldo R. Ballou, on the night of June 23. Mrs. Angle had been at liberty under a \$5,000 bond, given by her father. Ballou was found dying on the sidewalk in front of the building where Mrs. Angle lived. She told the police he fell down a flight of stairs while under the influence of liquor. Mrs. Angle was taken into custody after she had been given a private hearing in the office of the chief of police at which she refused to make a statement. She collapsed when she realized she had to go to a cell. Chief of Police Brennan, the first witness at the inquiry, amplified testimony previously given, in which he had quoted what Mrs. Angle had said regarding a white shirt found in a bureau drawer. The chief said he had shown the shirt to Mrs. Angle, saying: "Nellie, what does this mean?" "She replied: 'Bill, for God's sake, don't show that up,' Brennan replied, he testified, 'I won't unless I am obliged to.' The chief identified a pair of spectacles found in a box with other articles on the veranda. A physician said he found a spot of blood on the spectacles. He also described stains, which showed traces of blood intesta made. These stains, were on the lower landing, up both flights of stairs and in Mrs. Angle's room. Three bloody footprints were found on the stairs. There was a stain near the leg of a piano, another under an ironing board and still another on a mat near Mrs. Angle's bed. Tests of other stains have not yet been completed.

CHOICE OF 250 FARMS 50 to 500 Acres, \$10 to \$50 per Acre. Come and see. Write for folder. WESTERN CAROLINA REALTY CO., McCormick, S. C.

NOTICE DEMOCRATS. On July 28th, 1914 the club rolls will close. After that date no name shall be enrolled. All democrats are urged to enroll at their nearest club without delay. If any qualified voter fails to enroll he can blame only himself. Write your full name on the club roll and do it now. All clubs except Cox mill, Grove School and Slabtown have sent in the names of their enrollment committee. These clubs are urged to send them in without delay. The secretaries of all the clubs will send in the club rolls between the 28th of July and August 1st, and the executive committee from each club is requested to see that this rule is complied with. The time for filing pledges and paying assessment of candidates expires on August 7th, at 12 o'clock sharp. The pledge is to be filed with the secretary and the assessment paid to him.

NOTICE NOTICE is hereby given that a meeting of the stockholders of the R. W. Tribble Company is called at the office of R. W. Tribble at Anderson, S. C., on the 25th day of July, 1914 at 10 o'clock A. M. for the purpose of considering a resolution of the Directors to liquidate and wind up the affairs and dissolve the corporation. R. W. TRIBBLE, Pres. J. LEE VALENTINE, Sec.

HEAD-ON COLLISION Passenger Engineer Killed in the Haystack Yards. Columbus, July 3.—J. M. Eastorby, of Blackburg, engineer on the early morning passenger train between Columbus and Marion, N. C., was killed early today in the Haystack yards, miles out of this city, when his engine collided with a freight engine. He was pinned in the cab and was scalded to death. He was 34 years old and is survived by his wife.

When You Come to Town Just stop in this store for Good Merchandise at Bargain Prices

You'll find the sort of goods you want, a little better than usually offered at the price. We want you to visit our Millinery Department for that extra hat, you can get one for your own price most. Oxfords At extra special prices too.

Moore-Wilson Company

Atlanta, Ga., July 3.—W. S. West, United States senator from Georgia, today was elected chairman of the State Democratic executive committee at a meeting here. Senator West succeeds William J. Harris, appointed director of the census by President Wilson. Mr. Harris resigned the State chairmanship on account of his candidacy for the Democratic nomination for governor of Georgia. Douglas, of Greensboro, was nominated for congress from the Fifth North Carolina district here this afternoon by the progressive party. An effort to defer the nomination of a candidate pending the outcome of a movement on the part of some of the leaders of the republican and progressive parties for an amalgamation of the two parties, met with defeat on the floor of the convention. Mr. Douglas is a grandson of Stephen A. Douglas, democratic candidate for the presidency in 1860.
