SHAKE-UP COMING IN LOCAL POLICE FORCE

SAID THAT SAMMONS SUCCEEDS LEE

A NEW CITY CLERK

Speculation Heard Over How Many Members of Police Will Lose Positions

(From Wednesday's Daily.)

It has been rumored for several days that a number of changes in the personnel of city officials is contemplated. The city council last night had no opportunity to elect and as it had been announced that the meeting to elect would be held this morning it was considered improper for the applicants to go ahead with the selection.

The city clerk, Mr. J. H. Godfrey, having become mayor, this important position will be filled. It is understood that the present capable assistant clerk, Mr. E. M. Scott, will be promoted to the position of clerk and that he will have no assistant as Mayor Godfrey will give some of his time to assisting in the clerical work.

The impression is that the council will make a change in the head of the police department and that Chief W. C. Lee will be succeeded by Sergeant J. W. Simmons. Mr. Simmons has made no effort to get the place, but was considered on his merit and will no doubt be selected.

There will hardly be any change in the fire department, at least none in the person of the chief, for in Chief W. L. Jackson all of the citizens of Anderson have the greatest confidence.

It is also stated that Capt. G. Cullen Sullivan is slated for the position of city attorney. He is too well known in Anderson for any introduction. Mr. John K. Hood, has been the city attorney for several years.

Some other changes will probably be made, but those of chief of police and city clerk are the ones in which there is the most interest. It was stated some days ago that Dr. J. C. Mitchell, meat inspector, would be succeeded by Dr. John Major, upon the recommendation of the board of health.

John Sammons, who will probably become chief of police on the 1st of September, is a native of Greenville county, but has lived in this county for 25 years. He has been a member of the force for five years, and in that time has shown energy, courage and determination and at the same time tact, and other qualifications. It is rumored that several of the private officers on the force are slated to go to make room for others.

SAVING PEACHES FOR STATE FAIR

Several Crates Have Been Sent To Columbia to be Placed In Storage Until October

Probably the prettiest peaches ever raised in Anderson county left this city yesterday by express for Columbia. These peaches will be placed in the cold storage plant of Armour & Company, in Columbia, and there they will be brought out and exhibited at the South Carolina State Fair in the exhibition contests. Anderson folks are confident that these peaches will win one of the first prizes. They were raised by Joe Dehlt and are of the Elberta variety. The fruit was seen yesterday by dozens of Anderson people and without exception they pronounced them perfect.

Talking of the peaches, J. W. Rothrock, county demonstration agent, said that three or four other shipments have preceded this one and they are already in cold storage. Mr. Rothrock remarked that it was worthy of note that the trees on which these peaches grew were sprayed both before and after blooming and the fact that the specimens were so fine might be due to this treatment.

POOR RICHARDS IS IN A CORNER

The Terrible Bleasite Candidates Can't Tell How He Voted in 1912.

Special to the Intelligencer.

Union, August 11.—John G. Richards, made famous by the title "coat-tail swinger," in the state campaign, took the defensive today for the first time. At the meeting here today he refused to state for whom he voted in 1912. The question was put squarely to him by W. C. Irby, Jr., long time friend and supporter of Gov. Bleasie. Richards did not answer Irby's question. He declared that he had never committed himself on the race. Irby told the voters that he had it on good authority that Richards voted for Judge Jones in the 1912 campaign.

There were more than 1,000 voters in attendance upon the meeting today. Lowndes J. Browning was given an ovation by the voters, this being his home county. Mr. Browning was presented with a silver loving cup.

The crowd was noisy today and an attempt was made to heckle several anti-Bleasie candidates. The speakers changed little from the regular paths at the meeting.

NEW DEPARTMENT HARD AT WORK

Bureau of Markets of National Government Recently Established After Material

That all of the office holders of the United States are not sleeping on their jobs is shown by a request which J. W. Rothrock, farm demonstration agent, has just received. The request asks information concerning the cotton storing capacity of Anderson county and comes from Director Brant, of the Bureau of Markets, United States government. This bureau was but recently established and Mr. Brant is already getting in some good work. This will be of more than ordinary interest to American people because Mr. Brant is well known in Anderson, having made trips from Washington to this county.

The complete storing capacity of Anderson county for cotton, including the 16 mills, the Farmers' Union and the Regular or Standard Warehouse, is 101,200 bales and this information has been forwarded to Washington by Mr. Rothrock.

FINANCING THE COTTON CROP

Storing of Millions of Bales and Approximate Cost is Discussed

(By Associated Press.)

Washington, Aug. 11.—How to finance the storing of three or four million bales of cotton to be held for next year's market, because of the closing of the cotton markets of Europe, by war, was taken up at hearings today before the public agricultural committee. Cotton growers, dealers and bankers of the South began presentation of their views on the situation.

While the house committee was listening to statements of the cotton man, Southern senators were conferring on further means of relieving threatened financial stringency in the South.

E. D. Smith's Proposition.—As a result of their deliberations amendments to the Aldrich-Vreeland section of the currency laws were introduced to increase from 30 per cent to 75 per cent the amount of currency that may be issued on commercial paper upon which 75 per cent of currency may be issued, and to assure state banks joining the reserve associations, of participation in emergency currency distribution. The amendments were referred to the banking committee for early consideration.

TALE OF A DOLLAR BILL

Exchange. A farmer went to town to spend some of his hard-earned dough. And in a merry jest, and just to show his printing skill, He printed his initials on A brand new dollar bill. He spent the dollar that same day, Down in the village store. He thought 'twas gone for ever then And he'd see it no more. But long before the year rolled by One day he went to fill A neighbor's order, and received That same one dollar bill. Once more he spent that dollar bill In his own neighborhood. Where it would do himself and friends The most amount of good. Four times in two years it came back, As some had pennies will, And each time he'd go out and spend This marked one dollar bill. Had he been wise that dollar might Be in town today. But just two years ago He sent it far away. The people who received it then I know have got it still. For 'twas to a mail-order house He sent his dollar bill. No more will that marked dollar Come into the farmers' hands, And no more will it help to pay The taxes on his lands. He put it where it never can Its work of life fulfill; He brought about the living death Of that one dollar bill.

SCHOOL PUPILS GATHER TODAY

Over 1,000 People Expected to Be Present at Bishop's Branch Reunion

Former pupils, both old and young of the Bishop's Branch school will gather today for the annual reunion. It is estimated that all told there will be about 1,000 people in attendance, counting the friends of the former pupils of this institution.

The Bishop's Branch school is about six miles from Pendleton and the name is familiar to almost every one in Anderson county. From this school has come students, after student, with all the education that was available in "ye olden days" and many of Anderson's most progressive citizens learned the A B C's at this institution.

One of the principal events of the program for today will be a spelling bee, participated in by some 40 or 50 pupils of a former day and the Blue Back speller will be seen in action again today for the first time in many years.

It was said last night that the attendance from the city of Anderson will be large and several of the business men are contemplating taking their families for the day's outing.

Voter Did Not Try to Heckle Candidates — Good Order Featured Meeting

(From Wednesday's Daily.)

The second day of the Anderson county campaign was featured yesterday by splendid behavior on the part of the audience at Iva. The voters gave every candidate a respectful hearing and there was no attempt made toward heckling any of the candidates or in any other way was there any effort made to disturb the office seekers of the crowd.

The meeting was called to order at Iva at 10:20 o'clock and for four hours the candidates told the people of that community about why the country is to immediately go to the wall if they are not selected to turn the handle of the county government machinery. The meeting was adjourned at 2:20 o'clock.

Practically all of the candidates were in attendance and there was little departure from the general outline of the Honora Path meeting, which was the first of the campaign. The time allowed the candidates for the House of Representatives to speak was increased from five minutes to seven minutes but a number of these did not take up all the time allotted. None of the candidates departed from the platform outlined by them Saturday and practically the same speeches were delivered.

Frequently some favorite candidate was loudly cheered but nothing approaching disorder was seen throughout the day.

FARMERS OWE IT TO THEMSELVES

To Attend the Institutes and Hear Trained Men Discuss Some Interesting Questions

Clemson college will send out a number of trained men to talk to the farmers through the remainder of the summer. There will be three farmers' institutes held in this county, and there will be good wholesome instruction at each and every one.

On the 15th there will be an institute at Three and Twenty School House; on the 26th in the city of Anderson in connection with the Trades Day for August and on the 27th at Long Branch. The speakers will be W. W. Long, farm demonstrator for the state of South Carolina; W. H. Barton, who will talk on the subject of vetch; A. F. Conradi, who will discuss insects; and C. C. Newman, who will talk of horticulture. Prof. H. W. Barre, the entomologist, may also be with the party.

W. W. Long, the state demonstration agent, has written The Intelligencer as follows with reference to the meetings in this county:

We realize that the many campaign meetings which are being held in the state are taking up much of the farmers' time and we think it only right that the farmers should attend all of their campaign meetings. At the same time, we would direct the attention of your readers to the fact that the farmers' institutes which are soon to be held in your county must also have their attendance, no matter how many other meetings they may have had to go to before.

Clemson college has gone to much labor and expense to send out these institute parties. Never in the history of the college have such competent and mature men been sent to the farmers. Everything that they will say has been carefully worked out and designed with the view of giving the most practical help to the farmers of South Carolina.

I believe that the farmers of the state owe it to themselves to attend these institute meetings. One of these meetings has frequently been worth hundreds of dollars to a farmer who attended them. The time is especially opportune for the farmers and the agricultural experts of the state to get together and talk with each other, since the boll weevil is fast approaching and we must learn how to meet him.

Please publish this letter in order that your farmer readers may be reminded of the importance of the institutes in his county. I wish every farmer who reads this would consider himself personally invited and would also invite his neighbors to attend the meeting nearest to them. The meetings are for the farmers. Let the farmers be for the meetings.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

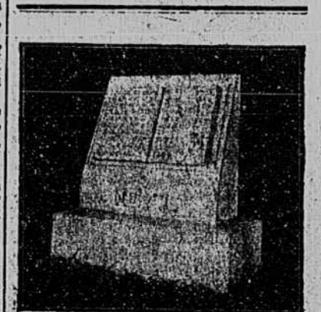

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Stomach Remedy is now sold here by
