QUITE AN INCREASE IN POSTAL BUSINESS

Since "figures don't lie" it is taken as conclusive proof that Anderson must be growing by leaps and bounds, since the figures furnished yesterday at the Anderson postoffice showed that both sales and money orders were increasing every day. According to postal officials the figures have been more than satisfactory, since they show a decided increase over each of the last two years.

It is seen from the report obtained that during the year 1912 from January 1 to December 31, the sales amounted to \$31,033.04 and during the year 1913 from January 1 to December 31, the entire sales amounted to \$34,212.08 an increase of \$3,179.04 or 10 per cent during the past 12 months. This is very encouraging to those in the postoffice. Miss Eunice Bessy, assistant to the postmaster, said that there had been quite a decided increase in the money order department during the last year, both in the money received and in money issued. During the year 1913 the Anderson postoffice issued \$75,181.28, a gain of \$8,932.96 over the figures for the preceding year. The money order department paid out during this year for money orders cashed at the local office, \$48,193.31, an increase of \$5,025.32 over the year of 1912. Miss Russell said that this record was all that could be expected of her department for the last year and that she was highly pleased with the splendid showing made by her figures.
