NEW INDUSTRY WILL SOON BE LAUNCHED

APPLICATION IS MADE FOR A CHARTER

PYRENE COMPANY

New Concern Will Sell Fire Extinguishers to Retail and Wholesale Trade of State

The latest business undertaking for Anderson is the Pyrene Company of South Carolina, applications for charter for this company having been forwarded to the secretary of state last night.

The new company will have their South Carolina office in Anderson and will be a branch office of the Pyrene Manufacturing Company of New York.

Petitioners for the Anderson company are: M. M. Mattison, C. C. Dargan, J. S. Fowler, C. E. Tribble and A. L. Smethers. The capital stock of the company will be \$20,000.

The business will consist of selling the Pyrene fire extinguisher to the retail and wholesale trade of South Carolina and a traveling salesman, employed yesterday by the company, will take to the road as soon as the charter is given by the secretary of state, and will canvass the state selling this well known article.

The main business office of the new company will be located on Main street in the Cox Station store and for the present C. C. Dargan is in charge of the business details.

In discussing the company with a reporter for The Intelligencer last night Mr. Dargan said that many Anderson people are already familiar with what the Pyrene extinguisher can do. He said that last week Sam Anderson was able to save his automobile by reason of this extinguisher.

Mr. Anderson was several miles out in the country when his machine caught on fire and with the use of less than a teaspoonful of Pyrene extinguisher the fire was put out. It will be remembered that the fire which broke out in the chemical laboratories of Anderson college some weeks ago was easily extinguished by Pyrene.

Another potent argument for the use of the extinguisher is the fact that there is a 15 per cent reduction in the fire insurance rate on automobiles equipped with the extinguisher and there is likewise a reduction of 5 per cent on country residences where the extinguisher is used.

There are a number of Anderson mills already equipped with this splendid invention and many automobiles in Anderson county are today carrying them. It is hoped that in a few weeks the company may be able to place as many of these extinguishers in every county in the state as may be found in Anderson county.

Many of the foremost fire insurance companies of the United States have given their unqualified endorsement to the Pyrene extinguisher and say that it ranks with the best on the market today. A large number of fire departments of the largest cities in the United States carry the Pyrene extinguisher on their motor trucks for use in cases where the fire has not gained much headway before the arrival of the department.

All present indications are that the new company will prove to be one of the most successful undertakings Anderson has recently had the pleasure of seeing begin operations and local people will hope that the new concern may soon be numbered among the "big business" enterprises of the State.

Tango a Prizefighting Trainer.

Milwaukee, Wis., March 11.—Willie Ritchie, lightweight champion, will meet Ad Wolgast in a ten-round fight here tonight. Ritchie will get \$10,000 with the privilege of 40 per cent of the receipts. Wolgast says he is done with long fights and if he falls to whip Ritchie in their scheduled ten rounds he will be content to acknowledge the Californian as the legitimate lightweight champion. Ritchie has been training in Chicago and golf and dancing were taken regularly as part of the exercises. "An hour of toning equals ten rounds of boxing," says Ritchie, "and helps improve the footwork."

PICKLED FAMILY.

Has a Wife Same Drinking Rights As Spouse!

Atlanta, March 11.—Has a wife the same right to drink as a husband, and if the husband gets wobbly, is it the wife's lawful privilege to pickle herself in revenge?

If you can answer these two abstruse problems, you will be able to say who had the right of it in a family quarrel between Mr. and Mrs. W. P. Jackson of this city, which reached the police court stage this morning.

Jackson, in the crudely stated evidence of his wife, "came home drunk" last night after an outing with "two boys."

"So far, so good. If Mr. Jackson wanted to get buzzed occasionally, Mrs. Jackson had no objection. But when Jackson got home, he found that while he was out with the boys his wife had called in some of the 'girls' including her niece and two or three other lady friends of the family, and the ladies were hugely enjoying a dozen bottles of beer.

"You do it with your friends, and it is all right. So why shouldn't we have a little of the same kind of pleasure, dear husband," sweetly inquired Mrs. Jackson when her spouse henna in storn.

But Jackson couldn't see it that way, and threatened to chastise not only his wife, but the other female relatives present, whereat the niece grabbed pistol from a bureau drawer, and dared him to come on.

A noisy altercation followed, and the police arrived on the scene at midnight. This morning the recorder, after hearing the evidence, apparently took the view that the wife had at least as much right to drink as the husband and fined Jackson \$10.75.

SUNDAY SCHOOL INSTITUTE

Program of Meeting to be Held in Saluda Association

The annual meeting of the Sunday school institute of the Saluda association will be held with the New Prospect Baptist church Saturday and Sunday, March 28 and 29.

Sunday 10a. m.—Sunday school. 11—Sermon; Z. T. Cody, D. D., or W. E. Hawkins.

Committee—J. H. Thayer Ed. L. Kogley, R. H. Burriss.

CONFERENCE OF CHARITIES.

Meeting of Great Importance to be Held Next Month.

Greenwood, March 11.—Social welfare workers all over the south are counting the year 1914 as one of great importance to all their interests. The National Conference of Charities and Corrections is to come south this year and the city selected for their meeting place is Memphis, Tenn. The leading scientific pedagogists and charity workers of the country will take part in the program, including Jane Adams, Jacob Riis, Homer Folks, Julia Lathrop and others of equal ability.

The Southern Sociological congress will synchronize with the National Congress by arranging its meetings at the same time, May 3-12 at Memphis. There are many advantages to be had for all.

Southern philanthropists and social workers from this joint meeting of these two bodies.

Interest in such matters in South Carolina centers at present in the state conference to be held at Greenwood, March 24-28. The fifth annual conference to be held in Greenwood promises to be full of interest as well as profit.

Four guests from beyond the state borders will attend to counsel as specialists in their respective fields. Mr. Maurice Wilcox, associate secretary of the American Association of Societies for Organizing Charity of New York city, will address the conference on the subject of doing up-to-date charity work in the towns and smaller cities. Mr. Wilcox will also preside over and direct the session on the morning of March 25.

This entire session will be devoted to charity discussions.

The conference is also to have an address from Dr. O. Edward Janney of Baltimore, the well known author and physician. Dr. Janney is already known by reputation to many in this state, and has some personal friends, who, appreciating his culture and ability, have been desirous to have him attend the conference and deliver an address.

Mr. J. E. McCulloch, the secretary of the Southern Sociological Congress, Nashville, will deliver the opening address Tuesday evening, March 24. It will be recalled by many that Mr. McCulloch was collaborator with Gov. Ben Hooper of Tennessee in calling and establishing this congress three years ago. Mr. McCulloch will deliver the opening address at Greenwood upon the subject, "The Social Awakening in the New South."

The conference also announces an address from Miss Elanor Lewin of New York city, who will speak of her work as secretary of the Girls' Friendly Society in this country.

Many persons have already sent in their names for entertainment, and it looks as if the attendance will be large. Greenwood will open her hospitable doors to all who may come. The sessions of the conference will be held in the First Baptist church building.

straw as Fertilizer.

A large amount of straw is shipped from a county in Missouri to a nearby paper and strawboard factory. This straw brings the farmer about 50 cents per ton. A county agent recently found a pile of about 1,000 tons at Sikeston ready for shipment. He completes that as a fertilizer this straw is worth \$2.50 per ton in addition to its value as a means of adding organic matter to the soil.

He is making a campaign of the county in an attempt to show the advisability of the farmers selling their straw and urging its more extensive use as bedding in stables and feed lots.

Straw used as a top dressing on fall wheat has been found to practically insure a good stand of clover on lands where clover is otherwise grown with great difficulty.

"Ad" Men to Eat "Ad" Food.

New York, March 11.—The annual dinner of the Advertising Men's League of this city will be held on Thursday evening, and so far as possible will consist of nothing but nationally advertised foods. The speakers will include Edward Bok, editor of the Ladies' Home Journal and Alfred McCann, the famous pure food expert.

LOAN MATTER IS ALMOST SETTLED

Indications are That Trust Company Will Furnish The Needed \$30,000

Advices received in Anderson yesterday by J. S. Fowler, president of the Anderson theatre company, seem to indicate that the trust company in Echnold will agree to the loan of \$30,000 desired by the local people for the purpose of erecting the Anderson theatre and Mr. Fowler said yesterday that he was much encouraged over the outlook. He is of the opinion that the deal is now going through and that it will be possible to start the work on the theatre by May 1, as originally planned. Mr. Fowler said yesterday that he could not make any definite statement in the matter but that everything looked better to him than the project was first mentioned. He said that he believed that the trust company would come across with the desired loan and from that time on, everything would be plain sailing. This will be welcome news to Anderson people and many of them are already attending splendid productions nightly at the new theatre in their dreams.

THE ABBATOIR MATTER

Mr. Henderson Said that He Did Not Mean to Speak so Pointedly

Dr. J. C. Mitchell, city milk and meat inspector, in talking to a reporter for The Intelligencer said yesterday that he did not clearly understand just what was meant by Dr. Henderson's remarks before city council Tuesday night. Dr. Mitchell says that he devotes three days of the week to milk and meat inspection in the city. He says that he is conscientious at all times in his work and that the results of his labors will prove this. He says that he invites inspection of the work done here and will be glad to have any of the operations investigated at any time.

Following the publication of Mr. Henderson's remarks in the morning Intelligencer of yesterday, Dr. Mitchell at once went to Mayor Holleman, and demanded that there be full and complete investigation of the charges made by Mr. Henderson at Tuesday night's meeting.

He says that such an investigation will easily show that he has never slighted any of his duties in a single detail. Mayor Holleman will submit the matter to the board of health for an inquiry, probably.

Mr. Henderson, the proprietor of the abattoir, called at The Intelligencer office Wednesday to say that he had not meant his strictures with reference to Dr. Mitchell, to be as severe as he had expressed them before council. The abattoir has been regarded as a model and people have come here from many cities to see it, and the general public is somewhat at a loss to understand all of the hurra that has been raised recently.

Anderson's Schools.

Newberry Herald and News.

Anderson county has 26 rural graded schools with two teachers and some with more than two. These schools get state aid to the amount of more than \$6,000. Newberry has only six of these schools, and until last year did not have any. In fact this year is the first year the schools have been in actual operation. These six are entitled to \$1,200 state aid. There are several more districts that should be made rural graded schools. Any district that has an enrollment of 50 children and an average attendance of 30 should be made a rural graded school and have two teachers. The process is easy.

Statement of the Condition of the BANK OF ANDERSON

WHITE LIGHTS SOON TO BURN

Ladies Civic League Will Soon Install White Way Around The Plaza

A statement was made by Mr. Rufus Fant, president of the Ladies' Aid League of Anderson, yesterday afternoon, in which she said that the league will at once take up the work of placing the white way around the plaza. Mr. Fant said that all of the members of the League were very much pleased over the action of council in granting the proposition and that each of them felt like expressing hearty thanks to the body.

The president further said that the plans were already being considered and that within the next few days the work would actually be begun and would be rushed along as rapidly as possible. She said that the majority of members favored the five light cluster, instead of the three light cluster generally used, and that this would probably be the type installed here.
