

A. H. Dagnall May Enter Race Against Congressman Aiken

Might Complicate the Present Line-Up of Candidates—Admits Being Urged But Has No Comment to Make At Present

The political conditions in the third congressional district will likely assume a much different aspect in the next few days. It was stated yesterday that A. H. Dagnall of the Anderson bar is seriously considering entering the lists. Mr. Dagnall was asked by a statement by a representative of the Intelligencer and declined to say anything other than that his friends have advised him to run and that he is considering the matter very seriously.

Mr. Dagnall will enter the race, although nothing definite can be stated if he does it may be that some of the other candidates may drop out. For some time there have been rumors that Gov. Blease is not exactly satisfied with the manner in which Mr. Dagnall has been prosecuting his campaign for congress, and there have been rumors from time to time that Mr. Dagnall might be induced to run for governor, as the one most nearly representing the policies of the present administration. However, it may be that Mr. Dagnall's possible entry into the campaign would not alter his determination to run for governor.

making his home in Southwest Georgia.

T. C. Jackson and T. C., Jr., of Iva, were visitors to Anderson yesterday.

W. P. Cook of Iva was a business visitor to the city yesterday.

The Great White Way Now Seems Assured

George Miller, the Father of the White Ways in Other Cities, Submitted a Plan Which Seemed to Take With City Council

It seems that Anderson is to secure the finest "Great White Way" system yet constructed in any city of anything like this size in the country over. The action of the city council in special session at night, when the matter was brought into detail, brought out the every councilman present was a sponsor of a proposition there submitted by George E. Miller, a former Andersonian and the originator of the American municipal great white ways. This proposition carried with it the immediate installing in this city of the most modern and up-to-date great white way possible to be secured, and on terms apparently liberal and reasonable.

Mr. Miller put in the great white way in Jacksonville, Atlanta, Minneapolis and elsewhere, including the well known Baltimore system, said to be the largest and finest in the world. He is a white way expert, and proposes to erect in Anderson, throughout the entire business district, a continuous five-cloister, upright, ornamental great white way, connected with underground current, at a total estimated cost of about \$10,000. He will stand the entire cost of construction, maintenance and wiring, and erect same in accordance with the views of the city council, the same to be put in just as soon as the posts can be secured, and he asks only for a 10-years lighting contract with the city on the basis of \$35 per post.

City Market Is Planned By New Board Of Health

There is a splendid chance of Anderson's securing a City Market. It is the plan of the board of health to working successfully on a plan to get the city council to condemn the city stables and pens immediately in the rear of the city hall on South Main Street and to erect thereon a city market, with egress through to South Main street, and to remove the present stables to other property at present owned, or to be acquired by the city. The plan is understood to have the hearty sympathy of leading citizens, and the wholesale approval of the country people, many of whom have heretofore asked the Intelligencer to take this matter up.

Goldboro Cashier Placed Under Arrest

Charlotte, N. C., March 19.—H. C. Smith, alleged to have been short over \$75,000 in his accounts as cashier of the Goldboro Savings and Trust Company, and an employe of the National Bank of that city, was this afternoon arrested and placed under \$25,000 bond which he has so far failed to get signed, according to the special from Goldboro tonight.

RENTED WHOLE HOTEL

California Shriners Will Go Strong to Atlanta. Atlanta, March 19.—There will be no Kimball House in Atlanta when the National Shriners meet here in May! No, they are not going to blow it up with dynamite. Neither is the historic old forum of Georgia politics going to be destroyed by cyclones. But the big California delegation, which is coming here, several hundred strong and with its hair done in braid, has rented the whole hotel, lock stock and barrel for the entire week, and has obtained permission to pull down the Kimball House also, and to host in its stead in flaming electric letters the name, "Hotel California."

May Export Pulp Wood

Toronto, March 19.—A bill was introduced in the Ontario legislature by the Minister of Land to permit the export of pulp wood from the provincial crown lands for one year. Owing to a storm last year a large quantity of pulp wood is in danger of destruction by rot and other causes. It was felt that the matter for its disposal should be enlarged.

side of the curb, at a distance of 83 feet from each other, in a continuous longitudinal column. There will be a total of 108 posts, and each post will contain an upright cluster of five lights, making a grand total of 250 lights.

All posts will be of the Corinthian architecture, and of solid cast iron, of the latest pattern, similar to the posts used in Charlotte and Atlanta. Tungsten lamps only will be used, they being more brilliant than the others.

Most Complete System South. Mr. Miller stated to The Intelligencer reporter last night that the system proposed for this city will be the most complete in the entire South from the standpoint of covering the entire business district, and that the special display as arranged for the square will give a setting to the system unobtainable usually elsewhere.

Special Committee. On motion of Alderman Elmore, who is especially interested in the plan, a motion was made and carried at the meeting of council that a special committee of three, including the mayor, be appointed with power to act and to close a deal with Mr. Miller in the matter. The Mayor appointed Aldermen Farmer and Elmore to close the deal and take such action as they think best. It is understood that a meeting of this special committee will be held this afternoon at 3 o'clock at the city hall, when City Attorney Sullivan and the committee will get together with Mr. Miller.

Graduation Recital Anderson College

Mrs. R. E. Watkins of Columbia, Miss Kate Evelyn Robinson of Lowndes, N. C., and Miss Miriam Weeks of Aiken, students of the college, gave their graduating piano recital Monday night. All the solo numbers were given from memory, with ripened musicianly taste, accuracy of detail and artistic finish. Mrs. Watkins gave Beethoven's Sonata, Op. 28, Chopin's Etudes, Op. 25, No. 1, Zaneillo's Tempo di Minuetto and Bennett's Barcarolle from Fourth Concerto. Miss Robinson played Grigg's Sonata in E Minor, Fischer's "To Song and Dance," Debussy's Arabesque in E, and Schumann's Nocturne in E. Miss Weeks' numbers were Chopin's Sonata, Op. 85, Brahms' Ballade in D minor, Chopin's C Sharp, Minor Fantaisie and Fischer's Puck. The Mendelssohn Serenade, Op. 42 was taken by Mrs. Watkins, with Miss Barbara Richardson at the second piano, whilst Misses Robinson and Weeks were associated in the Schumann A Minor Concerto. These pupils were prepared by Dr. Charles R. Fisher, who returns to England to reside at the session's end.

LITTLE DAMAGE DONE BY FIRE

Small Blaze Occurred Yesterday Afternoon On Orr Street. The house of Q. L. Arnold on Orr street caught on fire yesterday afternoon about 3 o'clock, the fire originating from a defective flue. The fire department made a good run to the scene and with the use of chemicals, had little trouble in extinguishing it. Little damage was done, a portion of the roof being the only part of the house damaged. The loss will be small and it is understood that this is covered by insurance.

CENSUS BUREAU REPORT

Number Tons Cottonseed Crushed During Year 1912. Washington, March 19.—The census bureau today reported 4,783,355 tons of cottonseed had been crushed from the 1913 crop and 629.9 running bales of lint cotton had been obtained. These figures compare with 4,579,508 tons of seed crushed from
