BREAKING UP THE FARM LANDS WITH LATEST KIND OF TRACTOR

Remarkable advancement has been made in the last few years in agricultural machinery. It has been demonstrated that proper preparation of the soil is essential to the best yields, and quite recently there has been much done in the way of invention and improvement in the various kinds of machinery used for these purposes. In none of the inventions has, perhaps, gone so much for giving that depth of soil and the fitness of preparation as the development of the traction engine and the work it is being used to do.

That Anderson county farmers are abreast of the times and are keeping up with the march of scientific invention and progress is demonstrated clearly by the fact that the newest inventions are usually given a trial in Anderson county first. This fact has two contributing causes, one of them has been mentioned above, the progressiveness of the farmers, and another is that there are some most progressive dealers in agricultural implements in Anderson who are always looking forward to the newest and best inventions for their patrons. For instance the great increase in the amount of grain planted in this county may be traced largely to the introduction of the Cole grain drill, of which the Sullivan Hardware Company sold this year and last several car loads, which were used by our farmers in planting small grain between the rows of cotton.

Continuing to feel that this company is considering accepting an agency for the Emerson-Brantingham tractor plow made at Minneapolis, Minn., which plow embraces the latest in tractor plow construction. The first one ordered out was for Mr. John C. Pruitt, of Starr, and a demonstration of this engine is being made on Mr. Pruitt's farm this week. Mr. C. S. Sullivan, of the Sullivan Hardware Company, yesterday invited a number of gentlemen to accompany him to see this demonstration. They went, they saw, and returned, convinced that this is one of the mechanical marvels of the decade.

The plow was being used in an eight acre bottom which had been planted to corn last year and had not been broken. Although the ground was very hard, this plow went through it with ease, breaking it to a depth of a foot and leaving a smooth pulverized soil to that depth.

NEGRO CONFESSED HE DID THE SHOOTING

WILL GARRISON ADMITS HE FIRED SHOT

THE INQUEST HELD

Defendant Claims That He Shot Will Hall After the Dead Negro Had Made Attack

Coroner's inquest was empaneled in the court house yesterday morning to make investigation into the death of Will Hall, a negro, shot to death on People's Row Thursday night. Sheriff Ashley made the announcement that Will Garrison, a negro in the employ of J. S. Fowler, had admitted that he did the shooting and then the inquest began.

Nellis Frazier, a negro woman, testified that she was walking down an alley with Will Garrison when they met Will Hall, who was with her. She said that the Hall negro equaled Garrison as to who was with him and that Garrison called her name Hall and struck him in the face with his fist. She swore that she then ran and when she was about 35 feet away she heard a pistol shot. Her testimony was to the effect that Hall used no stick when he struck Garrison but merely hit him with his fist.

Testimony offered by D. M. Williams, another negro, corroborated that of the Frazier woman, in that he swore he saw the woman leaving the men before any shots were fired.

Dr. J. H. Pruitt was sworn and testified that he found one bullet wound in the negro's left arm about three inches below the shoulder joint, which shattered the bone. He found another bullet wound in the left side, about the fourth rib and testified that he pulled out through the left lung at the junction of the heart and artery, went on through the right lung, through the lower edge of the fifth rib on the right side and lodged in the stomach. This shot, according to the physician's testimony, caused death.

The negro in jail had told J. H. Pruitt Thursday night of the shooting and yesterday morning Mr. Fowler brought him to the city and turned him over to the police. The negro claims that he and the dead man had always been good friends and had never had any trouble of any kind. He claims that he was walking down the alley together when they met Will Hall and that Hall attacked him with a stick. He says that he backed away from the negro until he had been twice struck with the stick and then he fired his pistol into the

ATTOENEY GENERAL RENDERS OPINION

ANDERSON COUNTY ADVISED ON LIQUOR QUESTION

ELECTION COMING

Fred H. Dominick Cites Anderson County Authorities To the Law on the Subject

In reply to a letter from J. S. Acker, clerk to the Anderson county board of commissioners, Fred H. Dominick has written to Anderson authorities, giving an opinion on the liquor election for this county. The letter says that the election can be ordered, according to Mr. Dominick's construction of the law.

Some time ago a petition was presented Supervisor Mack King, praying that an election be held in this county to determine whether or not liquor should be sold here. When the petition was presented Mr. King asked Clerk Acker to look up the law on the subject and then Mr. Acker found that the code of 1912 contained the words "shall continue the sale of liquor." Local folks believed that this would apply only to those counties already selling liquor and they accordingly asked the clerk to get more light on the subject.

The letter received from Mr. Dominick yesterday is presented below, together with a letter written to the officials of Newberry county by Attorney General Peoples on the same subject some time ago: "May 14, 1914. Mr. J. S. Acker, Clerk, County Board of Commissioners, Anderson, S. C. Dear Sir:

I am in receipt of yours of the 7th inst. in reference to the proposed election on the question of "Dispensary" or "No Dispensary" in Anderson County, asking for a construction of Section 881 of the Code of 1912.

enclosing you copy of an opinion rendered by the Attorney General on the 26th day of March, 1914 to the County Board of Commissioners, Newberry County, S. C. In reference to this liquor question, as I understand it, Anderson County occupies a similar position to Newberry County as far as the liquor question and liquor election is concerned.

"The language of Section 881, referred to is doubtful and contains language that would ordinarily convey the impression that the law as codified would not allow an election except in wet counties. From a reading of the opinion which is enclosed and a study of the Acts of 1907 and 1909, it will be clearly seen that there is nothing in the law to warrant the language used in the Code of 1912. This language being doubtful, as it is, we must refer to the original Act to find out what the law is on the subject, and by reference to the Act it is clear to my mind that the law is that an election may be held upon the filing of the proper petition.

"Trusting that this covers your inquiry, and with kindest personal regards, I am, Yours very truly, Fred H. Dominick, Assistant Attorney General, Newberry, S. C. March 26, 1914.

"Mr. J. H. Crappell, County Supervisor, Newberry, S. C. Dear Sir:

I am in receipt of your request for an opinion as to whether an election on dispensary question may be held in Newberry County during the year 1914.

"Section 2 of the Act of 1907, page 424, provides that the question whether liquor and beverages may be sold in any County in this State shall be determined at a special election to be held in each county on the first Tuesday following the first Monday of November of any year in which a general election for State and County officers is appointed by law to be held, such election to be ordered by the County Supervisor upon there being filed with him before the first day of May of each year a petition in writing praying for such election, signed by one-fourth of the qualified electors of such County.

"After the Act of 1907, just referred to, and by an Act approved the 2nd day of March, 1909, page 29, Acts of 1909, the sale of liquor was prohibited in all of the counties of the State and it was provided that in the Counties then having dispensaries an election should be held on the 3rd Tuesday in August, 1909, upon the

question of "dispensary" or "no dispensary" and existing or previous laws and have no dispensary at this time, shall have a right at any time after the expiration of four years after the last election on the liquor question to hold an election upon the question of "dispensary" or "no dispensary" as provided in the Act approved the 16th day of February, 1907.

"The next Act on the dispensary question is the Act of 1912, page 745, which provides for elections on the liquor question in certain Counties petitioning therefor. This Act, however, does not change in the slightest particular the terms of the Acts of 1907 and 1909 in so far as Counties occupying the same position as Newberry in reference to the sale of whisky.

"I understand that prohibition was voted in Newberry County more than four years since, and before the passage of the Act of 1909. I am of the opinion that under the Acts of 1907 and 1909 an election on the liquor question can be held in Newberry County during the year 1914 on the same date as the general election, upon the filing of proper petition, containing one-fourth of the qualified electors of the County, with the County Supervisor, before the 1st day of May, 1914.

(Signed) Thos. H. Peoples, Attorney General.

However, it would seem that the opinion of the attorney general in a matter relative to the taxes for Anderson county is in variance with the opinion that he has rendered in the whisky matter. When it was found here last summer that the code called for \$200 to be collected in this county for road taxes, the county treasurer wrote to Columbia and asked that an opinion be forwarded on the wording of the code in this matter. At that time Fred H. Dominick, assistant attorney general, wrote here as follows: "July 18, 1913.

County Treasurer, Mr. C. W. McGehee, Anderson, S. C. Dear Sir:

This office is in receipt of yours of the 13th inst. in regard to the amount of commutation tax in Anderson County, and in which you ask whether the amount is \$1.00 or \$2.00. As stated in your letter the Code of 1912 fixes it at \$2.00. How this happened

to be fixed at that amount I do not know because the last legislation in this matter in so far as it affected the Anderson County is contained in the Acts of 1908 at page 159. The Code, both under the Constitution and by Statute, is declared to be the only statutory law, and in my opinion overrides the Act of 1909, so that under the present law the commutation tax for Anderson County is \$2.00.

" Hoping that this gives you the desired information, and with kindest personal regards, I am, Yours very truly, Fred H. Dominick, Assistant Attorney General."

THE CLEMSON TEAM THIS AFTERNOON

Anderson Textile School Will Be Entertained By Authorities of Clemson College

With almost all the automobiles necessary to make the trip already provided, Mr. Burnett of the S. C. S. A. said last night that the textile school of this city would have a big outing at Clemson college today. It is planned to leave Anderson this afternoon at 1:30 o'clock and returning the start will be made from Clemson about 5 o'clock, reaching this city shortly after 9. All plans have been completed and if Mr. Burnett can secure one or two more automobiles today nothing will remain to be done and the textile class will have one of the biggest days of its members ever enjoyed.

The classes will go to Clemson college as guests of the institution and after inspecting the textile plant of the college, the visitors will see the baseball game between Clemson and Auburn. Following that event the class will be the guests of the college at tea and then the return trip to Anderson will be begun.

Mr. Burnett appreciates the kindness of the Clemson authorities in having his class spend an afternoon at Clemson and every man of the class is appreciative. It will be a fine afternoon and the people of Anderson will rejoice over the fact that so many of the mill workers are to have an outing.

Declaring that collars are expensive, artistic and unalike, Latta Quarter art students in Latta have formed an anti-collar league. They have pledged themselves to give up all neckwear.
