REBATING WOULD FOLLOW At first glance the declaration of Commissioner McMaster seems to be sound and patriotic.

THE WEATHER Washington, Sept. 11.—Forecast: South Carolina: Showers Saturday; Sunday partly cloudy and warmer.

THOUGHT FOR THE DAY When a bit of sunshine hits ye After passin' of a cloud When a fit of laughter gits ye An' yer spine's a feelin' proud;

THE COTTON SITUATION (Continued) Cotton may be troublesome but it will not spoil and more nearly approaches an indestructible article for legal tender than anything else except the precious metals.

THE PUBLIC LIBRARY (Continued) The action of the city council in declining to make an appropriation for the public library was variously discussed yesterday.

FOREIGN FIRMS (Continued) Since the war scare arose in Europe and the financial outlook for foreign countries became so gloomy, a number of Anderson people have become somewhat concerned over the question of whether or not insurance companies and agents should not accept cotton on a ten cent basis in payment of premiums on insurance.

QUICK RETURNS (Continued) According to J. O. Williams, livestock demonstrator for Clemson College and the United States department of agriculture, the way for the farmers of South Carolina to overcome the present financial stringency is by raising more hogs.

FOR CODE COMMISSIONER (Continued) The duties of code commissioner are just such as Mr. Cooley is qualified for. The commissioner takes the acts passed by the general assembly and prepares them for publication in book form.

THE WEATHER (Continued) The German army has had a spray of Paris green.

THOUGHT FOR THE DAY (Continued) There is no recall with reference to railroad commissioners.

THE COTTON SITUATION (Continued) Therefore, we say again, the South must solve her own problems and we must not waste any more time.

THE PUBLIC LIBRARY (Continued) Upon completion of the library building it was ascertained that the cost of same was approximately \$1,200 more, making 18,700.

FOREIGN FIRMS (Continued) Mr. Williams has mailed out hundreds of letters within the past week touching on this subject, a copy of which follows.

FOR CODE COMMISSIONER (Continued) This is a particular and exacting work and a trained and educated attorney, as well as a person of literary tastes, for frequently the misplacing of a comma might mean the changing of a law.

THE WEATHER (Continued) Col. E. J. Watson made an exhaustive address on cotton in Greenwood yesterday.

THOUGHT FOR THE DAY (Continued) If the South quits raising cotton, the boll weevil will say that war is that Sherman thing.

THE COTTON SITUATION (Continued) The only way congress seems disposed to aid the South is in the matter of making the currency more elastic, or more liberal.

THE PUBLIC LIBRARY (Continued) The Intelligencer is informed by Mrs. Rufus Fant, president, that the civic association has not taken any position on this matter.

FOREIGN FIRMS (Continued) "Dear Sir: Please let me know if you consider fire insurance written in an English company safe.

There Are Several Stores in Anderson So Good That They Could Use Double Their Advertising Space and Make It Pay!

The Better the Store Service, the Better the Advertising Pays. The Poorer the Store Service—the Less Said about it the Better. Publicity is Good for any Good Proposition, and just as surely Bad for a Bad one.

One of the most important phases of a Good Store service to the public is its Store News. This should be complete in detail, absolutely honest and frank in all its statements, and told in as interesting manner as possible. Tell your patrons in detail, about every selling event, every bargain offered, about styles, and new goods arriving.
