SECURED MORE MONEY FOR COUNTY SCHOOLS

FELTON BACK FROM TRIP TO COLUMBIA IS WELL PLEASSED

Says That Amount Coming To Anderson for State Funds May Exceed Any Other County

Anderson county boasts of better rural schools than any other county in the State and proof of the fact that the schools in this county are slightly superior to those of any other section of the state is contained in the announcement that the schools of Anderson county will receive over \$3,000 from the general fund passed by the last general assembly for the aid of the weak schools. This is probably a larger amount than any other county in the state will get.

J. B. Felton, county superintendent of education went to Columbia on Thursday morning to confer with J. B. Swearingen, state superintendent of education, in regard to this money, and as a result of Mr. Felton's trip he secured a definite promise from Mr. Swearingen that a check would be mailed next week for \$3,304 to be distributed among the schools of Anderson. Mr. Felton returned yesterday at noon and he was highly pleased over the success of his trip.

The general assembly of South Carolina appropriated the sum of \$40,000 for a "weak school fund" and the entire amount was placed in Mr. Swearingen's hands to be used as he saw fit. A portion of the money has already been expended in adding the schools in different sections of the state.

When asked yesterday as to what disposition would be made of Anderson's money, Mr. Felton said that part of it would be repainting school houses, some new furniture will be bought for the schools badly in need of equipment, some of it will be used in helping the needy schools to employ teachers, while a small portion of it will go to the schools in the towns. It is understood that \$300 of the sum will go to the city schools of Anderson, \$100 of this being for the inauguration of a department of domestic science of the city school and \$200 being for the Glenn street school, which was burned last May and rebuilt during the summer. Small sums will also go to Bliton, Honea Path, Feltzer, Piedmont and Gluck Mills, while the remainder and the largest portion of the \$3,000 will be turned over to the county schools.

In discussing the matter yesterday Mr. Felton said that the Anderson county delegation to the general assembly should be willing to lend its every effort toward securing large appropriations when Anderson receives such a liberal share of the funds.

Cotton goes up Flour Comes Down Makes every man happy In this "My Town."

New "Snow Drift" flour, ground from soft winter wheat just arrived. If you are dissatisfied with the flour you are now using, try one sack of "Snow Drift" and be convinced that we are selling the best patent flour on earth for the price—48 pounds for \$1.50.

Don't fail to include in your next order a half dozen "Lookout" cakes. Six different varieties.

ANDERSON CASH GROCERY

GRAIN ELEVATOR WILL BE ERECTED

SHAPING PLAN TO LAUNCH SUCH AN UNDERTAKING IN ANDERSON

TO FORM COMPANY

All Present Indications Are That Anderson Farmers Will Lend Every Possible Assistance

If present plans do not miscarry the farmers of Anderson county will have a chance to pass upon a matter of vital importance to them when they meet here next Saturday. It is understood that a proposition will be made them at that time to build a grain elevator in Anderson and to have the plant in operation by the next grain harvest.

"I believe that one of the best things Anderson county could do just at this time would be to organize a company of farmers to build in Anderson a model grain elevator, to be operated, financed and maintained by people in sympathy with the farmers, and to be controlled by the farmers," said B. O. Evans, chairman of the Trade Extension Committee of the chamber of commerce yesterday, while discussing farming matters with other members of his committee.

Further discussing the matter Mr. Evans said that with the tremendous amount of grain now being planted in Anderson county, something would have to be done to handle the enormous crop, and he favors the construction of permanent grain elevator in Anderson. Mr. Evans says that if the same is not done the farmers of Anderson will miss a splendid opportunity to control the grain crops, not alone of Anderson county, but of adjoining counties as well. He also pointed to the fact that the construction of a grain elevator here would mean that the farmers of Anderson would have two money crops instead of one as is now the case. The first crop would come in July and then the farmer would again have ready money in October and November when the cotton movement began. Such a plan, would necessarily be of immense benefit to the farmer himself in financing his business and also of incalculable benefit to the business interests of the Piedmont section.

It was pointed out that before a feasible plan can be outlined to agitate the construction of silos in the Piedmont District, as a necessary adjunct to the development of the livestock industry of this part of the country, it will first be necessary to have a grain elevator for the distribution of grain and seed to the farmers.

It was learned yesterday that Mr. Hennegack, of Lynchburg, Va., southern sales manager for the firm of Nordyke & Marmon of Indianapolis, Ind., will come to Anderson one day next week with plans for putting up a small elevator in Anderson on a basis of 12 1-2 to 15 cents per bushel capacity. This elevator would be of frame and metal construction and it is estimated that the place here should have a gross capacity of 40,000 bushels. However, this is meant that there should be at least 40,000 bushels in the elevator at any one time, while in the busiest season of the year the elevator could accommodate about one-half million bushels.

It was said yesterday that at the livestock meeting which it is to be held here on September 30, plans will be submitted by a committee of farmers to organize a company in Anderson to build the plant here. This committee refused to divulge its plans yesterday and would not give out any information but it is understood that the plan is a simple one and if carried out will not put the burden of the undertaking on any one man or set of men but will have it distributed among a large number of farmers. There has been much talk about a grain elevator for Anderson and many have believed that it was merely for the purpose of helping to bolster up the farmers' growing spirits, but it would now appear that such a venture is not only possible for Anderson but in fact it is highly probable and it is believed that the farmers will take to the proposition when they hear it stated next Saturday.

CAKE SALE TODAY

Ph. sea class Will Offer Many Delicacies Today.

The Senior Philathea class of the First Presbyterian church is expecting that the sale which they will conduct today in the vacant store room on the square will be a great success. Members of the class said yesterday that they had many delicacies in the way of many work to offer and that the cakes to be sold are delicious.

MUSIC WILL BE A GOOD FEATURE

John M. Davis Has Closed Contract For Bands and Is After a Judge

Arrangements were closed in Anderson yesterday by John M. Davis, chairman of the committee in charge of the livestock exhibit which is to be held here on September 30 for the bands to furnish music here during the exhibit. Mr. Davis succeeded in closing a contract with the well known Jolly band of Pendleton and the cadet band of Clemson and both these bands will be in the city Saturday to do their best.

Manager Jolly told a reporter for The Intelligencer that his band will be increased by several pieces for the one day in Anderson and he says that his band is now hard at work on several patriotic selections which they are learning especially for this one day.

Mr. Davis also will select a race course in North Anderson and either today or Monday he and John Linley will take up this important question and make a visit to the grounds in order to select the most suitable stretch for the races.

The chairman has closed a contract which will bring to Anderson one of the best horsemen in the country to act as judge. He has made a specialty of judging horseflesh for a number of years and the people behind the local stock show feel that they were fortunate in being able to secure him for this event.

VARIOUS CLASSES IN THE POULTRY EXHIBIT

GAME CHICKENS MAY BE SHOWN

PLANS UNDERWAY

A. N. Campbell Working Out Details for Coming Exhibit and Says Prospects Are Good

The most interesting fact in connection with the plans of those interested in the poultry exhibit which is being planned for Anderson, is the request made by several game chicken fanciers that they be allowed to exhibit a few of the better known strains at the coming show. It is said that Anderson boasts of some splendid game chickens, among these being Allen's Yellow Leaked Roundheads, Meane Red Cubans, Heater's Warhorses, Mugwumps, Blue Devils, Grist Griddles, and other noted strains. While it is not known that this will be permitted, even though a show is held here, it is believed that such a step will be taken and the game chicken men given a chance to show what they have.

A. N. Campbell, the well known Belton poultryman, when seen yesterday at the Anderson chamber of commerce by a reporter for The Intelligencer said that he was preparing data for the proposed Anderson County Poultry Association which will be officially organized next Saturday. Mr. Campbell said that he already had a number of plans mapped out for the show and he will ask the organization to adopt them.

Mr. Campbell's idea is that it will be better to hold the show about November 15 when the chickens have moulted and the chicks have feathered so that all the fowls will make a better appearance.

Mr. Campbell also favors securing the services of an expert judge who will grade all the chickens and who will conduct this feature of the show with system. He has several good men in mind and other members of the association will probably have suggestions to make in regard to the man to be picked for this important feature.

It is said that a number of those interested in the proposition favor allowing standard breeds of pigeons to be exhibited and it is said that turkeys, geese, ducks and peacocks will also be allowed. However, all these matters will be determined by the association after the formal organization takes place next Saturday.

Mr. Campbell is enthusiastic over the prospects and says that the show will be a success from the very first one held. He favors making the organization a permanent one with headquarters in Anderson.

PROF. T. C. WATSON BREATHED HIS LAST

ANDERSON HAS LOST A GOOD CITIZEN

A LONG ILLNESS

Formerly President of College in Kentucky and Superintendent of Schols Here

After an illness lasting over two years, Thomas C. Walton gave up the fight last night at 8:30 o'clock and breathed his last. In the death of Prof. Walton, Anderson lost a good citizen and he will be missed.

Thomas C. Walton was born in Augusta, Ga. and later moved to Florida, where he began teaching. He was then elected president of Margaret College, at Versailles, Ky., which position he filled in a most creditable manner, and then on account of ill health he resigned his position and went to Florida where he taught for some time. He then accepted the position of superintendent of the public schools of Anderson and this position he filled for 12 or 14 years. He was an able instructor and he had much to do with bringing up the children of Anderson in the way that they should go.

Some time ago Prof. Walton became ill and he steadily grew worse until he went to Baltimore, where he entered Dr. Kell's sanitarium. There he improved somewhat and when he returned to Anderson it was thought that he had almost recovered. However, a few weeks ago he began to lose ground and for the last few days he has been confined to his bed at the home of his son, G. B. Walton, on South McDuffie street.

Prof. Walton was a member of Grace Episcopal church of Anderson and had been closely identified with the church interests. He was kind and generous and always willing to lend a hand to a friend in time of trouble.

He had always been prominent in secret order work and was a member of the Masons, the Knights Templars, Knights of Pythias and the Benevolent and Protective Order of Elks. No funeral arrangements had been made last night other than it was decided to hold the funeral some time Sunday. A telegram was dispatched to Rev. J. Haller Gibbons, rector of Grace church, apprising him of Mr. Walton's death and it is probable that he will return to conduct the funeral services.

REV. ETHEREDGE TALKED TO BOYS

Boy Scouts Listened to Address From Scout Master of Aiken Patrol of Boy Scouts

The most enjoyable experience to which any member of the Anderson Patrol of Boy Scouts has been treated within recent months occurred last night when Rev. Hamlin Etheredge of Aiken, Scout Master of the Patrol of that place, talked to the youthful wisdom of Anderson.

Rev. Etheredge is visiting relatives in Anderson and being greatly interested in the welfare of the boys, he consented to speak before the local boys and to tell them something of what the Aiken scouts are accomplishing.

The boys were taught some new drill formations and some new scout songs last night and learned many things about scouting of which they had been ignorant.

CHANGE COMING IN POSTOFFICE

Dispatch Says That Miss Russell Will Be Transferred to Service in New York

The following appeared in the local afternoon newspaper yesterday: Washington, Sept. 18.—The postoffice department today ordered Miss Russell, a clerk in the Anderson postoffice, transferred to the New York city office. Officials who recently inspected the Anderson office report that Miss Russell was no longer needed there and she would have been dropped from the service if Representative Aiken had not secured a promise that she be transferred to another office.

Postmaster John H. Cochran, Jr., said last night that he had had no official notice of any change in the office, although he had heard that some were contemplated.

CRIMINAL COURT TO BE ADJOURNED TODAY

ALL JURY CASES COMPLETED YESTERDAY

APPEALS TODAY

Docket Has Been Cleared and After Finishing Jury Trials Court Adjourned at 4.30

The fall term of the court of general sessions for Anderson county which has been in session here for two weeks, will come to a close this afternoon when adjournment will be had. All jury cases were completed yesterday, the jurors discharged, and today the court will be occupied in hearing appeals from magistrates' court and from the city court.

Yesterday saw only one case tried and that occupied the attention of court until 4:30 o'clock when adjournment for the day occurred. This was the case of Abb Knox, charged with assault and battery with intent to kill and many witnesses were introduced, both for the state and for the defense. The jury returned a verdict of guilty of assault and battery of a high and aggravated nature and the defendant was sentenced to two years at hard labor.

Ben Tate entered a plea of guilty to the charge of selling liquor at the May term of court, was in court yesterday and was sentenced to pay a fine of \$100 or to serve for 30 days.

This session of the court has been very interesting in a number of ways and as is always the case the murder trials drew large crowds and excited much interest. There were seven murder cases called at this term of court.

FWOWER LOSS IS TO BE ADJUSTED

Arbitration Committee Preparing To Begin Work Estimating Damage Done in Fire

Notwithstanding the fact that Fowler's Garage was burned last April, at which time 60 automobiles were completely destroyed by fire, no settlement has ever been reached between J. S. Fowler and the insurance companies as to the amount of damage done.

However, as provided for in the contracts of the companies, an arbitration board has been selected and will at once go to work on the proposition in an effort to arrive at some settlement. Thomas Earle has been selected by Mr. Fowler as his representative, while Lee Folger of Charlotte has arrived in the city to represent a third man to act as umpire and then the work of adjusting the loss will be begun.

The difficulty in arriving at a settlement is due to the fact that the automobiles burned in the fire had been taken in by Mr. Fowler after use and therefore it is difficult to determine their actual value. Mr. Fowler asserts that the machines were worth one thing while the insurance companies say that a small sum would be sufficient to cover their loss.

HANDSOME HOME WAS DESTROYED

A. A. Atkins Lost House and All Of Furniture in Blaze Shortly After 12 O'clock

While spending the day in Anderson on business, A. A. Atkins of Sandy Springs received a telephone message yesterday afternoon that his home, together with all the furniture, had been completely destroyed by fire.

The house was a large two-story frame structure of ten rooms and was built about four years ago. It was one of the handsomest homes in that section and was situated near Mount Zion church, about one-half mile from Sandy Springs.

It is understood that Mr. Atkins carried \$5,000 insurance on the building and \$500 on his furniture, and while this will not cover his loss it will be a great help.

MRS. BRYAN A SUFF.
Wife of Secretary of State is in Favor of Woman Suffrage.

(By Associated Press.)
Washington, Sept. 18.—In a signed statement made public here today, Mrs. W. J. Bryan declared her belief in favor of woman suffrage. The statement was made to set at rest reports that Mrs. Bryan was opposed to the movement.
