From Pickens Ronte 3

Mr. Editor: If you will allow us space in your valuable columns we will attempt to write a few dots from our quiet section of the county. And as we take up our feeble pen we find ourselves exactly midway of the eleventh month of the year—yes, drifting on over the sea of time amid joys and sorrows, yet living in an age of peace, progress and prosperity. Ten more days, then comes that historic day—Thanksgiving—set apart by the leader of this great nation as a day of thanksgiving and prayer for the peace, happiness and prosperity that we enjoy while our sister nations across the sea are engaged in a bloody conflict, taking the lives of their fellow men and destroying property. Let us all be thankful that our old ship of state is so steered that we are at peace with all the world. Then again there is another happy feature that pertains to Thanksgiving day. It brings home all the members of the family who are away fighting life's battles, to once more gather around the family circle for a day of joy and happiness, recalling the pleasures of childhood days and cheering the loved ones who are still at home. Let us all be thankful for the many blessings that we enjoy.

Everybody has been busy for the past three sunny weeks picking cotton, gathering corn and sowing grain, and now that we have had a refreshing rain the ground will be in a more seasonable order for sowing. Cotton is about all picked out and the crop is short. The corn crop is also short.

Miss Edith Woodson of Fountain Inn came up Saturday to take charge of Antioch school. She was educated at Winthrop and comes highly recommended.

Mrs. Emma Bigby of Williamston spent the past two weeks at her old home recuperating her health. Mr. Bigby came up Sunday and she returned to her home in Williamston with him.

George Welborn spent last Sunday with homefolks.

Those who have been on the sick list are improving. Mrs. E. F. Looper, who has been very ill for the past two weeks, is improving, to the satisfaction of her many friends. Drs. Kirksey and Cannon have been very attentive to those who needed their help and all feel grateful to them for their kindness and services rendered.

For fear of trespassing on your space and this article not very interesting I will quit for this time.

The Mt. Carmel school teacher thinks everybody should be well pleased with the location of the United States, as all the maps show it to be in a choice spot on the top side of the globe.
