Politics is getting ripe in Pickens.

The United States is building thousands of aircraft—for the Allies.

We believe Watson Bell will own up that York county liker wouldn't run an automobile. It won't burn.

Newspaper reporters had a hard time of it, but finally they got Colonel House to admit that he had returned from where he had been.

Those Democratic congressmen who opposed the president in his diplomatic arguments with Germany have a fair chance of re-election.

A news item says that Kolyma Koryachee is the richest woman in Siberia. A woman with a name like that should be rich to offset it.

Roosevelt's approach to our shores didn't cause the cold wind we had last week. Had it been a hot wave there might have been grounds for suspicion.

All the advice we have to give the farmers this week is to make two stalks of corn grow where one stalk of cotton grew last year, and take your county paper.

We believe Harold Booker of the Spartanburg Journal weeps as much over the destruction of a big still as he does over the death of a good butter-milk cow.

Never dare your wife to do anything. An Atlanta man dared his wife to take a dose of carbolic acid, and now the wife is in the hospital and her husband is in jail.

Republicans are still after Justice Hughes as a candidate for the presidency; but it is generally believed that the judge knows when he has a good thing and will hold on to it.

Anderson Intelligencer wants to know "what has become of the old-fashioned husband and father who came home every Saturday night on a bender?" He's cut his bendings down to conform to the pattern the legislature made for him.

We see by the papers that a scientist says chestnuts are full of germs. We don't know whether it is a fact or not, but we feel like we wouldn't be doing our duty unless we warned Cap'n. Ed. DeCamp to be careful how he handles his paragraphs.

A woman has been found in Texas who is said to be 128 years old, with a daughter an even 100. These old ladies attribute their long life partially to the fact that they took, as medicine, a small whiskey toddy every morning, and drank sparingly of water. That, now!

Some newspapers say that Mr. Bryan went to Washington to make trouble for the administration, and they lambasted him; there was no trouble, and the same papers lambast him because he didn't "start something." Hard to please those who were always opposed to the "Peerless Leader."

Tomorrow, Friday, is St. Patrick's day, March 17, and it is celebrated all over the world where there is at least one Irishman. It is an old superstition that Ireland's patron saint drove the snakes out of Ireland, but the truth of the matter is that all reptiles, including frogs, cannot live in the climate and soil of the "Ould Sod."

The Anderson Mail keeps on talking about a Spartanburg man having moved to Anderson two years ago. You are mistaken, brother—that one new citizen that Anderson has acquired in the past two years went there from Pickens. The poor fellow, you thus see, didn't have the opportunity of knowing any better.—Spartanburg Journal. As usual, Booker is wrong. The poor fellow had the opportunity of knowing better, but he didn't take advantage of it. Instead of being a subscriber to his county paper he read only Tom Watson's Jeffersonian and the Saturday Blade, and it is quite natural that he should move to either Anderson or Spartanburg.

OUR WEEKLY RIDDLE.—Why is an egg like a cold? Because it is of little use until it is broken.

The way to make an army fly Is one of the curious things: All you have to do is Just simply break its wings.

**Mt. Carmel Dots.**

Mrs. Rebecca Groce, of Greenville county, has been spending several weeks with her brother, Mr. Leigh Hunt.

A good crowd attended the Dacusville township singing convention which was held with the church at Mt. Carmel on the first Sunday. It was announced that the convention would meet with the Mt. Taber church on the first Sunday afternoon in April.

Mrs. Dean, of Hartwell, Georgia, visited her daughter, Mrs. H. P. Haley, of Dacusville, last week.

People who know the condition of the bottom land, for which H. P. Haley asked damage of the Power company, don't think the verdict of \$1,500 in favor of Mr. Haley near covered the damage to his land and home caused by the dam.

Jim G. Latham who lives near Mt. Carmel church recently made a splitting drag which does work on the road almost equal to that of the county road scraper. It would be money well invested for the county to pay for work like this because it takes time to do it and mutes to pull the drag.

Miss Edith Lenhardt spent the week-end with the family of J. K. Latham.

County Demonstrator T. A. Bowen spent last Thursday night at the home of Mr. Leigh Hunt. Friday he assisted Mr. Hunt and G. W. Holcombe in pruning and spraying their fruit trees. Mr. Bowen is popular with the people of the county and is doing a good work.

News was received here Sunday morning of the burning of the girls' dormitory at N. G. A., at Tigerville. Tom Loper, Porter Jones and Miss Nan Holcombe, of this section, are students at this institution. Sunday afternoon Miss Eva Holcombe and Messrs. W. A. Loper, J. Bird Loper and Henry T. Latham, a former student, motored over to Tigerville. Arrangements have been made to care for all the young ladies and to finish the session.

**Oolenoy Still Progressing**

On last Monday afternoon Home Demonstrator Elizabeth Mauldin, of Easley, made an enthusiastic talk to the members and friends of the Ladies Home club, at the school building. This line of work was organized by her last year while she was principal of the school here. She was warmly received and heartily welcomed by not only the club members but by the entire school body. A tomato club for the young girls was organized with 13 members. This promises to be the most interesting work that the girls have had and they are delighted with the prospects. After this part of the work was finished a Sewing Circle was formed. The object of this is mutual help on home dress making. On next Friday afternoon Miss Mauldin will meet with us and organize a Pig Club.

Mr. and Mrs. F. G. Smith, of Greenville, Messrs. B. L. Hendricks, —Latham and —Jones, of Dacusville, were the Sunday guests of Mr. and Mrs. H. V. Jones.

Miss Clarice Keith, of Pickens, spent Sunday with her mother, Mrs. E. F. Keith.

W. H. Chastain has joined the ranks of Ford drivers, having recently purchased a touring car.

Prof. W. M. Hammond and sisters, Misses Emma and Velma, were Sunday guests at the home of Mr. and Mrs. Wade H. Haddon.

Mrs. Nannon Roper is spending several days with relatives in Greenville.

Report has it that a Pickens man, while automobiling, ran out of gasoline and filled the car with "mountain dew," going in on that. It is a safe bet that Gary Hiott of The Pickens Sentinel was not in the car.

M. F. Williams, one of Mt. Carmel's prominent citizens, recently killed some good pigs. One pig seven months old weighed 196 pounds, another ten days younger weighed 246 pounds, and two six months old weighed 162 pounds each. Mr. Williams has been living at home and boarding at the same place a long time, and it looks like he is going to continue this arrangement.

The preliminary contest to select speakers to represent the Dacusville school in the county contests will be held at the Dacusville school house Friday night, March 24. Seven girls and six boys will speak and a gold medal will be awarded to the winner in each contest. The speaking will be interspersed with vocal and instrumental music, and the public is invited to attend.

We regret exceedingly to chronicle the continued serious illness of our fellow-townsmen, H. A. Richey. He was taken to the Greenville hospital last week, but the doctors there pronounced him suffering from an incurable malady and gave him little hope of ultimate recovery. We sincerely trust that he may yet be spared many more years without suffering.
