—Mrs. M. F. Hester and daughter Pearl, and son Ralph, motored last Monday to Hendersonville. From there they will go to Brevard, where they will be the guests of Mrs. W. M. Henry. They will also go to Asheville and Black Mountain and will be accompanied by Mrs. Henry and Miss Ethel Kilpatrick of Brevard. They will be absent about two weeks. It is hoped that Mrs. Hester will get a much-needed rest while away and that Ralph will motor them through safely. X

Profits and Prices

Profits may be considered from two angles:

- 1st—Their effect on prices;
- 2nd—As a return to investors.

When profits are small as compared with sales, they have little effect on prices.

Swift & Company's profits are only a fraction of a cent per pound on all products sold, and if eliminated entirely would have practically no effect on prices.

Swift & Company paid 10 per cent dividends to over 20,000 stockholders out of its 1917 profits. It also had to build extensions and improvements out of profits; to finance large stocks of goods made necessary by unprecedented requirements of the United States and Allied Governments; and to provide protection against the day of declining markets.

Is it fair to call this profiteering?

Swift & Company, U. S. A.
