No. 2 Store, South side Public Square, next door to Laurens Hardware

FEEL BILIOUS? CALOMEL SICKENS!

CLEAN LIVER AND BOWELS MY WAY

Don't lose a day's work! If Constipated, Sluggish, Headachy, take a spoonful of "Dodson's Liver-Tone"

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver-Tone. Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver-Tone. Take a spoon-

ful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver-Tone is destroying the sale of calomel because it is a real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver-Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver-Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

PRESERVE OUR NAMES. PLEAD INDIANS

Secretary of the Interior Franklin K. Lane has been approached by representatives of the Blackfoot Indians, who plead to have the old Indian names in Glacier National park retained. A typical Blackfoot brave on his horse in the park and Chief Eagle Child.

TALK AT NANTUCKET.

Where Old Salt Sea Phrases Come as Natural as Eating.

There has always been a charm about Nantucket for our idlers because of the sleepy quaintness of the town and the islanders' odd sea phrases so generously interlarded in their conversations. These phrases are so much a part of their talk that their use is unconscious.

"They never pull, they always 'hull,'" they do not tie or fasten anything, they "splice" or "belay" it; they do not arrange to fix a thing, they "rig it" or "rig it up"; they do not throw anything away, but "heave it overboard"; they "back and fill," they "stilt," "tack," "come about" and "square away" on any and all occasions.

Before engaging in any venture they first "see if the coast is clear," then as they proceed they "keep the weather eye peeled" and always "look out for squalls." Then they "sound it out" until they "inboard" it. If they don't like the "day of the land" they "give it a wide berth."

All this is according to "The Nantucket Scrap Basket," a book compiled and edited by William F. Macy and Roland B. Hussey.

The authors tell the story of a certain Quaker mother of Nantucket, who once denied that she ever used any of the nautical expressions so common there, and told her children to remind her if they ever caught her doing it. The very next morning she gave them some eggs to leave at the home of a relative on the way to school with the words: "Take these into Cousin Phebe's and tell her I think this squares the yard with us, and thee must send, for it's almost school time."

Loses Foot at Saw Mill.

Ed Elmore, son of Elihu Elmore, of the Mt. Olive section, had the misfortune of losing one of his feet last week as a result of an accident at a saw mill. A portable tractor caught him unawares and mashed one of his feet so badly, that his physician found it necessary to amputate it. It is understood that he is doing as well as could be expected under the circumstances.

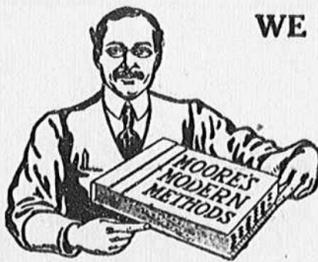

KEELY INSTITUTE MAY MOVE TO GREENWOOD

G. Washington Shell, of this City Engineering Dept Between Present Owners and Greenwood Investors.

Mr. G. Washington Shell, of this city, who is representative of the Keely Institute in Columbia, is reported in The Greenwood Journal as saying that the well known liquor cure institution would be moved from Columbia to Greenwood on certain conditions. Mr. Shell incidentally makes the startling statement that most of the liquor patients of the institution come from the Piedmont section. The following is the Daily Journal's account of Mr. Shell's visit to Green-

wood: If the people of Greenwood show the proper interest towards its establishment here, the Keely Institute, now located in Columbia, will be moved to Greenwood. Mr. G. W. Shell, representing the institute, is in the city today for the purpose of discussing the proposition with the business men and of ascertaining whether they will consider the matter. "It has been definitely decided," states Mr. Shell, "to move the Institute from Columbia to some city in the Piedmont, and I am convinced that Greenwood on account of its excellent railroad facilities is the logical place. If the people here will show that they want the institute, I

am sure that it will be located here." Mr. Shell says that the decision to move the establishment from Columbia has been reached on account of the fact that a majority of the liquor patients come from this part of the state. The "dopers," he states, are in the majority in the lower part of South Carolina, but they will go anywhere for treatment. As a rule those addicted to the whiskey habit will go to the nearest place. There is only one Keely Institute in each state of the Union, and Mr. Shell states, that always it is a big advertisement for a town. He will return to Greenwood next week and reach some definite conclusion as to removal here.
