No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Price 50c per bottle.

MAY SELL LIQUOR, SAYS TREASURY

Permission Beyond Three Mile Limit, May Not be Final.

Washington, June 16.—Sale of liquor on shipping board vessels outside the three mile limit is permissible under new treasury regulations issued today, according to P. A. Vise, general counsel for the prohibition unit.

The interpretation was taken as settling for the time being the controversy over liquor on government ships precipitated by Adolphus Busch, 3rd, the St. Louis brewer, when he wrote President Harding that the government was engaging in the bootlegging business by permitting sale of alcoholic beverages on shipping board vessels.

Solution of the problem, Wayne B. Wheeler, general counsel of the Anti-Saloon league, declared tonight, lies in "excluding all ships that sell liquor from American ports."

Legislation to this end is being considered, he said, asserting that by putting both American and foreign vessels on an equal footing with respect to liquor the competitive feature of the question would be removed.

The new regulations were not drafted with the intention of settling the question of liquor on shipping board vessels, Mr. Vise said, and in fact were written before that question arose. As drawn, however, he said, they would apply equally to American and foreign ships in permitting unloading of stores within the three mile limit under customs regulations which provide that, while in American ports, all liquors on board a ship must be sealed up.

It was freely predicted tonight at prohibition headquarters, however, that an early opinion would be forthcoming from Attorney General Daugherty definitely ruling on the question of liquor on American ships.

Chicago, June 16.—Adolphus Busch has "put one over" and his present position in reference to enforcing the prohibition laws on American ships is "above reproach and deserving of the highest commendation," Vice-Hinshaw, chairman of the prohibition national committee, said today in a statement.

"It is a sad commentary upon our government that it has remained for America's foremost former brewer to reveal the big leak in the national administration of the prohibition amendment," continued the statement.

TROOPS ON RHINE TO DEPART SOON

Place of "Lower Civilization" Undesirable, Opinion of Allen.

Berlin, June 16.—The presence of troops of "lower civilization" under the conditions of military occupation is undesirable not only in the Rhineland but anywhere, in the opinion of Maj. Gen. Henry T. Allen, commander in chief of the American army of occupation, as expressed by him in conference with the American representatives at the embassy. He was being interviewed regarding negro troops on the Rhine. General Allen will return to Coblenz tonight after a two days' social visit to Berlin.

General Allen said that in his connection with the Rheinland high commission he had been present at a number of conferences with Germans with regard to the presence of colored troops in Germany—first with the clergy then with university professors and later with the newspaper men—all of which it was emphasized that it would be better if these units were replaced.

General Allen said most of the actually black units already had been deported. All the Fingalese had gone and only a part of the Madagascar troops remained. However, there were about 15,000 colored troops still on the Rhine, composed of north African units, among whom a number of what are known as "black soldiers" are enrolled. None of these were under his command, he added, and there was no prospect that any would be.

General Allen expressed the hope that shortly no troops at all would be required on the Rhine. He declared the occupation of Ruhr was "too terrible to think of" and a move that nobody wants. "Even the French do not want to occupy the Ruhr, except in case of direct necessity," General Allen asserted. He intimated that the danger of disorder in case of such occupation was too great for it to be lightly contemplated.

As regards the withdrawal of American troops from the Rhine, General Allen said he had no idea how long the remaining contingent would stay. For the present the American soldier was satisfied and it had become a standing byword in connection with penalties to say: "You go home on the next boat!"

General Allen made it clear that though French troops were being brought in, his sector would continue to be distinctly American.

MACNIDER SPEAKS TO FEDERATION

Legion and Labor Have Common Enemies, Cheers Follod Talk.

Cincinnati, June 16.—Unity in the principles of both the American Legion and the American Federation of Labor was proclaimed here today at the federation's convention by leaders of both organizations amid the applause of the convention delegates who include practically every prominent labor leader in the country.

"The American Federation of Labor and the American Legion," said Hanford MacNider, national commander of the legion, "both have as common enemies those who seek to tear down the lawful integrity of our nation."

Samuel Gompers, president of the Federation of Labor, added later the reply: "There can be no division of the two organizations as long as both continue to keep their hold on their ideals of freedom and justice," while George L. Berry, vice commander of the legion, and president of the Pressmen's Union, declared that past misunderstandings were due to a few members of the legion. In both the legion and the federation, Mr. Berry said, "it happens that somebody is going to break the rules."

In his speech, Mr. MacNider told the delegates that the legion knew "no creed, no sect, no class, no distinction of any kind except between the constructive and destructive forces," and he added that the ambition was to keep the legion "fair, tolerant, clean and American."

With the conclusion of the address, the delegates broke into a demonstration that continued several minutes.

The only important work done by the convention was its second blow at the one big union idea which came before the delegates by a resolution proposing adoption of a universal label. The proposal was voted down.
