NEWBERRY, S. C. THURSDAY, JUNE 18, 1885.

A DAYS DOINGS.

One days record of casualties reveals the following frightful list which we gather from the News and Courier of Monday.

A riot in Geneva in which knives and stones played an active part, resulted in the killing of one man and the wounding of several others.

In London an assistant commissioner of police was stabbed to death.

In Ireland a renewal of outrages have occurred—one farmer killed and a farm hand badly wounded.

A desperate fight occurred in New Orleans. A butcher by three men and struck by a slung shot. Policeman Duffy came to his assistance. Duffy was shot but not seriously. One of the assailants was shot and killed by Duffy, the others escaped.

Over a game of cards at Scranton, Pa., one Richard Duffy was shot by Geo. Cuff, and all about a trivial circumstance. Cuff had handed his watch to Duffy to see the time of night, who not immediately returning it was instantly shot. Nothing more nothing less.

Another game of cards played in Jersey City between two brothers, Wm. and Jas. Cahill, ended in Wm. Cahill's knocking James down with a lighted lamp, and afterwards pouring over him a kettle of boiling water. James will die, and William should be hanged.

Billy Hutchinson with a nimble pistol played against the ear of Kitty Hill, pulled the trigger and the consequence was that Kitty ceased to live. This occurred in Chicago.

John Huntsman was attacked by a thief in Pittsburg. He was so badly beaten that he must die.

Kenneth Yarborough, at Galveston Texas, was shot and killed by a justice of the peace.

Whiskey and cards it will be seen are the two factors of murder, and we give this list to show how little value is placed on human life.

STATE SUNDAY SCHOOL CONVENTION.

COLUMBIA, S. C., June 5, 1885.

The Executive Committee of the State Sunday School Convention (inter-denominational) met in Columbia on Thursday, May 4th, and fixed up on August 18th and 20th as the time for holding the State Convention in this city. The opening service will be held on Tuesday evening, August 18th, and the closing service on Thursday evening, the 20th.

The committees that are organized already are requested to hold their County Conventions as soon as practicable and elect delegates to the State Convention. In those Counties where no County organization exists, the County Secretaries appointed by the State Convention are urged to call a convention at an early date as possible, that a County organization may be effected. If the County Secretaries do not issue a call within reasonable time, the Executive Committee asks for correspondence with any Sunday school workers, and will aid in every possible way in effecting County organizations. The Executive Committee are not empowered to fix the number of delegates from the Counties, but would suggest the same number as each County is entitled to in both houses of the State Legislature. The call is urgent. A complete State and County organization is greatly needed. No worthy cause is presented to earnest Christian workers. Our State, with so large a proportion of our people communicants in the various denominations, cannot afford to be behind in this work, which is engaging the best efforts of the best people of the church everywhere.

An attractive programme for the approaching State Convention has been arranged, and no effort will be spared to make the occasion a great success. Arrangements for the accommodation of delegates on the railroads and while in the city will be made and published in due time.

Barnes appeal is made to the press of the State, which has ever been ready to aid in any good cause, to assist in this worthy work. The Executive Committee respectfully ask the papers of the State to insert this call, and to press, as they may see fit, the matter upon the notice of the people.

A. COKE SMITH, Chairman Executive Committee.

A. C. JONES, Secretary.

Mr. W. E. PELHAM. I have tried your Chill and Acute Specific in several cases and I have found it invariably a positive remedy for children and fever and do therefore cheerfully recommend it. Thos. V. Wickham.

Letter from Georgetown, S. C.

ON SOUTH ISLAND, June 7, '85.

Editors Herald and News:—In our last letter we promised to tell your many readers of the rice culture, as these rice lands here are said to have no equal in the world. The lands must lie near streams, free from salt water. They are free from stumps and roots, and have numerous little ditches intersecting about every three fourths of an acre with huge canals, to supply the little canals, having gates to let on and off the water at will. The lands are thoroughly turned very shallow in February, then harrowed, and planted in a drill by a drilling machine drawn by a horse or mule; the time for planting being the months of March, April and June. After planting, the water is turned on and remains until the rice is some 6 inches high, then let off and the rice hood with long blade hoes and plowed by some. Boats are then required for the animals to keep them from bogging. The boats are made of raw hides, stuffed with rice straw, canvas the animals feet to look about three times longer than an elephant's foot. The water is let on again, then off for a second hoeing, then on again and the rice crop is made. During all this time the birds are their enemy, and they must be kept away or the entire crop will be destroyed. Bird minding with guns and whips are in the fields all the time, keeping away the birds by day and the ducks by night: so that we are at all times (Sundays included) reminded of skirmishing, as we hear the noise of guns continuously. To give your readers some idea of this, I will tell them that Maj. R. J. on Lowndes ordered at one time 100 kegs powder, and I suppose enough muskets to equip a regiment. Possibly some of your mathematicians can tell us how many times or blasts may be fired with 3 drs. to a charge. This gentleman's friend wrote him to send him some of these fat birds, and his friend in Charleston only received 150 dozen or 1800 birds. One of your conductors on C. & G. R. R. told me they were so fat that they would split open when they fell to the ground, as a plum or peach falling to the ground when ripe. The laborers work by the task and not by the day, month or year. They have a colored overseer to receive their work, and he a white supt. to receive same from him. If not properly done, then this colored boss makes good from his wages, then the land lord consults with his supt. This is Capt. Wm. Miles Hazard's plan. He has no doubt others. This gentleman and plants 12000 acres and is the largest planter I know of. Messrs. Lowndes and Doar 1600, while Messrs. A. M. Manigault, S. E. Barnwell and others are successful planters. These gentlemen plant on the Santee, while others plant on the Sumpit, Black, Waccamaw and Pee Dee Rivers. The yield of rice is 20 to 40 bushels per acre, and the compensation paid for each acre is

resembling a house at a distance; digging a canal from Santee to Win Bay for an island route for feet a day, 80 feet wide and 7 feet deep. It is an institution of Uncle Sam's, worked by stockholders. Col. L. P. Miller is the President, and has charge of the same. Our island is now a real city, as all the houses are full of intelligent and hospitable people. To illustrate: (We have no gardens.) Up drives a cart and in comes three bushels potatoes and one bushel ruta-bagas, compliments of Capt. Wm. M. Hazard; then comes Mr. Thos. Doar's bright little Tommie with lettuce and beets (2); then Mr. George Hazard's servant (2) beans and squashes, ditto from Col. L. P. Miller, and our good friend Mr. Willie Lucas Irish potatoes and squashes, and also from Mrs. Taylor numerous vegetables, milk, cakes, &c. Maj. R. J. on Lowndes supplies us with all the wood we want free. Mrs. Martin has also sent us (2) fine berries, Henry Smith (3) numerous vegetables, and every time we are at the country we receive from seven to twelve presents of chickens, eggs and all the varieties of presents known to the country, even to huge fishing canes. I am conscientious in saying a more hospitable people than these never lived.

The waters now supply us with the very finest sport in the State. We catch drum and bass fish, weighing from 15 to 60 lbs. each; also whiting, trout, black fish and 100 or more varieties of fish, though they are not as numerous as formerly, as we believe the sturgeons nets now used keep them (the fish) back over the bar; and we urge the Legislature to limit the time of using nets in Winyah Bay from April 1st to the bird law, as we anglers sport will soon be at an end, and bass and trout steak will no longer grace our breakfast table. To illustrate—a party went fishing for black fish and are often caught, when 1000 or 1200 are needed. If there is a law in my opinion it is to forbid all kinds of nets, especially sturgeon nets, fishing in Winyah Bay at this season of the year. As it now exists certainly the hen is being killed that laid the golden egg.

We have no Morgan advocates down here. We are too proud to see the press let Gen. Grant yet live, for we had no idea but he would live many days yet. I am proud to say I do not know of a better county than that of our dear old Newberry. Your many correspondents add much to H. & N. "Jan" is a capital writer and no doubt will some day be an editor. I miss you very much. Eden correspondent. Can you not induce him to again resume his pen? I do not see anything from your potential writer "Malarg." They all write well. Your "Capital Dots" come up to telegraph news. While the nation is stirred to its centre on national appointments, let me tell

you, about one year hence we will need some State nominations, and if any changes are made I now arise as a second

nominate for Governor. I second Wade Hampton, and that man is James N. Lippcomb. For fear I may tire some of your readers with a long letter, and your printers may need a plate of ice cream to escape their wrath, if any they have, I will close for another quarter. Your old Newberrian, J. W. FOLK.

From Liberty Hall.

Last Friday, wending our way to the hospitable residence of Mr. I. Johnson of Laurens, we were influenced by the beautiful scenery and holy calm that surrounded Liberty Hill Church to turn our footsteps in that direction and enjoy a few moments of sober reflection among the monuments, which speak so eloquently of a "city care o'er each silent tenant of the 'ring of the dead'; and as we lovingly lingered 'round the graves of friends that had placed bright flowers in our bouquet of life, the mournful dirge of our thoughts were suddenly diverted by the appearance of King Sol who, on the eve of retiring, peeped from behind a dark cloud and threw a shower of bright rays around us, as if in parting benediction, and we were reminded of the great many that are still living in the midst of our country, and who are so soon to be laid to rest in the bosom of the earth. We have heard nothing from our O. Neall correspondent for some time. What's up?

Mr. Luther Long has been engaged in a forcible assertion of his rights, and has shipped a great many this season to different points, and back largely for home use. News is a little flat at this season. I had the pleasure of hearing the Hon. James N. Lippcomb, address before the Progress High School on the 30th. It was plain and forcible, and full of good sense. He was as cheerful as in '76. He is a regular war horse. DOTS.

Dots from Smokey Town.

SMOKEY-TOWN, June 3, 1885.

The O'Neill School, located in this pretty community, has closed. We have preaching arrangements to suit all the Baptists here preaching the fourth Sunday, by Rev. Williams; preaching every second Sunday at O'Neill; Sunday-school at each place.

The health of our community is pretty fair. Mrs. Nancy Dominick is quite sick. We hope it will be of short duration and that she may be permitted to regain her usual health in a few days.

Uncle Bill says the small grain crop is very good. He should know, as he is a close observer of crops of all kinds. Luther Fellers has a new buggy, high top seat, and I guess that means something. Time will only tell.

Mr. Brannan has been busy painting in this part of the county for some time. He is painting Mr. Wilson Long's house at present. He says this is a very poor county; and that if a carpenter knows anything and has no education. But I venture to say one thing. If the people are limited in education, and the land is poor, they are more than apt to pay what they can for the best of everything, and duty before pleasure.

Jalapa Jottings.

We are still having good rains, and crops are growing rapidly. One of our farmers wants to know if a crop of corn could be made with Gen. Green until we get our grain cut. This is the busiest year farmers have had for some years past. I can't see how some planters will manage to get through with their grain and clean all their cotton crops. My opinion is, they can't, unless we have about four or five weeks drought.

On the 9th of this month a storm passed through the lower portion of the County and during the night a rain crop very much blowing it down. The oat crop being so thin it will be impossible to gather it as it should be, and I would advise all farmers to plough and sow early, and get the corn cut by the 15th of July or 1st of August. Seed out this year will command a good price, and by plowing under the stubble the farmers will save a good many dollars.

Complaint is made against the foxes eating up the chickens. They are getting to be very numerous in this country, and I predict that in a few more years we will not be able to raise any pigs or lambs unless some preventive be applied to destroy them. Mr. Willie Dobbin is improving very slowly.

Mr. Sam Duncan is made happy—it is a girl. Judge Campbell and Mr. Thompson Conner have the best corn in the community, each having a small patch that looks remarkably well.

Miss Mamie Whites' School Exhibition of the pupils not being behind school exhibition in the county. The teacher ought to be proud to see that her labors proved so gratifying to the public. The patrons ought to feel that they have been fortunate in securing such a good teacher and disciplinarian. The exhibition was a success.

My old friend C. F. Boyd of the Reporter, was up at the picnic. I had not seen him in so long a time that I mistook him for Rev. Boyd, and Col. E. I hope the very good opinion of him will not be offended by the mistake. After we found out the man we discovered the great difference. Callie, your elder sister, who made all the good singing for the ladies, is in the army, you would make a good soldier.

Wheeler, our County Treasurer, was up, looking so well that he attracted the attention of several widows who wanted to know who he was and if he was married.

Sheriff W. W. Riser passed through town on Sunday evening carrying his wife and two children to jail. Dr. Evans passed through town last Thursday evening on his way to Beth Eden.

An intelligent dentist rather singularly overlooked the fact that the Senior Editor of the H. & N. was in attendance on this important session. What was the matter, Jan? Were you of so little importance?—Ed. H. & N.

From the Dissecting Room. I have taken Swift's Specific for blood poison contracted at a medical college at a dissection, and it gave me a speedy and thorough cure. I have had several hundred dollars for treatment. My wife had a bad case of it, and as nothing was doing for her, I bought a bottle of Swift's Specific, and soon she was cured. I have been to the doctor, and the arm ceased to hurt. I continue to use it after taking a course of Acrostic Wenzel, M. D. Newark, N. J., Jan. 4, 1885.

A Physician's Testimony. I have tried Swift's Specific in a very bad case of blood poison, and take great pleasure in stating that it was a perfect success, probably many other cases with good results. I think it the best blood purifier of the age. M. D. Millsap, Tex., March 8, 1885.

Swift's Specific is entirely reliable. Treatise on Blood and Skin Diseases, mailed free. The Swift Specific Co., Drawer 3, Atlanta, Ga.

Rheumatism. Although a practitioner of more than twenty years, my mother influenced me to procure B. B. B. and months with Rheumatism which has stubbornly resisted all the usual remedies. Within twenty-four hours after commencing the use of B. B. B. I observed marked relief, and as active as ever, and third bottle and is nearly cured. I have taken B. B. B. in the front part of my leg, and it is truly wonderful and immediate. Her name is Mrs. M. M. Mostow, M. D. Knoxville, Ala., June 4, 1884.

THE SOUTHERN WOMAN.

[WRITTEN FOR THE SOUTHERN WOMAN.]

Rise in thy own pure lustre, Southern Star, Though need'st no emanation from afar. Like the glad bird of our own native land, Gather rich gems from thy own native hand, Till echo wafts thee through the wide domain, And to thy robes adds other warblers' strain; Till—where the waves kiss the Atlantic shore—Fair brows shall bend thy glowing pages o'er. Thy lyre is struck by many a skillful hand, In the bright regions of the Sunny Land. Thy sweet-toned harp requires no added string:

Columbia hails the tribute that you bring! Catching from other lips no passing tone, But breathing forth a music all thine own, Sweet, rich and pure—unmixed with foreign heart.

In fiery strains whose numbers flow along, Till the rapt soul is eloquent with song. NEWBERRY, S. C., May, 1885.

Oil from Nature's Wells. The skin on the head is kept soft and flexible by a secretion from the oil glands. When these are clogged the hair dries and falls off. The hair falls out, and the scalp becomes scaly, and the original color to the hair and makes it soft and glossy. It also eradicates dandruff. Not greasy, not a dye, deliciously perfumed. Delightful for use in the bath. The best of dressings. Preferable to all similar articles because of its superior cleanliness and purity.

Dunlap's "Champion" Stylographic Pen. A person who has never used a Stylographic Pen, cannot possibly know its value or convenience, or he would certainly procure one at any price. We have used a Pen, presented to us by Mr. L. E. Dunlap, of Boston, Mass., for over two years and now intend to send for one of the new "Champion" Pens recently patented by Mr. Dunlap, as we are convinced that it contains valuable improvements; one of the improvements being a compound spiral spring formed from a tube of metal rubber, which is so constructed that it will give a firm grip on the pen, and a beautiful and uniform penmanship. The "Champion" Pen is the same in style and finish as Pens sold everywhere at \$3.50 and \$5.00.

Are You Tired of Being Sick? We want to say a word to the men, women and children who work in shops, offices and factories. There are hundreds and thousands of you in the country. Very few of you are well. You are shut up too much and exercise too little. In this way you get sick. Your blood is bad, your digestion poor, your head often aches, you don't feel like work. Your liver, stomach and kidneys are out of order. Parker's Tonic has cured hundreds of such cases. It is pure, safe and pleasant.

To anybody who has disease of throat or lungs, we will send proof that Piso's cure for consumption has cured the same. Send for other cases. Address, E. T. Hazeltine, Warren, Pa., Oct 1.

DO YOU EVER GET CONFUSED?

READING CLOTHING ADVERTISEMENTS. Get bewildered, so to speak, amidst these many guide journals all pointing in different directions, yet all professing to lead you to the destination—the best place to buy. Or don't you read advertisements? In that case you make a greater mistake than the careless reading of too many, since in the effort to avoid a wrong or wrong direction, you shut your eyes to the right one. Honestly can be easily recognized in advertisements as in everything else. It only requires a little care in the looking.

NOW WHAT DO I PROFESS? And how near do my professions come to the honest truth? I'll answer the last question first. I profess only what I can prove, what you yourself can prove, what my goods of themselves prove. Now the question, what do I profess? To get Clothing that is honest in make, reliable in material, fashionable in cut, stylish in appearance, neat in finish, perfect in fit. I guarantee all goods as represented. I will now call your attention to garments for

HOT WEATHER! Such as Cassimeres, Worsteds, Drap D'ete, Seersucker, Alpaca, Linen, &c. Also, the line of Hand-Made Underwear of India Gaiters, Lisle Thread and Balbriggan Half-hose in Fancy Lisle Thread, Silk and Balbriggan.
