THE TOWER COLLAPSES.

The Walls of Trinity College Wrecked-A Serious Loss.

CHARLOTTE, Aug. 11.—On Saturday a crack was discovered in the base of of about half a mile wide being taken the tower of the new Trinity College building at Durham. It seemed to growlarger, and at 11 o'clock last night, attached to four ploughs, the area when the tower, which was 100 feet high, suddenly gave way and fell to the ground, carrying with it four of the main trusses, tearing up the roof, and the same way, and there is not a single crushing about sixty feet of the front draught horse on the estate. Horses of the main building. The roof is so badly warped and sprung that most of it will have to come down. The fall of traversed for thirty-six miles by the the tower is attributed variously to weather, haste in building, and bad workmanship.

It was decided last year to remove this, one of the most successful colleges in the State, from Trinity, a small village in an obscure portion of the State, to Durham, the Messrs. Duke of that city offering \$85,000 and a site for the college. The last brick was laid on Saturday, and everything pointed to a speedy construction of the college. The loss is estimated at \$20,000, which will fall heavily upon the Methodists of

The Cholera Raging in Asia and Asia

[From the London Standard.] VIENNA, July 25 .- Great consternation has been caused in Vienna, and, indeed, throughout Austria, by the reports received here respecting the terrible number of deaths from cholera in Asia and the rapid spread of the epidemie from Mecca and Aleppo to northern Syria and the south coast of Asia Minor. The public concern is increased by the knowledge of the total inadequacy of the sanitary measures of the Turkish authorities. That the Turks are most anxious to keep the disease out of their European territories cannot be doubted; but the executive authorities, to whom all the measures proposed by the International Sanitary Board are intrusted, are so little to be relied upon that neither the different cordons in Arabia nor the numerous quarantine stations that have been established are

of any avail in checking the progress of the epidemic. The sanitary condition of Mecca is simply shocking. But no Christian is allowed to enter the Sacred City, and the ignorance and fanaticism of the Mohammedans prevent any effective sanitary control by the local authorities. The disease continues to spread more and Anna P. AMERICAN GIRLS' WAISTS.

A Physician Says they are Much too Small for Healthy Development.

[New York Commercial Advertiser.] Dr. J. C. Kellogg, of Battle Creek Mich., spoke at the Washington High school to the girls of the school during

his visit recently. He opened his remarks by announcing that he was going to say some very unpleasant things about young ladies. Notwithstanding their good looking faces, he said, most of them are crippled and deformed.

The docter has devoted fifteen years to the study of the human figure. The Largest Farm in the World.

There is a farm in the southwest part twenty-five miles east and west. The emigration committee at less than and from the United States Government by a syndicate of Northern capitalists, by which it is now farmed. At that time it was a vast grazing ground for the cattle of the few dealers in the neighborhood, there being thirty thousand head of cattle and horses upon it. This immense tract is now divided into convenient pasture stations, or ranches, the fencing clone having cost fifty thousand dollars. The land is best adapted for rice, sugar, corn and cotton. All the cultivating, ditching, etc., are done by steam power, a tract and an engine placed on each side. Vigor in restoring gray hair to its original color, promoting a new growth, preventing the hair from falling, keeping it soft silky, and abundant, and the scalp cool, healthy, and free from dandruff or humors. The universal testimony is that this preparation has no equal as a dressing, and is, therefore, ind spensable to every well-

furnished toilet. "I have used Ayer's Hair Vigor for some time and it has worked wonders for me. 1 was troubled with dandruff and was rapidly becoming bald; but since using the Vigoriny head is perfectly clear of dandruff, the hair has ceased coming out, and I now have a good growth, of the same color as when I was a young woman. I can heartily recomany one suffering from dandruff or loss of hair to use Ayer's Hair Vigor as a dressing."—Mrs. Lydia O. Moody, East Pittston, Me.

"Some time ago my wife's hair began to come out quite freely.

Ayer's Hair Vigor

not only prevented my wife from becoming bald, but it also caused an entirely new growth of hair. I am ready to certify to this statement before a justice of the peace."— H. Hulsebus, Lewisburgh, Iowa. "Some years ago, after a severe attack of brain fever, my hair all came out. I used such preparations for restoring it as my phy-

sicians ordered, but failed to produce a growth of hair. I then tried, successively, several articles recommended by druggists, and all alike fell short of accomplishing the desired result. The last remedy I applied was Ayer's Hair Vigor, which brought a growth of hair in a few weeks. I think I used eight bottles in two years; more than was necessary as a restorative, but I liked it as a dressing, and have continued to use it for that purpose. I believe Ayer's Hair Vigor possesses virtues far above those of any similar preparation now on the market." -Vincent Jones, Richmond, Ind.
