A Card of Thanks.

I desire to express our thanks of gratitude for kindnesses shown me and my family during the late illness and death of my wife and to those who have been so kind and thoughtful in visiting us in our loneliness to show their sympathy and cheer us in this time of sadness. We extend to one and all our sincerest thanks. It has been a profound source of happiness and pleasure to receive the company of so many kind and sympathizing friends and hope they will continue their most welcome visits.

Yours in friendship,
M. L. Wicker and Family.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and driving the patient's cure by building up the system and assisting nature in "doing its work." The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

F. J. CHENEY & CO., Toledo, O. Sold by druggists, price 75c. Hall's Family Pills are the best.

The Grand Lodge responded to by Dr. Thornwell.

1876 1901.

On the evening of January 5, 1876, Capt. O. L. Schumpert and Miss Mamie Pool were married in the Lutheran church in Newberry. On last Saturday evening January 5, 1901, at their beautiful and handsome residence in Newberry Col. and Mrs. O. L. Schumpert received their friends, the latter date being just twenty-five years from the former. They were assisted on this occasion by Mr. Aumerle Schumpert and Miss Thyra Schumpert, the two children who have blessed this home and grown to manhood and womanhood. Some two hundred guests came on this evening to bring their greetings and best wishes for the happiness and prosperity of the twain.

It was a very pleasant and a very happy occasion and many and handsome were the pieces of silver and the kind words of congratulations and the telegrams of good cheer from distant friends. May their journey be extended to the golden wedding day and even to the celebration of the diamond anniversary is the sincere wish of many friends.

A Card.

I was sick, and ye visited me. I was not hungry, but ye gave me meat. While the gripe had me in bed Bro. Jno. A. Crooner and wife, of Enoree church, came sixteen or seventeen miles to see me. This visit was very much appreciated, because it showed their interest in, and sympathy with me; and therefore, I believe it really helped me. But the visit was not all. Before they left home they put into their buggy a number of good things to eat; and on their way, other members put in more; so that when they came, they brought too many good things to mention here, and spoke of more to follow. I cannot say I was surprised by their bringing these good things that make a pastor and his family so happy, because some of these good people have gotten in such a habit of thus making their pastor happy about Christmas time that it is no longer a surprise to him, but a joy for every Christmas. Thanks to every one of these good members. And again I say, thanks to every one of them.

But the Enoree members are not alone in the good work of making their pastor and his family happy. Bro. Russell, of St. Stephens church, also knows how to do such things. In good time for Christmas he sent me, by express a nice shawl, nicely dressed.

The gripe let me out of bed in time to enjoy all these good things during Christmas, and I am still enjoying them, for they are not all gone yet, though we have been feasting upon them. Thanks to Bro Russell also.

GREAT BOARD OF GOLD.

Gross Gold in United States Treasury Breaks All Records.

Washington, Jan. 5.—"The gross gold in the treasury today," said Ellis H. Roberts, United States treasurer, "is \$480,709,005, breaking all records. At the end of March, 1889, the treasury held \$328,293,901, which was the largest sum accumulated during any administration in recent years until within the last two or three years.

Our immense gold holdings are due, of course, to the great prosperity of the country, to the increased production of gold in all directions, and in large part to the fact that the United States is now the creditor nation of the world."

If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at W. E. Pelham's drug store.

TOWN OFFICERS.

A Hold Over of all the Old Police Force.

The following is a list of the positions and those who fill them:

Clerk and Treasurer—W. S. Langford.

Street Overseer—John McCallough.

Chief of police—H. C. Hunter.

Police men—S. G. Carter, H. H. Franklin and E. P. Bradley.

City Attorney—C. L. Blease.

Lamp-lighter and Janitor—Rial Bates.

SUNDAY SCHOOLS OF THE STATE

Annual Convention of the Interdenominational Union to be held at Newberry.

To Superintendents, Teachers and Workers in Sunday Schools: Announcement is made that the South Carolina Interdenominational Sunday School Convention for the year 1901 will be held in the city of Newberry, February 25-27 inclusive.

The executive committee is pleased to state that we will be favored at all the sessions by the presence of the following named interdenominational workers:

Prof. H. M. Hamill, D. D., of Illinois, field secretary; Mrs. H. M. Hamill, teacher in primary work; Mr. Marion Lawrence, of Toledo, Ohio, general secretary; Prof. Excell, leader of song, and probably other interdenominational workers.

We have the promise of all of the above named, who will then be in pursuance of the great transcontinental tour in the interest of the Sabbath School cause, and representing the international executive committee in their work.

It will be readily observed, therefore, that this Convention should be no ordinary occasion, but on the contrary one that should enlist the hearty co-operation of every active well-wisher of the greatest of all causes, that of the Sabbath School. With such specialists as these named, the work of the Convention must necessarily be both instructive and interesting. We feel free to say that the Sabbath Schools have never before had such opportunity for enlargement and improvement as will then be offered, and it is to be hoped that the consecrated men and women in all parts of South Carolina, now engaged in this most useful arm of church work, will seize the occasion in order that great and permanent benefit may be derived therefrom, in renewed energy and greater efficiency to the individual school. The programme, which will be published later, will cover every phase of Sunday School work: the addresses will be helpful and all parts of the services will be spiritual and devotional.

The Sunday School workers of South Carolina owe it to those who will be our distinguished guests, as well as to our selves, and to the youth of our beloved Commonwealth, to make this the most successful convention year in the history of the organization. The good people of Newberry, ever ready in their hospitality, will welcome to their happy homes all those who shall come. We invite every Sunday School in the State to take this matter up at once, to the end that proper representation may be had. Address all correspondence to W. E. Pelham, Chairman State Executive Committee, Newberry, S. C.

Newberry, S. C., Jan. 5, 1901.

PROGRESS OF THE SOUTH

Our Section Enters the Twentieth Century Stronger, Materially, than It Ever Was Before.

Baltimore, Dec. 27.—Special: In its last issue of the century the Manufacturers' Record says:

"On the verge of a new century the South, better equipped in every way than ever before, warned by the experience of other sections against the pitfalls close in the path of progress, enjoying the opportunity to equip new manufacturing establishments with the latest improved machinery, convinced by knowledge of the dangers of expanding the best efforts upon one crop or one line of industry, and deprived of one of the natural advantages which have always belonged to it, stands ready at last to enter into its own. Metallurgy and chemistry, geology and mineralogy have penetrated to subterranean storehouses to bring to the surface vast wealth in coal, iron, phosphate rock, petroleum, lead, zinc, marbles, granites and other building stones, have given a new impetus to the development of half-neglected gold deposits, and have made the South an arbiter in the iron trade of the world, just as it has become a controller of the trade in cotton goods, both at home and abroad. The important position taken by the South in national agriculture, manufacturing and commerce has led the Manufacturers' Record to publish this week a number of papers by authorities in their respective fields reviewing the progress on these lines during the past century and giving a forecast of the coming one.

Best Out of an Increase of His Pension.

Mexican war veteran and prominent editor writes: "During the advertisement of Chamberlain's Cough, Croup and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by W. E. Pelham.

A Prominent Chicago Woman Speaks

Prof. Roxa Tyler, of Chicago, Vice President Illinois Woman's Alliance, in speaking of Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by W. E. Pelham.

A New York newspaper says that there is an outbreak of hydrophobia prevalent among the squirrels near St. Joseph.

Persons who suffer from indigestion can not expect to live long, because they cannot eat the food required to nourish the body and the products of the undigested foods they do eat poison the blood. It is important to cure indigestion as soon as possible, and the best method of doing this is to use the preparation known as Kodol Dyspepsia
