An invitation has been extended to President F. H. Hyatt, of Columbia, of the State Good Roads Association; Senator A. C. Latimer, and Congressman Wyatt Aiken to be present and to address the Association upon good roads topics.

The approaching meeting will be a very important one in many respects. It is the first meeting of the Association after the organization, and much depends upon the showing which will be made.

By the time of the meeting the good roads machinery which was recently purchased by the County Board will have been put in operation, and it will be possible to see some practical results from its use.

An organization, with thirty-two members, was affected, and the following officers chosen:

The association adjourned to meet at the call of the president.

WERE THEY KINARD'S WATCHES?

Two Time-Pieces Found in House Formerly Occupied by Elijah Edwards, Charged With Murder.

Sheriff Buford was notified recently that negroes living near had in their possession two watches which were found in the house formerly occupied by Elijah Edwards, colored, who is charged with the murder of J. Butler Kinard, and who is now a fugitive from justice. Sheriff Buford went to see the negroes and they turned over the two watches to him. One is a brass watch, of small value. The other is an old style solid gold watch, and appears to be of considerable value.

It will be remembered that in July of last year the house occupied by J. Butler Kinard, four miles from the city, was burned to the ground, and Kinard himself perished in the flames. Suspicion centered on Elijah Edwards, a young negro man who lived with Kinard, and Edwards was indicted at the corner's inquest. Edwards, however, had departed that section of the country. At the time he was burned to death, it is believed that Kinard had a small sum of money—something like \$200—and two watches. The watches now in the hands of the Sheriff are supposed to have been the two watches owned by Kinard. Whether they were taken by Edwards after the murder or left in Edwards' house previously, is a question, however.

At The Opera House.

The Greenville News has the following to say of a recent performance by the Herald Stock Company in Greenville. This company will appear in Newberry for six nights, beginning next Monday, the 29th:

To a large audience at the Grand last night the Herald Square Stock Co. presented the four-act comedy drama, "A Midnight Call."

In this play the members of the cast seemed especially at home, and they certainly did better work with it. Miss LaPorte as the child-like sweetheart, the "girl wife," was charmingly piquant and vivacious.

It is safe to say that no better specialties than were offered last night have been put on in Greenville in a long time. The management is faithful to its promise of a mighty change of specialties, and always surprises and amuses with something new and up to the minute. The autopsy illustrations are the best ever brought to the city, while the songs and dancing are above the average.

The company plays here at popular prices, 10, 20, and 30. Electric fans will be placed at the opera house during their engagement, and the attraction is likely to be above the ordinary and very popular.

Letter to C. J. Purcell, Newberry, S. C.

Dear Sir: Most mixed paints are either adulterated or short measure. Devoe Lead and Zinc is neither, so it cannot be classed with mixed paints. That's why it takes fewer gallons of Devoe to paint a house than it does of a mixed paint, and it lasts longer for the same reason.

Ferguson & Thompson's store, Delhi, N. Y., was painted some years ago with thirty-two gallons of mixed paint. Painted it last spring with Devoe Lead and Zinc—thirteen gallons did the work.

Devoe Lead and Zinc is here or will be here very shortly. Spread the good news. Yours truly, F. W. Devoe & Co., New York.

P. S.—The Newberry Hardware Co., sell our paint.

Men We Want To Talk To.—We believe that if every man in Newberry was a clothing expert—if every man in Newberry knew the positive facts in the case—that every man in Newberry would come straight to us for all his clothing. Each week we will publish a little argument on this subject. This week's argument is directed

To The Man Who Wants To DRESS ECONOMICALLY.

Buying the best is the essence of true economy. Good clothing is cheaper than poor clothing—no matter what the respective prices may be.

We sell the best clothing that can be made (see note below), and the prices are not high—an excellent suit for either business or dress wear can be bought for the modest sum of \$10.00, and it will outwear any two suits that ordinary stores sell for about the same money—and it will retain its shapeliness long after the average garment will be a mere bundle of wrinkles and bugginess.

Note—When a man buys a suit from us he gets the "Best-Clothing in the World," made by the famous Schloss Bros. & Co. of Baltimore. All their garment bear this label.
