

"Only a Curl."
 Only a little silken curl,
 Cut from the head of a laughing girl,
 In happy long ago;
 But ah! the laughing girl is dead,
 And from my life the light has fled,
 For oh! I loved her so.

Only a lock of shining hair
 That crowned my darling bright and fair
 Before death's parting blow,
 But it brings back her vanished charms,
 Her pressing lips and clinging arms,
 For oh! I loved her so.

Only a little silken tress,
 That used my sweet one's cheek to press,
 And o'er her shoulders flow,
 But looking back through by-gone years,
 A holy thing that tress appears,
 For oh! I loved her so.

Only a little silver thread,
 By which my heart was captive led,
 In happy youth. And lo!
 It still leads on through grief and pain,
 To where the parted meet again,
 For oh! I loved her so.

Only a little ringlet fair,
 Only a d-d girl's glossy hair,
 But words could not bestow—
 Treasure enough to fill its place,
 Or summon back the one lost face,
 That I have worshipped so.

Col. John W. Ferncy, in the last number of his *Progress*, says: "There are three classes of men that are daily joining the Hancock column, North and South, exclusive of the Union veterans. These are the Republicans of the Charles Sumner school, the Republicans and Democrats of the Douglass school who voted for Abraham Lincoln, and the Republicans who have grown tired of the rings of the North and the carpet-baggers of the South. I receive letters every day from men of one or the other of these classes. Saturday, July 21, 1880, I received several. One is from Daniel R. Goodloe, a Republican of the old school, a Southern Abolitionist for thirty years, a personal friend of Abraham Lincoln, and one of the ablest Republican writers during the war. He was an Emancipation Commissioner under Lincoln, and has held many offices of trust and honor.

The Philadelphia *North American* Republican, says editorially: "Republicans are very foolish who try to make capital for their party by assailing the character of Gen. Hancock. They do more harm than good all the time. They are friends of the bird from whom intelligent Republicans will pray to be saved. A good many foolish things have been said about Gen Hancock's letter to Gen. Sherman in the winter of 1876. Now that the full text of that letter has been published exactly how foolish those things were is made apparent. Zealous but indiscreet adherents of Garfield and Arthur cannot be impressed too strongly with the fact that Gen. Hancock's record is simply unassailable. They waste powder and shot when they train their batteries against it. Attack should be directed against the weak points of an enemy's defenses, not against those which are invulnerable."

The Lockport *Journal* tells this: It was dinner time in a select boarding house when the new boarder arrived. He was a venerable looking gentleman, with silver hair, and his face beamed with sweet repose, betokening a pure and holy life. As he joined the landlady said, "Would you ask a blessing sir?" The venerable stanger shouted, "You'll have to talk louder, marm, I'm so d-d deaf."

PENNSYLVANIA papers state that Boyd & Peter's circus has been utterly ruined by the odium contracted through the fiendish conduct of its employees toward a little girl some time ago in Somerset County, in that State. That portion of it which is not in jail is wandering through Armstrong County, and the paraphernalia is expected soon to fall into the hands of the sheriff.

A London newspaper relates that when a Frenchman, who fell overboard from the steamer which took the Clubmen Club back from Greenwich, was rescued and returned to the dock, the first thing he said was that he hoped he had not kept the steamer waiting.

The New England *Farmer* inquires: "What cows should farmers keep?" Fubbs suggested that they should keep their own, as a serious inconvenience often arises from a propensity to keep those belonging to other folks.

Seven Leavenworth doctors gathered around a man who fell on the walk. Four called it a case of sunstroke, and the other three said it was a fit. Along came a small boy and proved that it was banana peel.

LIGHTNING SEWER

THE NEW WILSON Oscillating Shuttle SEWING MACHINE

is wonderful in its conception, unprecedented for doing a large range of sewing in textile fabrics and leather. Its motions are continuous, admitting of an extraordinary rate of speed, either by steam or foot power. Every motion of the treadle makes six stitches, thus producing about one-third more work in a day than other Sewing Machines. It has no stop motions, and tightens the stitch with the needle out of the fabric. It uses the

well-known Wilson Compound Feed on both sides of the needle. It has two-thirds less parts than any other first-class Sewing Machine. Its arm is fully eight and one-half inches long and five and one-half inches high, and the whole Machine is very compactly and scientifically constructed in proportions, elegance, design and appearance. Its simple, powerful and perfect mechanism places it as far in advance of all other Sewing Machines as the telephone is superior to the tin speaking tube. The WILSON MENDING ATTACHMENT, for repairing all kinds of textile fabrics WITHOUT PATCHING, furnished FREE with all WILSON SEWING MACHINES, together with a TUCKER, RUFFLER, CHASER, CARE OF HEMMERS, BINDER, etc.

These Machines are on exhibition and for sale by
THEODORE KOHN,
 AGENT FOR
 Orangeburg County.

Orangeburg, S. C., Nov. 7th, 1879.—1f

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!
 For Diarrhoea, Dysentery, Cramps, Cholera,
 AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS
 SO PREVALENT AT THIS SEASON,
 No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS
 and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such seasons, the attack is usually sudden and frequently very acute; but with a safe remedy at hand for immediate use, there is seldom danger of the fatal result which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and sometimes costs a life. A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:
 I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera today, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.
 F. E. BERGINSEND, Galena, Illinois.

No family can afford to be without it, and its price brings it within the reach of all. The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.
 Price 35c, 50c, and \$1.00 per bottle. You can obtain it at any drug-store or from
PERRY DAVIS & SON, Proprietors, Providence, R. I.

J. R. THACKAM, Clerk.

(Late of the Columbia Hotel, Columbia, S. C.)

April 24, 1880

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brassy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair, The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

How Watches are Made.

IT will be apparent to any one who will examine a SOLID GOLD WATCH, that aside from the necessary thickness for engraving and polishing, a large proportion of the precious metal used, is needed only to stiffen and hold the engraved portions in place, and supply the necessary solidity and strength. The surplus gold is actually needless so far as UTILITY and beauty are concerned. In JAMES BOSS' PATENT GOLD WATCH CASES this waste of precious metal is overcome, and the SAME SOLIDITY AND STRENGTH produced at from one-third to one-half of the usual cost of solid cases. The process is of the most simple nature, as follows: a plate of nickel composition metal, specially adapted to the purpose, has two plates of SOLID GOLD soldered one on each side. The three are then passed between polished steel rollers, and the result is a strip of heavy plated composition, from which the cases, backs, centres, bezels, &c., are cut and shaped by suitable dies and formers. The gold in these cases is sufficiently thick to admit of all kinds of chasing, engraving and enamelling; the engraved cases have been carried until worn perfectly smooth by time and use without removing the gold.

THIS IS THE ONLY CASE MADE WITH TWO PLATES OF SOLID GOLD AND WARRANTED BY SPECIAL CERTIFICATE.

For sale by all Jewelers. Ask for Illustrated Catalogue, and to see warrant. March 12, 1880—1y
