

North Carolina.
A special to the Baltimore Sun, from Raleigh, N. C., gives some interesting figures touching the industrial and other developments in that State. The figures are instructive and show a growth which will be at once surprising and gratifying to the friends of progress in the South. The fact that North Carolina is one of the leading cotton manufacturing States in the South is generally known, but it is not so well known that it is rapidly forging ahead in the shipment of lumber, and that the eastern section of the State is becoming a vast trucking region, from which excellent results are obtained. Western North Carolina is now the largest producer of tobacco used in the manufacture of the highest grades of smoking and chewing tobacco. The motto of the Old North State is "Forward," with results which promise to make her a prosperous and wealthy State.

Disraeli and Gladstone.
In a recently published book Reginald Brett of England says that Queen Victoria, once impatiently remarked: "I am no longer Queen. Mr. Gladstone is King." The Grand Old Man always had an air of aloofness about him, even when he was in the presence of royalty. Beaconsfield, on the other hand, was always welcome at Windsor. The Queen didn't like him at first, it is true, but he gradually won her over. How? "In trifles Disraeli never forgot the sex of the sovereign. In great affairs he never appeared to remember it."

A Red Handed Murderer.
Tetterine kills the worms of Tetter, Eczema, Salt-Rheum, Ringworm and other skin diseases. Most of these are caused by the existence of infinitesimal animalcules. Tetterine kills them at once and stops the itching, then it soothes and heals the skin. At drug stores, or by mail for 50 cents in stamps. J. T. Shuptrine, Savannah, Ga.

\$100 Reward.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials to address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Fits permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. \$2.00 bottle and treatise free. Dr. R. H. KLINE, L.L., 1531 Arch St., Phila., Pa.

After physicians had given me up, I was saved by Pilo's Cure.—RALPH ERBIG, Williamsport, Pa., Nov. 22, 1898.

If afflicted with sore eyes use Dr. L. Thompson's Eye Water. Druggists sell at 25c. a bottle.

She—"Are Mrs. Slinger's daughters at a marriageable age?" He—"Not now."—Puck.

USE YOUR REASON
And Profit by the Experience of Other People.

There are thousands of people who have been cured of nervous trouble, sorofolia, sores, rheumatism, dyspepsia, catarrh and other diseases by purifying their blood with Hood's Sarsaparilla. This great medicine will do the same good work for you if you will give it the opportunity. It will tone up your system, create an appetite and give sweet, refreshing sleep.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

NEW AND SEASONABLE.
SOME OF THE LATEST STYLES IN FEMININE GARMENTS.

Small Basque of Tobacco-Brown Ladies' Cloth. With Soutache Braid For Decoration—Ladies' and Misses' Russian Blouse Waist in the New Shade of Tan.

Tobacco-brown ladies' cloth, according to May Manton, was the material selected for this smart basque, with soutache braid employed as a decoration.

A BASQUE WITH VEST FRONT.

The adjustment is accomplished by single bust-darts, under-arm and side-back gores and a curving centre-back seam, all of which are carried beyond the waistline in pointed outline,

LADIES' AND MISSES' RUSSIAN BLOUSE WAIST.

a shaping that is universally becoming. The fronts open upon a vest of white satin-faced cloth, and are trimmed with parallel rows of braid. The vest is included in the shoulder and under-arm seams, and closes through the centre-front with button holes and small buttons. The neck is cut in V shape, displaying linen chemisette and white satin tie. An attractive feature is the neat coat collar, of the regulation tailor cut, the free edge of which are trimmed with braid. The sleeves, presenting a decided change from last season's models, are two-seamed, finishing with a slight puff at the shoulder. Cloth, serge, chevot, novelty and other similar fabrics are all suitable, with braid or machine stitching as a finish. The model is admirably adapted to early autumn wear, and, in conjunction with a well-cut skirt, will complete that most practical and economical of costumes, a tailor-made gown.

To make this basque for a woman of medium size will require two and one-half yards of forty-four-inch material.

Russian Blouse For Ladies and Misses. The stylish basque exhibited in the large illustration, and described by Mary Manton, is made of silk and wool novelty in the new shade of tan known as beige. The trimming is black ribbon velvet that is applied to the edge of the right-front in a single band that holds to position straps of the same width velvet having mirrored points. The sleeves are decorated at the wrists with a band of velvet and deep frill of lace, and a fancy belt encircles the waist. The hat accompanying is of brown straw of sailor shape, the severity of which is somewhat relieved by a veiling of spotted chiffon. The blouse bodice is arranged over a glove-fitting lining that reaches to the waist line and closes in the centre-front. The fronts of the material are smooth-fitting across the shoulders and bust, with the fullness at the waist arranged in gathers and drooping over the narrow belt in slight

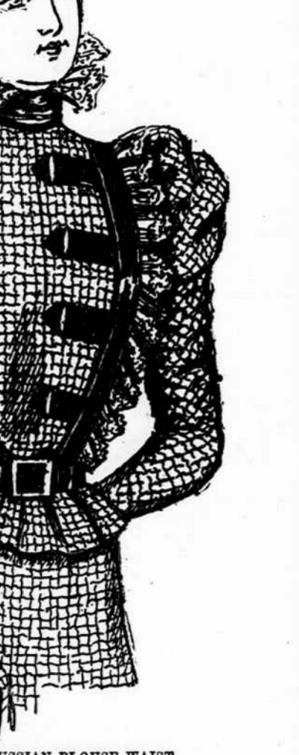

blouse effect. The right-front overlaps the left and closes invisibly on the left side, which flushes with a full ruffle of butter-colored lace. The back is seamless, with a scant fullness at the waist laid in close overlapping plaits.

The model shows an added basque that is joined at the waist to the blouse proper. These basques, or peplums, promise to be exceedingly popular during the coming season, being exhibited in the latest of Parisian importations. At the neck is a plain collar covered with a stock of ribbon edged with a divided frill of lace. The sleeves are narrow and fit the arm closely from the wrist to the elbow, above which the effect is slightly wrinkled or mousquetaire. They are finished at the top with puffs of the same that are caught on the shoulders in graceful and stylish effect.

Waists of this description can be made of novelties, plain, checked, striped or plaid woollens or lightweight cloths, and may be trimmed with either ribbon, braid, passementerie or velvet. Silk, velvet and corduroy are also applicable to the mode. To make this waist for a lady in the medium size will require two and three-fourths yards of forty-four-inch material.

Child's Apron. Figured dimity, embroidered edging and insertion were the materials used in making this neat and simple apron, but dotted Swiss, cross-barred muslin, striped and plain cambric, percale and gingham are equally suitable. The upper portion consists of a short fitted body having a straight lower edge, the neck being cut in low rounded outline.

The skirt portion is simply gathered at the upper edge and joined to the body, a band of needlework concealing the seam. A belt of insertion encircles the waist and is carried forward

NEAT AND SIMPLE CHILD'S APRON.

are finished with frills of embroidery headed by bands of insertion. To make this apron for a child of eight years will require three yards of thirty-six-inch material.

Florida, of all the States, has the most water within its boundaries, 440 square miles.

DEEDS PARTIALLY RECORDED.

A Few Items Picked Up From Various Sources

ACCOMPLISHED NEGRO THIEF.
Anderson's New City Hall—Charleston Will Receive Georgia Cotton—Reward For a Murderer.

A strange condition of affairs has come to light in the office of the register of mesne conveyance for Greenville county. A lawyer in looking up a title to real estate, made the discovery that the deed was only partially recorded. This discovery disclosed the fact that entries in the record book have been improperly made during the year 1893 to 1896. There are instances where deeds are only half copied, the work being left off without the names of witnesses. In other cases the names of notaries taking affidavits of subscribing witnesses and rendition of dower are omitted. Names of witnesses are left off or improperly placed. This will cause great inconvenience, but no loss is likely to result to property holders; but so long as deeds are improperly recorded a cloud will be thrown on the title of each party interested. Col. J. T. Austin held the office during the years mentioned and S. W. Seruggs was his clerk part of the time. The whole trouble was the result of carelessness. Mistakes are found in books Y, S, Aaa, Bbb, Ccc and possibly others. S. N. Stewart, the present incumbent, will correct the errors as far as possible.—The Register.

At Sumter, William Anderson, an employe at Mr. Edgar Skinner's gin house, met with a horrible death. He was standing in front of the gin, which was running at a high rate of speed. Stooping down, he reached his left arm underneath the rapidly revolving saws, and in some way his sleeve was caught by the teeth of the saws. In an instant the unfortunate man was jerked up to the front of the gin and held fast while his arm was cut into shreds. As soon as possible the machinery was stopped and Anderson was extricated, but the deadly saws had done their work. Medical aid was summoned at once, but before a physician could reach him death relieved him of his suffering. A jury of inquest was empanelled and a verdict rendered in accordance with the above.

There has been some bold stealing done in Wedgefield in open daylight. Tom Frierson, colored, who had been absent for nearly two months, dodging the officers of the law, returned last week and seized a bale of cotton, belonging to his brother Hayti, and sold the same to Mr. Dan McLaurin. Not being satisfied with this bale, he afterwards forged an order on the ginners and got another bale belonging to Irwin Keith. He also sold that bale to Mr. McLaurin, and after he had received payment for both bales, he left, walking. He went by his mother's farm, took two mules from the stable and sold them at Sumter. He left Sumter on the Florence train, pursued by Chief of Police Bradford.—The Register.

Charleston's board of health at a recent meeting passed the following resolution which speaks for itself: "Resolved, that the product of the farm and manufactured goods, except sugar, rice and molasses, will be permitted to come to Charleston from Atlanta, provided the same does not originate in any infected points and places." This lets in some of the Georgia cotton which has always come to Charleston but has recently been kept out by the quarantine restrictions.

At the fall term of court at Lexington, the case that enlisted most interest was the State vs. H. J. Pettit. It will be remembered this was the prosecution of the defendant, charging criminal negligence in the fatal collision near Swansea on October 14, 1896. B. L. Abney, Esq., represented the defendant and managed the defense throughout with consummate legal skill. The jury, after five minutes' deliberation, promptly returned a verdict of not guilty.

Charleston will have more than one direct line to Europe this season. The Johnson Blue Cross Company decided to inaugurate a line between Charleston and the leading European ports. The arrangements have been completed and the first ship of the line will soon arrive.

J. D. Wolf, a policeman at Orangeburg, died from the wound he received by a negro whom he was attempting to arrest. The negro has not been arrested as yet, and it seems to be understood that he will never live, if captured, to see the inside of the jail.

The city council of Anderson has let the contract for the city hall to Jesse M. Smith. The contract calls for the building to be turned over by the 1st of April, 1898. The price to be paid for the building is \$8,891.

A reward of \$100 has been offered by the Governor for the arrest and conviction of the person or persons who shot and killed Rufus Harling, of Edgefield, on the 9th of September.

The new equipment of the Aiken Manufacturing Company, of Bath, includes 32 looms and forty-four spinning frames, which combine the latest improvements.

The cotton crop of Edgefield has been cut off fully one-fourth by heavy rains. Other crops are good. The farmers are saving an abundance of hay.

The Citizens' Building and Loan Association has been organized at Columbia, with 1,000 shares of stock subscribed.

The twenty-fifth anniversary of the South Carolina Peace Society will be held in Columbia, Tuesday, Oct. 5th.

Abbeville is to run a 300-horsepower electric plant.

HALL'S Vegetable Sicilian HAIR RENEWER
does for the hair just what its name says it does—it renews it. Fading, falling, thin locks are stimulated to look fresh and new by its use; nature does the rest.

SOUTH CAROLINA LADIES DON'T LIE.

Mrs. C. M. Sowan
I have used Dr. M. A. Simmons' Liver Medicine for years, with the best of results for sleeplessness, nervousness, indigestion and swollen feet. It cured Miss S. Hammett of a complication of diseases; she says it saved her life. I think it far exceeds "Zellin's" or "Black Draught" medicine.

Falling of the Womb.
The cases of uterine displacement are very numerous and constitute a profligate cause of intense and wide-spread suffering. Its symptoms are bearing-down or dragging sensations, pain or weakness in the back, sometimes a sense of goneness at the pit of the stomach. It may result from too frequent childbearing, wearing garments that compress the waist and abdomen, over-lifting, standing on the feet too long, and general debility.

M. A. Ratherford
Walhalla, S. C., writes: I have used Dr. M. A. Simmons' Liver Medicine more than 20 years, for Torpid Liver and Dizziness. I take a dose every two weeks and feel all right. I know it is far superior to "Zellin's Regulator," in my case.

Womankind:
The health and well-being of mankind depend upon the physical health and perfection of womankind. Among the diseases which most impair the female constitution are leucorrhoea, irregular and painful menstruation, falling of the womb, chlorosis, scanty or too profuse menstruation. These diseases can be cured. Dr. Simmons' Squaw Vine Wine is a delightful remedy to take, entirely harmless, free from narcotics, purely vegetable and produces no unpleasant after-effects. It is unequalled as a uterine tonic and curative agent for all female diseases, as it is impossible for weakness of the uterus and generative organs to exist when it is faithfully and persistently used. Constipation is another bane of woman's life which can be cured by using Dr. M. A. Simmons' Liver Medicine.

McELREE'S Wine of Cardui
has demonstrated ten thousand times that it is almost infallible FOR WOMAN'S PECULIAR WEAKNESSES.

irregularities and derangements. It has become the leading remedy for this class of troubles. It exerts a wonderfully healing and strengthening influence upon the menstrual organs. It cures "whites" and falling of the womb. It stops flooding and relieves suppressed and painful menstruation. For Change of Life, it is the best medicine made. It is beneficial during pregnancy, and helps to bring children into homes barren for years. It invigorates, stimulates, strengthens the whole system. This great remedy is offered to all afflicted women. Why will any woman suffer another day with these troubles? Wine of Cardui only costs \$1.00 per bottle at your drug store.

For advice, in cases requiring special directions, address, giving symptoms, to "Lecithin Laboratories," Chattanooga, Tenn.

Rev. J. W. SMITH, Camden, S. C., says: "My wife used Wine of Cardui at home for falling of the womb and it entirely cured her."

MAPLE SYRUP MADE ON YOUR BITCHEN STOVE
A NEW PROCESS in a few minutes, which costs about 25 Cts. and sells for 50 per gallon. Also Maple Sugar made from same. "I want to thank you for the Maple Syrup recipe which I find is excellent. I can recommend it highly to any and every one."—Rev. Sam P. Jones, Cartersville, Ga. Send all postal orders and get receipts for 25 and will add cyclopedia of 2000 recipes covering all departments.
