representative ever elected to that body, is still very youthful in appearance, yet he is an acknowledged power as a speaker and lecturer.

In the report of Sam L Rogers, director of the census, department of commerce, on cotton ginned in the various counties of South Carolina prior to November 1, 1915, it is shown that 138,835 less bales were ginned than for the same period of 1914. The report shows that in Williamsburg county last year there were ginned up to November 1 22,850 bales, against 15,978 bales to the same date this year, a decrease of 6,872 bales.

A series of religious services, commencing Sunday morning next, will be held at the Presbyterian church here during the entire week by Rev A R Woodson of Wadesboro, N C. Rev Mr Woodson was formerly pastor of the Presbyterian church at Manning and is an able exponent of the gospel. During the week two services will be held each day, the series closing Sunday, November 28. The public is cordially invited to attend these meetings.

Col Geo A Gearhart, who so ably entertained Kingstree citizens at the Chautauqua course yesterday, will, we are delighted to learn, speak at the Presbyterian church Sunday night at 7:30 o'clock. Col Gearhart is widely known throughout the country as a Christian gentleman of high attainments and gifted to an unusual degree as a public speaker. Col Gearhart's lectures here yesterday were highly appreciated, and we are sure the people of Kingstree will be delighted with the opportunity to hear him again Sunday night at the Presbyterian church. The public will be welcome.

### Temperature Changes.

A notable change in the temperature occurred Monday after several spasmodic threats of cold weather, apparently giving a final farewell to the everlong hot season. The highest reading of the thermometer was 72 degrees, and this was registered at 7 o'clock in the morning. After that hour a steady decline in the temperature set in, and at 8 o'clock Monday night the mercury hovered around 55 degrees, but went down as low as 33 degrees before morning causing a heavy frost to form which remained on the ground Tuesday morning until the rays from old sol caused it to vanish. During the latter part of last week it seemed as if summer-like temperatures would continue and the pesky flies and mosquitoes apparently took a new lease on life, the latter being noticeable about town in great swarms. We hope this change in the weather has put a quietus upon the nefarious activities of these "busy little bees."

### How to Prevent Croup.

It may be a surprise to you to learn that in many cases croup can be prevented. Mrs H M Johns, Elida, Ohio, relates her experience as follows: "My little boy is subject to croup. During the past winter I kept a bottle of Chamberlain's Cough Remedy in the house, and when he began having that croupy cough I would give him one or two doses of it and it would break the attack. I like it better for children than any other cough medicine because children take it willingly, and it is safe and reliable." Obtainable everywhere.

### Distress in the Stomach.

There are many people who have a distress in the stomach after meals. It is due to indigestion and easily remedied by taking one of Chamberlain's Tablets after meals. Mrs Henry Padghan, Victor, N Y, writes: "For some time I was troubled with headache and distress in my stomach after eating, also with constipation. About six months ago I began taking Chamberlain's Tablets. They regulated the action of my bowels and the headache and other annoyances ceased in a short time." Obtainable everywhere.
