The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

A Progressive Love Party.

Did you ever hear of one? It is said to be ahead of "progressive society." It is exceedingly popular with bashful young men who are ashamed to tell their love. Shy maidens, in whose ears the sweet story is seldom whispered, are also delighted with the game. It is played somewhat in this way. An equal number of young men and women are required. Then a timekeeper is necessary. They pair off as chance may throw them together. At a signal the young men begin to make love. After ten minutes, or any definite number agreed on, time is called. Then there is a general sliding around and change of partners, which goes on until each young man has opportunity of making love to every young lady. After the rounds are made, the voting begins. The ladies vote for the best and worst lover-maker. The young men vote for the most attractive and responsive ladies and also for the hardest cases, or the most unlovable. Prizes are awarded accordingly.

A large audience attended the students' concert at converse College last Friday evening. There were a dozen numbers on the program. The young ladies showed that they had been doing faithful work under efficient teachers. Misses Martha Dwyer, Frances Carter, Gladys Fleming, Jessie Dean, Marie Schaper and Eugenia Flusley exhibited their skill and training on the piano. The vocal department was represented by Misses Minnie Carroll, Nannie Craig and Mrs. Rembert. Miss Hattie Fleming and Miss Marie Schaper demonstrated their ability to draw sweetest melody from the violin. It was an enjoyable concert.

A Big Fire.

Monday morning at nine o'clock fire was discovered in the second story of "Cotton Row." No one seems to know how it originated. When the reels teems arrived smoke was issuing from every opening. The fire had made so much headway that it could not be extinguished until the most of the woodwork and of the upper story was destroyed. There was little burning on the first floor. The first room next to the railroad crossing was owned by Col. Jos. Walker and occupied by the Charlotte Supply Company, Mr. Tennent being the manager. The second store was owned by S. Becker, and in that he had his steam bottling works and lager beer depository. The third was owned by J. R. Snoddy and occupied by the Bomar Brothers with their machinery. The fourth was owned by Col. Walker and was occupied by Lytle & Doolittle. The goods, except the heavy machinery of Bomar Brothers and S. Becker, were moved out. All were considerably damaged except Lytle & Doolittle. The buildings were fairly injured. The insurance on the goods was sufficient perhaps to cover the actual loss, not counting the expense of moving and setting up again. Bomar Brothers will go into a part of Carrier's livery stable. The Charlotte Supply Company has moved across the street to the Visonou Cafe.

He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by H. A. Ligon.
